1. Further to reports submitted re. the above subject the communist party of the Pass have taken a new line, this being that different members of the party will hold a party, a keg of beer being provided for the occasion, I am informed that a collection is taken up from those present. As the what- guests are invited naturally it is difficult for an outsider to get in. Whilst I have had information on such gathering for some days, just observations were made, however on Saturday night June 8th. 1940 such a party was held at the home of Nick Ukraivitz, at East Coleman Alta. at approximately 11. 30 P.M. accompanied by members of this detachment I visited this home and there found a party in progress approximately 40 persons, men and women. The party was orderly and no signs of intoxication, only one keg of beer in evidence and this covered on Ukraivitz's permit. I took the opportunity of checking all persons present and took all names for future reference. I might say that since this visit, many rumours have come back to me as to why names were taken? and what was going to happen? During the visit there was no signs of any literature nor anything else other than a regular house party.

2. At Bellevue it is reported that a meeting was held at the Mafti Wakulak house, on checking this down it was ascertained that the Ukrainian benefit had a meeting of the executive to handle several claims.

3. [redacted] of Bellevue who has been covered by personal history forms, is leaving this district shortly and is going to Calgary, Alta. he has secured prices on a single ticket to Calgary by Greyhound bus. This man has recently been very active in communist matters and has been chairman. The Ukrainian Farmers Temple at Bellevue where all communist matters have centred has been boarded up and closed. Pete Stakmovich being the caretaker.

4. The Ukrainian Farmers Temple association Hall at East Coleman Alta. is closed as well, with no activity.

5. The communist party at Blairmore presently is a dead issue, Mrs. John North, formerly very active in every thing radical I am informed has purchased a number of Government war bonds, she is seldom seen on the streets where she formerly was on the streets at all times.

6. Whilst communist matters are quiet at present, I am fully aware that the party is not dead in this area, and from information received I am of the opinion that before long meetings will be held at different points in the nature of house parties.

8. Reference the subject [redacted] mentioned in [redacted] I have included extra copies of report for Calgary Detachment, this subject is friendly with [redacted] communist. Whilst it is presently thought that [redacted] intends travelling by Greyhound Bus to Calgary, there is the possibility that he may go by freight or private car with friends. FORWARDED:

This has reference to memorandum of the D.C.I. dated the 21st instant at Ottawa. It will be noted that the N.C.O. I/c Blairmore suggests that the party in the Crows Nest Pass intends to remain quiet for the time being.

The same situation on the face of it exists in Lethbridge, but I am quite certain that the activities of this party are continuing underground, and meetings of activities will take place at different places when they have reason to discuss business of the party.

1. Reference my report of the 12.5.40, para. 1 thereof headed as above. The street corner talking mentioned therein has entirely ceased. [redacted] it is difficult if not impossible to get a conversation regarding communistic activities.

2. Since the announcement was made over the Radio that the Communist party had been declared an unlawful organization, it has indeed been noticeable the actions or change of same, among members of the party / either suspected of membership or adherents to the party. On receipt of news of the outlawing of the Party I patrolled this detachment area and visited districts where suspected communist activities have been noted, some activity was noted at most places and lights were on until early morning, with visits being made from one suspected place to another, continued patrols has shown suspected places for the past week as being in complete darkness with no activity.

3. Another point very noticeable to me, persons of long connection with radical organizations have gone out of their way during the past week to discuss European conditions with me, and to endeavour during the conversation to impress upon me how "loyal they are to the cause" pointing out that their activities have solely been in connection with the labor movements, such activities however the point out have been mistaken by some as communistic leanings. "

4. At the moment in this area it is safe to say that the communist party "have the wind up proper" and there is no activity of any kind, how long this situation will last remains to be seen, close touch is being kept and patrols as mentioned in para.2 will be continued.

1. Since submission of last report as marginally noted the Communist party have shown little activity, leaders of the party being busy on union matters in and about Coleman Alta. However there appears to be some activity planned, just what it is I have not as yet ascertained. For the past few days it has been noticed that small groups of members of the party are doing more ~~coner~~ talking than formerly and more whispering. I have kept observations and [redacted] find that little activity is going on, with no meetings being held at Blairmore or Bellevue dist.'s.

2. The Communist party at present in Coleman and Bellevue Alta. are in reality the Ukrainian Benefit Association, this organization are showing marked activity in group plays for the children etc. and close touch is being kept on them. To the present all plays and sketches have been purely of a folk nature and the speaking parts in English, [redacted] that the only activity among the communists of the district are within this organization.

3. During the week ending 1.5.40, residents of Bellevue, Frank and Coleman reported that communist literature had been distributed, on investigation it was found that at Bellevue two stickers reading as follows "TAX THE RICH FOR THE RICH MANS WAR" and FOR LIFE WITH A FUTURE JOIN THE COMMUNIST PARTY" these stickers are printed in purple ink and are 1 1/2 inches wide and 4 inches long. At Frank a sticker reading "WITHDRAW CANADA FROM THE WAR" was found, At Coleman a sticker similiar to that found at Frank was found, all stickers had been stuck on telephone posts at main corner roads and on Provincial Highway No.3. From my investigations I have been unable to find where any more stickers made an appearance and I am inclined to think that from the position of the stickers on the posts that the party who placed them was using a car as the stickers were approximately 7 feet from the ground, and would leave the impression that a running board of a car could be used to give the added height, the sticker at Coleman was destroyed in removal. Stickers mentioned are attached hereto.

The situation at Coleman is quiet, Mrs Jos Poliska and Nick Ukraivitz being the leaders at present. the last meeting was held approximately one month ago at the Ukraivitz home in East Coleman, Alta. and consisted of a neighbourhood meeting. The only business discussed being routine. Coleman at present is badly tangled with labor matters and very little time is left for other discussions. 1. With further reference to the above subject, conditions general are quiet. Due to other activities in the Coleman area, communism and other subversive matters are dead. Coleman presently is the centre of a fight between the Coleman Miners association and the U.M.W. of A for control of the camp.

2. The Blairmore element are quiet in so far as Blairmore is concerned, but during recent investigations on other matters I have found that Blairmore communists are active at Frank, Alta. The following is submitted in this respect. At Frank Alta. we have the National Alliance of Slovaks Czechs and Carpathorussians in Canada with Vince Kotas, President-Tony Pohamac financial Secretary and Joe Horesji, recording secretary, with a membership of around 70. This is the only organization of similar name functioning in this area. The objects of this organization are to be loyal citizens, and maintaining and defending Canadian democracy and uniting all peoples of Slovak, Czech and Carpathorussians origin into a movement under the leadership of Dr. Benes, membership fee is \$1.00. The head office being at Toronto, Ont. Meetings are held monthly with occasional banquets with programmes. I have attended one meeting as an invited guest and whilst the meeting was opened with the National anthem of Canada as well as their own national airs, still on looking around the assembled gathering it was noted that a large number of those present were formerly members of the Blairmore communist party. As a result of this observation I have made a check of the membership and present activities of the Alliance, and find that practically all of the former members of subversive organizations at Blairmore and Bellevue points were listed among the membership and were endeavouring to become active. Some of the better class members have retired from active work in the alliance and are watching developments from the sidelines.

3. [redacted] I find that the matter has been reported to the headquarters of the Alliance, and it has been suggested that the membership qualifications be made more rigid. Persons within the membership are watching developments closely and they report that the subversive elements whilst they have not suggested any changes as yet, are gradually boring in and gaining control of the Alliance. They have promised to keep me informed of developments. touch will be kept and reports submitted.

4. Communism at Bellevue is indeed quiet, no new officers appointed as yet, and the membership consists solely I am informed of Ukrainians. (refer to page two )

para. 4 continued. regular meetings are held in the Ukranian hall at Bellevue. Alta. with purely routine matters discussed. The meetings I am informed are more on the line of social meetings, singing, dancing and folk songs.

5. At Hillcrest the communist party haven't been large in numbers, checking at this point shows that to the present no increase in numbers have been noted, this is surprising as due to lack of work in the camp and lots of time on their hands, I was of the opinion that it would prove fertile ground for organizers, but to the present no outside organizers have visited the area nor in fact the whole of the Pass district.

1. Reference paragraph 3 of my report of the marginally noted dat. Harvey Murphy, mentioned therein left Blairmore Alta. by C.P.R. on Saturday January 6th 1940 enroute to Toronto, Ont. His wife and child are remaining at Blairmore Alta for the time being. There is some talk of Murphy again coming to the West, this however is only rumour and not authentic. Whilst this subject was at Blairmore, Alta. he spent much of his time with his son, and did not make many appearances about the town. As far as I can gather he did not attend any communist meetings whilst on this trip, and I am informed that considerable drinking was carried out at nights at the home of Issac or Ike Rae at South Blairmore, this man is the father in law of Murphy.

2. Conditions generally are quiet in this area. There being little activity in communist lines. I would request please, that this file be given an open diary date.

2. Blairmore, a funny position exists after the mixup between Mayor E. Williams and the party over town affairs etc. the organization went into a slump, and then with conditions in Europe, more especially the Russian Finland affair a further knock has been received by the communists. At Blairmore we have quite a few families of Finlanders, all of whom are either active members of the communist party or close adherents to same. Presently the Finns are divided, some are of the opinion that it is their duty to go to their homeland and assist by joining the armed forces of Finland and others think and openly state that the war news regarding the Finns and the Russian is purely propaganda, however the Finns who think they should go home are in the majority and communism at Blairmore at present is suffering.

1. In the Crows Nest Pass district matters pertaining to communism are very much upset. Reference my report of the 8.10.39 same heading para.5 re Mayor Enoch Williams and his town relief troubles. The unemployed forced the hand of Williams into calling a ratepayers meeting over the appointment of a man as town foreman, not approved by the unemployed organization. After a very hot meeting a resolution was put and carried amounting to a another non confidence vote in the present town council. This is the second non confidence vote carried out against the present communist or workers council. The meeting whilst being advertised by-as a ratepayers meeting only had two representatives of the business men present. As a result of this second vote against the council Mayor Williams, a communist and his council are very much disgusted, Williams claiming that the communists of the town did not give him the backing he should have received, and Williams again has issued dire threats against some members of the party, I am informed that the leaders of the attack against Williams were Gaston Bazille, former electrician of the town and former member of the party, Frank Leary local miner and former member of the party, and Robt. Horne, also a former member of the party. This mixup has not helped the party at all.

1. Referring to O.C Lethbridge Sub Division's communication of the 10th. October 1939, headed as above. The following is submitted.

2. Joseph Mc Dougall, correspondent at Blairmore Alta. for the Lethbridge Herald or Lethbridge Alta. called at this detachment on Thursday October 4th. 1939, and during conversation requested information as to the identity of one Ben Swankey, I was asked if this subject had to my knowledge been a candidate for alderman at Edmonton Alta. at the last election. Mc-Dougall, I could see was looking for information about this man for some reason or other and any information given was very guarded indeed. I finally asked why he was interested in this man and he informed me that his paper, the Lethbridge Herald had communicated with him and requested a lineup on this man, as he (Swankey) had written several letters to the Herald for publication, and they were holding one as it was "certainly of a seditious nature" and before printing same they wanted some information as to who Swankey was etc. I endeavoured to secure from Mc Dougall further information but he appeared to know nothing further.

3. From my knowledge of Mc Dougall and his connection with the Lethbridge Herald, most of his instructions come through a Mr Steele of the Herald staff, and I assume in this case Steele was the one who required the information.

4. As the conversation with Mc Dougall, took place after the Lethbridge Herald would go to Press on date mentioned, I am of the opinion that there is really a third letter in existence. I have discussed this matter further with Mc Dougall and nothing further was ascertained. Mc Dougall at time of our interview requested that his name be not mentioned in the matter as he derives considerable revenue from his work with paper and does not want to get in bad with them.

### GERMAN-RUSSIAN PACT

Editor of the Herald:

Sir,—On August 23rd the Soviet Union signed a non-aggression pact with Germany. It seems to me that there is much misunderstanding and in some cases much harmful speculation as to both the meaning and significance of this pact.

Mr. Molotoff, the Soviet premier, in speaking to the Supreme Soviet (parliament) explained that after attempts to establish a mutual assistance pact between France, England, Poland and the Soviet Union had failed, then the Soviet Union had to seek other ways of maintaining peace and keeping its peoples out of war. It has always been plainly evident to the U.S.S.R. that one of the main dangers to world peace and to the Soviet Union was the imminence of an attack by German fasism on the Soviet Union. Therefore when Hitler expressed his willingness to sign a non-aggression pact, the Soviet Union agreed.

The pact is not a pact of mutual assistance. It has no secret clauses. It simply pledges that Germany will not commit aggression against the Soviet Union and vice versa.

This pact marked no change in Soviet foreign policy. The Soviet Union already had non-aggression pacts with ten other nations—Turkey, Italy, etc. As a matter of fact the Soviet Union has always been willing to sign a non-aggression pact with Germany, but until recently Hitler would not consider it.

But the pact did mark a change in German policy. For six years German fascism has been planning to attack the Soviet Union. For six years Hitler fascism has been the spear-head of all anti-Soviet agitation. For six years Hitler has paraded himself as the self-appointed savior of the world from Communism. In this policy Hitler fascism was aided and abetted by powerful and influential circles in other countries.

And now Hitler all of a sudden signs a pact, and temporarily at least, drops his plans to attack the Soviet Union. This is clearly a change in German policy. In signing such a pact, Hitler double-crossed his friends and supporters in other countries who all these years have been helping him on the promise that he would make war on the Soviet Union.

Why did Hitler sign such a pact? Mainly I believe because he realized that to attack the U.S.S.R. would mean the end of Herr Hitler and of

German fascism. But also because he hoped by this act to bring enough pressure on the British and French governments to have them agree to another "Munich," and this time Poland was to be the victim. However Hitler failed to reckon with the British and French people who would not stand for any more appeasement and who supported their government's pledges to Poland.

The pact performed some very good services, not only in that for the time being at least, it prevented a war between the Soviet Union and Germany. It also performed other services, detrimental to fascism and helpful to democracy. It split wide-open the anti-Communist alliance between Germany, Italy, Japan and a few smaller countries. In doing so it broke up the united front of the aggressor nations which was in practice directed not only against the Soviet Union but against the democratic nations as well. The absence of Italy and Japan from the side of Germany in the present war is a case in point.

The pact also exposed Hitler before his own people. In signing the pact he virtually had to take back his many statements to the German people to the effect that no treaties could ever be signed with the terrible Communist state. The pact also shows the German people that the Soviet people do not wish to make war on them.

In my opinion the pact is of historic importance. It marks the beginning of the end of fascism. It should be hailed by all anti-fascists as a victory over fascism.

BEN SWANKEY.

### POLAND

Editor of The Herald:

Sir,—As Winston Churchill stated in an Empire broadcast on Oct. 1, one of the main developments of the first month of war was the defeat and collapse of Poland.

Why was Poland defeated in such a short space of time?

The first reason, and one which is obvious to everyone, is that Poland was faced with superior German military forces of every kind—on the land, sea and air. Added to this is the fact that Poland's western frontier was inadequately fortified.

But German military superiority does not wholly explain the defeat of Poland.

The second reason in my opinion is that England and France failed to give Poland sufficient aid to prevent her defeat. As Bernard Shaw said in an letter to the London Times on Sept. 20, "the truth as we now have to admit is that our support has so entirely failed that the Polish resistance has been wiped out and with it the Polish army and Polish government." This conclusion is further prompted by the many appeals which the Lord Mayor of Warsaw made by radio to England and France, all of which remained unanswered as far as practical mili-

tary help is concerned.

The third reason for the defeat of Poland is the fact that Poland was itself a semi-fascist state with a "wretched class government" (to use the words of Lloyd George on Sept. 28); a government based on suppression of its own minorities (German, Russian, Ukrainian, etc.) as well as its own people. To quote Lloyd George on this point: "The Polish peasantry is living in great poverty owing to the operation of the world feudal system in Europe." A government which is itself inclined to fascism, which oppresses its own people can hardly expect to win the whole-hearted trust or support of its own people. Events proved that the Polish government could not stand the strain of German aggression and that it did flee and desert its people in their hour of need. Lloyd George correctly characterized it as a government "which bolted while their capital was still offering indomitable resistance and while hundreds of thousands of their soldiers were still valiantly defending Polish soil." No one can question the bravery of the Polish people, particularly the Warsaw workers, and their willingness to lay down their lives in defense of their country. But the same can certainly not be said for the Polish government. As the Edmonton Bulletin said in a short editorial on Sept. 21. "The defenders of Warsaw, deserted by their government and their general, but fighting to the death against unnumbered odds, afford a spectacle of heroism."

Spain, which had a democratic Popular Front government, withstood the assaults of internal fascism and foreign intervention for over two years, and then was only defeated by betrayal from within.

One lesson at least that we can learn from Poland is that to be strong, a nation must be democratic, and the more liberties the people have, the more secure will the country be in resisting fascism, both from within and without.

1. On instructions N.C.C. i/c Blairmore detachment, I attended a public meeting under the auspices of the above named C.P.C. The meeting proceeded as it had been advertised on notice boards in the town of Blairmore and other Pass towns - "Public Meeting, Union Hall Blairmore, Sunday Sept. 24, 1939, at 2:00 p.m. Speaker - Ben Swankey. 'War in Europe': What is the position of the Communist Party of Canada? of the Soviet Union? What must we do to win the war? Come and hear these questions discussed."

The meeting assembled under the chairmanship of Albert Olson, member of the executive of the local C.P.C. By actual count there were fifty-seven people in the audience, of which five were women. The hat was passed and the chairman announced the collection amounted to two dollars and fifty cents. Chairman Olson, who is also a councillor of the town of Blairmore, introduced the speaker as 'Ben Swankey, organizer of the Communist Party at Edmonton.'

3. Swankey spoke for an hour and his remarks were saturated with quotations from newspapers such as London Times, New York Times, Manchester Guardian, Philadelphia Standard, Edmonton Bulletin, Calgary Albertan, Lethbridge Herald. He read news items, editorials and excerpts from comments of Lloyd George, Lord Beaverbrook, George Bernard Shaw. Summarized, Swankey spoke as follows:

A. R. V. No.

4. "The Communist Party fully supports this war. As evidence of this, a number of our leading Communists have joined the Canadian Active Service Force. The war was started by Hitler and Nazi-ism. I believe the 'Appeasement' policy of certain statesmen of certain countries encouraged Hitler and was a factor in starting the war. I dislike seeing certain men who took part in the Munich pact still at the head of certain governments. In the English government I welcome the inclusion of such men as Anthony Eden, Duff-Cooper, Winston Churchill, who are strong foes of Hitlerism.

5. The attempted mutual-assistance pact between England and Russia fell through because underlings, incompetent clerks, with no authority to sign for their Government were sent from England to deal with the Russian government at Moscow. I was not surprised at the signing of the Soviet-Russia - German non-aggression pact because it is the policy of the U.S.S.R. to sign non-aggression pacts with all countries possible, they have already signed eleven pacts with such countries as Italy and Poland. On the other hand I was surprised to see Germany sign an agreement with the Communist Soviet Union because the German government has executed and gaoled hundreds of thousands of German communists since the Hitler government came into power in 1933, and the Hitler Government know the Communists are working underground to overthrow the Nazi government.

s.15(1)(d)ij

6. At the collapse of the Polish government, the Soviet Union moved its Red Army into the territory formerly Poland, because the country of Poland had ceased to exist.

(Cont'd).

440

THE COMMUNIST PARTY OF CANADA.  
BLAIRMORE, ALBERTA.

..... ".....As Poland had ceased to exist, the movement westward of the Red Army, was not an invasion of Poland. Therefore Soviet Russia was not breaking its non-aggression pact with Poland, since there was no Poland. The Red army was received with welcome in the former Polish provinces, with a slight amount of resistance from the rich land-lords who had been oppressing the peasants, and who knew that their land would be divided up among the working people, as has been done. The movement westward of the Red Army was a good thing for the country occupied: the three million white Russians and the Five Million Ukrainians were taken under the protection of the Soviet Russia, away from the fear of Nazi domination. Also the Red Army by occupying the land north of the Rumanian border are a buffer between Germany and the rich oil fields of Rumania. So the movement west, of the Red Army is justified.

7. "We must support this war until Hitlerism and Nazi-ism are defeated in a military way and in a political way. For the good of the government of this country I criticize some of the policies of the government. I criticize the tax on tea and coffee: there should be more tax on the rich people, instead of on the working people. I am not in favor of a Union Government in Canada, because it might contain such re-actionaries as Manion who said 'Hitler is all right up to a point', and I do not believe that Hitler is any good up to any point."

8. Swankey's speech finished, the meeting was thrown open for questions and the first question asked of Swankey, by W. Turner, a grey-haired Englishman, was "If you are so anxious to fight Hitler, why the hell dont you enlist?" Then Tom Horn, a Scotsman, vitrolically denounced Swankey's explanation of the movement s of the Red Army as in par.6. Soviet Russia was further denounced by unidentified Poles, Englishmen, and A Belgian, and Swankey was denounced for trying to justify Russia's present tactics. There were a number of Italians present at the meeting but they did not enter into the discussion. The meeting broke up at four-thirty oclock.

3. The subject [redacted], mentioned in Lethbridge C.I.B report dated July 21st.1939 heading of which is Communist Party of Canada.- Lethbridge Alta. Activities of, arrived in the Pass on the 22nd ~~and~~ July 1939, he contacted Enoch Williams, local communist and mayor of the town at once, and whilst in this area associated solely with known communists, he held one meeting at the home of Louis Castellan at South Blairmore Alta. the discussion being purely the part the communist party is to take in the proposed Provincial election, that is, that the party will not run a straight communist candidate, but if one is nominated he will run as labor, or will support the present provincial Government. I am informed that his chief business in the Pass was to see what Enoch Williams intends doing, Williams no doubt will be in the running for the labor candidate in which case he would draw considerable support from local communists. Campbell also mixed freely with the unemployed organization of the Pass area, but did not attend any of their meetings. Campbell left the Pass on or about the 27th. 30-10-38.

1. With reference to instructions of the Officer Commanding "K" Division under date of October 14th.1938 the following is submitted in connection with the above matter.

2. The present political situation in so far as it pertains to communism is quiet. The communist party from information received and from investigations have approximately 30 paid up members at Blairmore. They have the usual number of adherents, (but not members of the party) The party as a whole at Blairmore has developed into "just another organization" they have meetings at irregular times, mostly at the home of Mrs. John North of South Blairmore. The activities of the Blairmore branch has been anything but aggressive, meetings sparsely attended, with I am informed very little business being done at such meetings. From information received there is a decided split in the Blairmore communists. Enoch Williams, Mayor of Blairmore is the local secretary and also the general secretary of the party in the Crows Nest Pass district, friction has been noticeable between he and other known members of the party, this friction and disfavour possibly being due to lack of activity on the part of Williams. Williams is not a believer in the "blood and thunder type", and is not in favour of an outside organizer, there still being some members of the party who think that the party should be holding outside demonstrations, and making the presence of the party known. Again Williams being mayor of the town is against organization interference with town affairs. Strong members of the party under the direction of William s have been expelled or suspended from the party for non payment of dues, and they are knocking Williams among other party members.

3. Williams is also secretary of the local union of the U.M.W. of A. and is being criticized by the union, mostly among the communist element for not being more active in connection with the local mine agreements, the agreement expired in March last, and to the present has not been signed, a board was appointed by the Government, but to the present they have not rendered their decision. Williams is blamed for not being on the job enough and keeping the union members informed of developments. As a whole the political situation in so far as communism is concerned is very much upset, in the event of an outside organizer coming to Blairmore, he would have little trouble in bringing the party back to normal and could I think increase the membership by taking back old members, who have left the party due to not approving of the actions of Williams. At the present time there is no trouble being experienced over the activities of the party, touch however is constantly kept with the activities of same.

Re)- COMMUNIST PARTY OF CANADA- Blairmore, Alta.

para 4. The Town council of Blairmore is composed of the following a short history of each appears after each name.

Mayor Enoch WILLIAMS-born in Nova Scotia is general secretary of the communist party in the Crows Nest Pass has been a delegate to Russia for the party, is also secretary of the U.M.W.A. Blairmore local has been active in connection with party affairs, has idea's for a political career and at present is beyond doubt looking for the labor nomination for the next Provincial election, this may account for his actions within the party as well as keeping the party members quiet. During his term as Mayor he has filled the position in an able manner.

Councillor Romona FERRISSINE or sometimes spelled FERRISSENE is an Italian, has been a strong labor man for years in 1933 and 34 he was understood to be a member of the communist party, I am not sure of his connection with the party at present. Elected on miners ticket.

Councillor Albert Olson, Swedish, strong member of communist party, chairman of light committee. Elected on Miners ticket.

Councillor Evan Morgan, Welsh, longest serving member on council, not communistic, but a strong labor man,

Councillor Ed Wormsley, English not a member of the communist party, but friendly with members of same is a "Yes" man on the council, was formerly a strong member of the church, but since becoming a member of the council on miner's ticket and associates with Gaston Bazille, town electrician and an avowed communist. Wormsley was at one time active in social credit affairs, but recently seems to have changed his views.

Delbert Enns, Canadian born, elected on Union ticket active in town and union matters, is not a member of the communist party, but a strong labor party advocate Chairman of relief committee

s.19(1)

Angelo Pagnucco, Italian, elected on union ticket, is a strong communist party man, has made a fairly good councillor, chairman of police committee. Appears to be the contact man between the council and the party.

Cecil Larbelestier, secretary Treasurer of the town as well as secretary treasurer of the school District, took over positions in either 1933 or 1934. Is from the Isle of Wight, appears to know his job and is a hard worker, he is not a member of the communist party, he has developed into a decided "yes" man the last few years.

s.15(1)(d)ii

Gaston Bazille, town electrician, an avowed communist and former member of the Blairmore group, is still active in C.I.O. matters and is definitely a communist at heart and very radical very friendly with Wormsley but on the outs with Olson and Williams both party members.

Fred Goddard, chief of police, is a member of the miners union, he is not a member of the Communist party, Any leaning

page three.

Re; COMMUNIST PARTY OF CANADA-Blairmore, Alta.

s.19(1)

Para. 4 cont'd. Re Fred Goddard, town chief. Any leanings this man may have towards communism are purely for position purposes. Is presently not on good terms with Mayor Williams and councillor Wormsley, he is very friendly with Pagnucco, suspected contact man between party and council. Goddard is Canadian born.

Andrew Tortorelli, Italian, town foreman and tractor man [redacted] has recently joined the party.

5. From the above it will be seen that the council and employees of the town of Blairmore are either members of the party or strong labor, and inclined to be radical, in spite of some of the council's functions good and have handled town affairs in a fairly successful manner.

Re: Clothing Relief -  
Town of Blairmore.

1. In 1933 the Town of Blairmore had a Labour Council with very radical views, and the Bureau of Relief & Public Welfare formed the opinion that this Council was allowing abuses in connection with Clothing Relief, so put the matter of recommending Clothing Issues in the hands of the R.C.M.P.

2. We have been doing the work ever since, but Sgt. Cawsey now reports that there has been a marked change in the political situation in Blairmore, the Town now being controlled by a representative Council, not one faction as formerly. He therefore suggests that the Bureau of Relief & Public Welfare be asked to relieve us of duties in connection with Clothing Relief and place the full responsibility on the Town.

3. Before making any request to the Bureau it appears desirable to secure full information as to the present political situation in Blairmore and the party leanings of the Mayor, Councillors and other elected officials, also the Secretary-Treasurer, Mr. C. M. Larbalestier. The Mayor and the Secretary-Treasurer are the two persons directly concerned with the issue of Relief.

4. Please have inquiries made through whatever sources of reliable information you may have at Blairmore. It is not necessary to refer to the Relief angle when doing so.

2. On my return from leave of absence, it was found that Lawrence Anderson of Edmonton, and Pat. Lenihan of Calgary, Alta. had both been in the Crows Nest Pass district. I was also informed that it was their intention of coming back to the Crows Nest Pass within a short period. To the present neither of those mentioned have returned.

3. It has been ascertained that both Anderson and Lenihan were working in the interests of the Communist party, some work was done about Coleman Alta. but from reliable sources I have found that not much success was attained.

4. Both men mentioned spent the majority of their time in Michel and Fernie B.C. points, where I understand they had fairly large meetings.

5. Whilst in this area, the car of Steve Repas of Hillcrest Alta. was used for going to and from B.C. points this car being Alberta license No. 74-146

1. The above mentioned formerly connected with the "CLARION" newspaper of Toronto, and a member of the Dominion Communist committee has during the past week held Mass meetings at Blairmore Hillcrest, Bellevue and Coleman, all meeting have been in the open air, and small crowds attended same, with the exception of Bellevue meeting which had possibly 100 in attendance, none of the other meeting drew more than 50 persons. This man has been assisted in his meetings by Mayor WILLIAMS of Blairmore, Old OLSON of Blairmore, and other local communists.

2. This man is a fair speaker, with a quite pleasing platform attitude, his subject was the present situation in Alberta, and run along the usual communist lines, he stating that the trouble in Alberta at present is not the government but the capitalist system trying to undermine the government.

3. Whilst this man is supposedly speaking on behalf of the Communist party, by listening to his talks, I have formed the opinion that he is touring Alberta in the interests of the C.I.O. at all of his meetings he dwelt on the matter of organized labour and carefully explained to those listening the advantages of organization more especially that under the Lewis administration in fact he dwelt more on this subject than the ~~subject~~ subject he was announced to speak on.

4. The communist party at Bellevue and the U.M.W of A also at that point have been making efforts to obtain signatures on application forms of all unorganized labor, including painters etc.

5. MORRIS's presence in this district for the week, has had the effect of somewhat reviving the factional feeling among the communists, and already several fights have taken place within the town of Blairmore over factional feelings, otherwise I do not think the Morris trip was a success. Morris has left the district Two copies of this report direct to Cranbrook Detachment.

Blairmore, famous coal mining town in the Crow's Nest Pass, again ret<sup>ained</sup>~~ains~~ a Communist municipal Government in the civic election held on 8th February. Enoch Williams, member of the delegation visiting the Soviet Union in 1935 and one of the more prominent local leaders of the Communist Party of Canada, was elected Mayor defeating Mayor William Knight who resented the dictatorial attitude of the Communist Party and who ran as an Independent against the standard bearer of the Communist Party of Canada. The candidates of the Communist Party for the council were all elected; they are Albert J. Olson, (present sitting member), Evan Morgan and Romano Perissine. Martin Krykosky was the successful Communist Party candidate for the School Board.

This year's election again illustrates the tremendous influence the Communist Party of Canada exercizes in this town. Notwithstanding the determined and well organized effort on the part of the moderates, the Communists were able to <sup>retain</sup>~~retain~~ control of the municipal administration. The vote is said to have been overwhelmingly in favour of the Communists.

Re: COMMUNIST PARTY IN CANADA. CROWS NEST PASS AND DISTRICT. BLAIRMORE, ALTA.

Headquarters

1. Referring to reports re the above matter submitted by this detachment. February 8th. 1937 was election day throughout the Crows Nest Pass.

Sub-Division

L.S. 52-1.

2. At Blairmore Alta. a full slate of Candidates were run by what is termed the workers party and also Independants which in reality was the citizens league. Resulting in the workers returning their slate with one exception. While the workers took the name of the Progressive party, they were backed by the COMMUNIST party and the majority of the candidates were members of this party. The Independants were practically all officials of the West Canadian Collieries of Blairmore, and it is noticable the manner in which the workers turned the company down, they the workers making it a straight fight due to advertising and other means between the company and the worker. In reality the company did not take an active part in the election nor do I for a moment think that they used any pressure on the Independant slate. The Progressives (Reds) however used every effort to obtain votes and did not stop at throwing dirt etc. and used the fact that the opposition were all officials of the company. Pat LENIHAN, local head of the Communist party was head of the election committee and he was ably assisted in his work by other members of the party from Pass points including John STOKULAK of the U.M.W. of A. Calgary Alta. and also a strong Communist.

Re:- Communist Party in Canada- Crows Nest Pass and Dist.

for re election, and at the last moment <sup>THREW</sup> through his support to the Independants and against the Communist Party and their candidates.

5. An interesting fact of this election is that of the action of a certain church throwing its support to the Independant slate. By the return of votes it is noticeable that the majority of the foreigners who have votes were also members of this church they however voted straight worker and against the church.

6. The present standing of the differant bodies of the town is as follows; School Board two anti reds, and four Communists. Town Council;- Communist Mayor, Two supposed anti reds, ~~two~~ on the fence, leans to Communists and two definate communists. Which on a vote give the Communists the majority.

7. Victory dances were the order throughout the Pass dist. until the early A.M of the 9th. inst. with considerable drinking and carousing by the Communist members. All being in private houses etc.

8. Another interesting point regarding Pass elections is that at Coleman. The workers at that point elected three of their members to the school board replacing three members elected last election by the citizens league of Coleman, while the elected men are not Communists, it shows that the workers are breaking away from the citizens league, and shows the efforts of the Communist and Union organizers have made considerable headway at Coleman, and towards that Union at Coleman known presently as the Coleman Miners association, it will be remembered from reports that the U.M.W. of A definateley have stated that Coleman must be organized to their body. This in my opinion is the first break away from the Coleman Miners association, which was formerly sponsered by the citizens league

9. The Communist party still have control of the Unemployed organizations at Bellevue, this is referred to in my report, same heading of the 19th. Jan. 1937 para. 7 thereof. They have however stopped efforts at improvements of conditions locally, and have swithed their letter writing and telegrams to Ottawa.

10. With the support accorded at the elections, the Communist party will no doubt show activity again, touch will be kept with the situation and reports will be submitted.

Still under investigation.
