ROYAL CANADIAN AIR FORCE
DAILY ROUTINE ORDERSPage: 5
Serial No. 40
15th February, 1943.Issued by Group Captain R.A. Cameron
Commanding R.C.A.F. Station Mountain View, Ontario12. CHARGE SHEETS

The attention of all unit commanders is drawn to the importance of prompt transmission of completed charge sheets to Station Headquarters so that the necessary recording may be made in accordance with M.R. (Air). Unit commanders are therefore to have such documents transmitted by runner immediately a charge has been heard.

13. ECONOMY IN USE OF ELECTRICITY FOR THE FURTHERMENT OF THE WAR EFFORT

It is essential that the utmost economy be exercised in the use of electricity. Whilst it is desirable that all personnel have ample light for their work and recreation, the wastage by light being left on in rooms and buildings after they have been vacated assumes large figures when taken for the Station as a whole. Officers in charge of buildings are to ensure that unnecessary lights are turned out, and that someone can be held responsible if lights are found burning after buildings have been vacated.

14. N.I.V. ITEMS

Attention of all Sections concerned is drawn to A.F.R.O. 1282, dated 31st December, 1941, which states as follows:

When purchases of N.I.V. items are unavoidable, the demand is to be accompanied by:

(a) A statement explaining why N.I.V. item is required in lieu of, or in addition of, that shown in C.A. P. 10.

(b) A sample of the item required, or if not feasible, a complete detailed description thereof, to enable personnel not familiar with the equipment to obtain costs from varied sources with minimum effort and delay.

Demands for N.I.V. items not supported by the foregoing instructions are to be returned to the demanding unit for correction, without action being taken.

15. SERGEANTS' MESS MEETING

There will be a meeting of the Sergeants' Mess on Wednesday, 17th February at 1730 hours meeting to be held (as designated on the Bulletin Board in Sergeants' Mess). All members are to attend, unless written permission is granted and signed by the Unit or Flight Commander and forwarded to the Chairman of the Mess prior to the meeting.

3. FURLOUGH RAILWAY TICKETS

1. There seems to be considerable confusion or misunderstanding prevalent as to the manner in which furlough railway tickets are issued.

2. Railway Companies are under the strictest instructions that such furlough tickets are sold only to members of His Majesty's Forces for the purpose of travelling IN UNIFORM or in exceptional cases when travel in civilian dress is permitted on surrender of C.F.A. 95 bearing personal signature of the Commanding Officer or Transport Officer. It is felt that the regulations must be adhered to or else there is danger of misuse of the reduced fares that could ultimately react against those whom the railway companies are trying to serve. C.F.A. Form 95 may be obtained from the local railway ticket office. (File 17-1 (P4)
(Auth) No. 1 R.C. Letter, d/30th December 1942.)

11. 35-SENTENCE OF A GENERAL COURT-MARTIAL

s.19(1)

1. [REDACTED] an officer of the Royal Canadian Air Force serving at No. 3 S.F.T.S. Moncton, N.B. was tried by a general court-martial on the 9th day of November, 1942 and was found guilty on the following charges:-

- (a) An act in flying which was likely to cause loss of life to a person.
- (b) Negligently damaging an aircraft belonging to His Majesty.
- (c) Neglecting to obey Station Standing Orders, in that he improperly and without permission flew one of His Majesty's aircraft at a height below 250 feet contrary to Station Standing Orders, Chapter 11, Section 4, and para 5. (1)

2. He was sentenced (a) to take precedence in the rank held by him as if his appointment as pilot officer had appeared fifty places lower in the Air Force list; (b) to be reprimanded; (c) to be placed under stoppages of pay until he had made good the sum of \$50.00 in respect of damage to aircraft. The finding and sentence, having been confirmed by the Governor General in Council, were promulgated to the accused.

12. DISCIPLINARY PROCEEDINGS RESPECTING R.C.A.F. PERSONNEL AND R.A.F. PERSONNEL SERVING IN CANADA AND ATTACHED TO THE R.C.A.F. CHARGED WITH LOW FLYING OFFENCES.

1. This order is applicable to R.C.A.F. personnel serving in Canada and to R.A.F. personnel serving in Canada and attached to the R.C.A.F. and is not applicable to R.A.F. personnel at R.A.F. units in Canada.

2. Paras 3, 4, and 5 below are to be read out once a month to all pupil pilots and instructor pilots at all units in Canada, other than R.A.F. units, where flying is carried on.

3. Air Force Headquarters has reason to believe that sufficiently serious view of offences of low flying in contravention of C.R.P. 100, Section 1, paras. 23 to 27 inclusive, is not always taken by officers and airmen pilots (pupils and instructors) of the R.C.A.F. and by officers and airmen pilots (pupils and instructors) of the R.A.F. serving in Canada and attached to the R.C.A.F.

4. Unnecessary loss of personnel and valuable aircraft and equipment brought about by low flying offences is an impediment to the war effort, the seriousness of which cannot be too strongly emphasized. Pilots are therefore to take every possible precaution to ensure that losses resulting from avoidable accidents are obviated.

5. There can be but few cases where, in the absence of mitigating circumstances, a sentence of dismissal of an officer or a sentence of detention in the case of an airman pilot would not be justified where an offender is tried by court-martial and found guilty of a serious and deliberate breach of low flying regulations. (In the case of an N.C.O., a sentence of detention would automatically entail reduction to the ranks.)

6. Before taking any steps which would lead to the disposal of low flying offences, other than by court-martial, Air Officers Commanding are to give serious consideration to the views of Air Force Headquarters as set out in this order and any other instructions issued from Air Force Headquarters relating to the disposition of low flying offences.

12. BARRACK BLOCK CORPORALS

All corporals in charge of huts are to report to the Station Sergeant Major in the Recreation Hall at 1300 Hours February 1st., 1943.

13. LEAVE AND PASSES

Rail Movements of essential war supplies and raw materials are being held up all over Canada owing to blockage of railway terminals and sidings caused by unusual weather conditions. The transportation controller is issuing instructions to the railways immediately that during February passenger trains are not to be run in sections and no special trains for service personnel on leave will be furnished by the railways during that month. Issuance of 48 and annual leave during February should be in conformity with the restrictions on rail travel and you should do everything to discourage week end travel, this of course will not apply to embarkation leave.

LEAVE

On account of the curtailment of rail services during February, particularly in this district all annual leave during that month is hereby cancelled, except in exceptional and compassionate cases which are to be referred to the Station Adjutant for special consideration.

PASSES

No. 48 Hour passes are to be issued during the month of February. In lieu of each 48 O.C. of units may grant two 24 hour passes provided they are not conjoined. The fullest co-operation of all personnel is expected in this emergency so that rail travel may be confined to essential services.

.....

The air or other officer commanding may authorize the carrying forward of the whole or part of the leave not taken, provided he is satisfied that special service circumstances have prevented it being taken within the stipulated periods, and provided that not more than one year's leave may be accumulated and carried into a subsequent year. 9. DEPENDENTS' ALLOWANCE - NOTIFICATION OF CHANGES IN DEPENDENCY.

1. Awards of dependents' Allowance made on behalf of officers and airmen at the time of appointment or enlistment or subsequent thereto, are based on the state of dependency existing between the officer or airman and his dependents at the time applications for dependents' allowance are submitted. These awards however, are subject to review and possible revision, suspension or cancellation in the event that a change in relationship occurs between the officers or airman and the dependents concerned.

2. In consequence, changes of relationship which affect awards of dependents' allowance are to be reported immediately such changes take place to avoid over-payments in these allowances, which, if incurred, are recoverable from the officer or airman concerned.

3. The most flagrant cases involving overpayments of dependents allowance which have occurred through non-reporting of changes of dependency have arisen in respect of changes in domestic status such as separation, divorce, etc. Such cases are governed by the provisions of F.R. & I. Article 101, provisions (iii) and (iv), necessitating, in practically every instance, a revision in the current award of dependents' allowance.

4. Such notification of death of dependents or other occurrences affecting dependency is also required in order to avoid overpayments of dependents' allowance.

5. The same conditions apply with respect to the issue of Permanent Force dependents' allowance under P. & A. Regs.

6. All concerned are to be impressed with the absolute necessity for reporting changes in relationship between themselves and their dependents to the accountant officer immediately such changes occur.

10. AMATEUR PHOTO FINISHING - PHOTOGRAPHIC SECTIONS

1. Service photographic sections are forbidden to do any photographic processing or finishing whatsoever for service or other personnel, which is not directly concerned with station duties. Any stocks of material privately purchased for this purpose are to be removed from photographic sections and returned to the owners forthwith.

2. Commanding officers are to ensure that this order is adhered to strictly and that any infractions are dealt with severely.

11. SECRECY

1. In order to ensure that the secrecy of locations of Home War Establishments units be preserved, the showing of the type of squadron on open correspondence, orders and other written communications is to cease forthwith.

2. All mail addressed to operational squadrons is to be enclosed in an envelope addressed to the station only.

3. Personal correspondence to operational squadrons is to be addressed to the station only and is not to show the squadron.

12. ABSENTEES FROM CLASSES OF AIRCREW EMBARKING FOR OVERSEAS.

1. Personnel are failing to report promptly at the "Y" depot at the expiration of embarkation leave. Such failure to report is causing serious disruption of arranged schedule and in some cases is causing delay in departure.
2. All such absentees may be considered as deserters, and hereafter strict disciplinary measures will be taken against offenders. Pre-arranged schedules for embarkation Overseas must be adhered to and personnel must co-operate or render themselves liable to a charge of desertion.

13. DAMAGE CLAIMS AGAINST THE CROWN

2. Any request put forward by a member of the Service which required reference to Naval, Military or Air Force Officials of another country is to be submitted to the immediate superior of the member concerned, and thence, through the proper channels of official communication to Air Force Headquarters.
3. These instructions are not to be interpreted as meaning that serving personnel in the R.C.A.F. are prohibited from writing to friends or relatives in the Naval or Military or Air Force Services of another country, provided the communications are limited to strictly personal matters, and no mention is made of either personal or official matters pertaining to the armed forces of any country.

4. A memorandum on brevity, written by the Prime Minister of the United Kingdom, and previously published in A.F.R.O.s is republished hereunder:-

"To do our work, we all have to read a mass of papers. Nearly all of them are far too long. This wastes time, while energy has to be spent in looking for the essential points. I ask my colleagues and their staffs to see to it that their reports are shorter.

(i) The aim should be reports which set out the main points in a series of short, crisp paragraphs.

(ii) If a report relies on detailed analysis of some complicated factors, or on statistics, these should be set out in an appendix,

(iii) Often the occasion is best met by submitting not a full dress report, but an aide-memoire consisting of headings only which can be expounded orally if needed.

7. CONDUCT OF CORRESPONDENCE - BREVITY (Cont'd)

(iv) Let us have an end of such phrases as these:-

'It is also of importance to bear in mind the following considerations.....'
or 'Consideration should be given to the possibility of carrying into effect.....'

Most of these woolly phrases are mere padding, which can be left out altogether, or replaced by a single word.

Let us not shrink from using the short expressive phrase, even if it is conversational.

Reports drawn up on the lines I propose may at first seem rough as compared with the flat surface of officialese jargon. But the saving of time will be great, while the discipline of setting out the real points concisely will prove an aid to clearer thinking."

14. Fire Prevention

1942 Fire Statistics

1. The causes of fires in No 1 Training Command in 1942 are promulgated herewith, and fall into the following categories:

(a) Smoking	45 Fires.
(b) Heating	15 Fires.
(c) Electrical	15 Fires.
(d) Spontaneous Combustion	8 Fires.
(e) Grease	7 Fires.
(f) Rubbish	4 Fires.
(g) Miscellaneous	42 Fires.

2. With the exception of miscellaneous fires, which covers aircraft, crash grass fires, etc. it is to be noted that smoking takes precedence over all other causes, and the number of fires through this cause is practically double that of 1941. This can be checked by comparison with the figures listed in Command letter of even file dated 4th of March 1942.

3. Fire caused by heating and electrical defects also show an increase over 1941 figures. Grease and rubbish fires show a slight decrease. The correct installation of heating equipment is essential, and placing of combustible materials adjacent to heating apparatus must be avoided.

4. The following Air Force Routine Orders are brought to your attention.

No: 976---Spontaneous Ignition of Oily Rags and Waste---
Precaution against, dated 22nd August, 1941.

No: 1119---Grease Accumulations in Kitchens---Prevention of

ANZAC Club - located at Fort Shelby Hotel - Detroit, Michigan

For the information of All Australians and New Zealanders on this Station the following is the context of a letter received by the Air Officer Commanding No 1 Training Command, Toronto, from the Chairman of the ANZAC Club.

"Yesterday I had telephone communication with Mr. Hendershod of Aylmer, Ontario, telling me of the difficulties you are meeting in getting the boys over to Detroit and other U.S. cities for their leave. I am taking this opportunity of writing you about the Anzac Club which has just been opened on the ground floor of the Fort Shelby Hotel where we have all arrangements planned for taking care of the Australian and New Zealand boys who are on leave in this city.

We want to assure you that everything will be done to save them spending money and to give them a good time with the restrictions that we know you would wish us to make. We have, of course, many anzacs living in this district and many who wish to accommodate these boys in their homes. We also feel that the club could register the boys and the addresses they would be visiting so that they could be reached immediately if needed

May I assure you of the full cooperation of this club, Thanking you for your communication on this matter".

The regulations relative to the Foreign Exchange Control Board must be satisfied, prior to officers or airmen visiting the United States to take advantage of the hospitality extended by the Anzac Club.

6. 2091--TRANS-ATLANTIC AIR MAIL RESTRICTIONS

1. The increasing demand on Trans-Atlantic aircraft capacity for vital war supplies has created an almost complete absence of space on aircraft. Conditions have become so acute in recent weeks that practically all correspondence prepaid at air mail rates has had to be dispatched from Canada to Great Britain by ship.

2. In these circumstances, personnel are advised to use the airgraph service for messages to civilians and members of the Armed Forces in Great Britain and other places to which this service is available.

3. A limited amount of space has been reserved on aircraft for Armed Forces air letters (blue) which will be accepted and dispatched by air subject to space being available.

4. Personnel are advised to send their messages by airgraph or surface transport, rather than using the Armed Forces air letter forms (Blue, but if in view of the extra privacy of the air letters forms (blue) personnel insist on sending their mail by these forms or by regular air mail service, the Post Office, while giving it the most expeditious treatment which the circumstances permit, cannot guarantee that air transportation will be given.

5. Air mail letters other than airgraph or Armed Forces air letters (blue) must not exceed two ounces in weight. If any item exceeding two ounces is prepaid at air mail rate it will be forwarded to destination by surface means.

PART 1 ADMINISTRATION
"A" GENERAL

11. PARKING OF PRIVATE MOTOR CARS

Amendment to Station Standing Orders.

Part 1 Administration & Discipline Section 1 Page 1 Para 4 sub para (d) is to be deleted and the following inserted as Paragraph 15.

PARKING OF PRIVATE MOTOR CARS

Service and Civilian personnel may be permitted to park private motor cars on Station property in an area marked out for that purpose. Such marked out area is not to be adjacent to hangars, technical buildings or the station H.T. Section.

A permit for the parking of private motor cars is to be obtained and carried by the private owner and is to be produced on demand before entering the station grounds for the purpose of parking. This permit is to be signed by both the unit commanding officer and the private owner.

Permits for the parking of private motor cars on station property are not to be granted for vehicles which are not covered by public liability and property damage insurance. The expiry date of permit is to that on which such insurance policy expires. When the holder is posted to another unit, his permit is to be withdrawn.

Service and civilian personnel are not to be permitted to :-

- (a) Drive private motor cars on the Station except directly to and from the marked out parking area.
- (b) Repair or service private motor cars on Station property, except such repairs as may be necessary to move the vehicle off the Station.
- (c) Use R.C.A.F. Tools or property for the purpose of repairing and servicing private motor cars.
- (d) Park private motor cars in areas other than that particularly marked out and authorized for that purpose.

No responsibility whatsoever will be assumed by the Crown for Loss or damage to any non-service vehicle or accessories parked or in motion, on R.C.A.F. property. Any infringement of these regulations will result in the withdrawal of the individuals permit.

H.Q. 927-4-110

11 FURLOUGH RAILWAY TICKETS

There seems to be considerable confusion or misunderstanding prevalent as to the manner in which furlough railway tickets are issued.

Railway Companies are under the strictest instructions that such furlough tickets are sold only to members of His Majesty's forces for the purpose of travelling IN UNIFORM or in exceptional cases when travel in civilian dress is permitted on surrender of C.P.A. Form 95 bearing personal signature of the Commanding Officer or Transport Officer. It is felt that the regulations must be adhered to or else there is a danger of misuse of the reduced fares that could be ultimately react against those whom the railway companies are trying to serve. C.P.A. Form 95 may be obtained from the local railway ticket Office.
