Overview

Context

As a component of DND and CF Security Program, the BCP Program policy has as its aim the implementation of a program within the DND and the CF consistent with the:

- Government Security Policy;
- Operational Security Standard – BCP Program;
- DAOD 1005-0, Business Continuity Planning; and
- DND and CF Security Policy.

This policy deals with the BCP Program and its governance at strategic and operational levels.

The BCP Program assures minimum service levels for critical services. Business resumption planning ensures resumption of operations at an acceptable level for all critical and essential services and, at operational and tactical levels, remains the responsibility of commanders and managers.

Purpose

The purpose of the DND and CF BCP Program is to:

- ensure the continued availability of critical DND and CF services and associated assets; and
 - provide confidence to employees, stakeholders, clients and Canadians that the DND and the CF are capable of delivering DND and CF critical services in the face of any hazard to its operations.
-

Operating Principles

General

The DND and the CF BCP Program consists of the following four elements:

- a governance structure within the context of the National Defence Security Program that establishes authorities and responsibilities for the program, and for the development and approval of business continuity plans;
 - a BIA process to identify and prioritize the department's critical services and assets;
 - plans, measures and arrangements to ensure the continued availability of critical services and assets, and of any other service or asset when warranted by a threat and risk assessment; and
 - activities to monitor the department's level of overall readiness and provision for the continuous review, testing and audit of business continuity plans.
-

BCP Program Governance

BCP Program governance creates a process structure for all involved in the BCP Program. A communications plan is developed as part of the governance of the program.

The DSO provides:

- general direction to the BCP Coordinator; and
- strategic advice when the BCP Coordinator approaches senior managers for approvals.

The DND BCP Lead (a civilian employee located in DGCSS) and the CF BCP Lead (a military member located in SJS) report directly to the co-chairs of the DND and CF BCP Action Team and are jointly responsible to:

- obtain senior management support and funding;
- develop a DND BCP Program policy and governance structure;
- ensure the development of a strategy to communicate BCP activities to employees and stakeholders;
- establish working groups and define their roles and responsibilities;
- ensure the completion of the BIA and the development and maintenance of business continuity plans;
- ensure that Information Management (IM), Information Technology (IT) and other continuity plans and arrangements are fully integrated into the BCP program;
- provide for regular training, review, testing and audit;
- collaborate with the DSO and the IT Security Coordinator throughout the

process; and

- inform the DSO throughout the process since the BCP Coordinator does not functionally report to the DSO.
-

**Program
Requirements**

Through the departmental BCP Program, the DND and CF shall:

- institute and maintain a BCP Program for continued availability, at home and abroad, of all critical DND and CF services and associated assets as well as other DND and CF services and assets when warranted by threat and risk assessment in a manner that is cost effective and consistent with DND and CF strategic direction;
 - establish protocols and understandings with other government departments and agencies, and provincial, territorial and municipal civil authorities, both domestic and foreign, to assist with response, continuity and resumption efforts to DND and CF services in a coordinated manner;
 - ensure that:
 - Government of Canada BCP training offered by the Canada School of the Public Service is provided to appropriate DND employees and CF members; and
 - those participating in the DND and the CF Force Protection Program Course obtain a clear understanding of the DND and CF BCP Program.
-
