Attn: NMC Member

Standardization Studies - Atomic Warfare

1. The Canadian Army comments and informal position on each of the studies listed in Inclosure 1 to Department of the Army letter OPS CD DC 3 dated 17 Feb 61 are contained in ANNEXES 'A' to 'H' attached.
2. It is recommended that these studies be released to NATO as a "package", or, in "packages" which contain related, cross-referenced studies, eg, A37 should be accompanied by A34 and D18.
3. On the assumption that these studies will be redrafted before submission to NATO, it is suggested that references to US publications (FMs and DA Pamphlets) be replaced where possible by references to NATO publications, because US reference publications will not be available to other NATO countries. In addition, the studies should also be coordinated with existing NATO studies and draft STANAGs before submission.
