Black, Dr. J.B., M.P.

2

assigned to Provincial jurisdiction, and it has been usual, I think, under one or the other of these heads, or under that of Municipal institutions in the Province, for the Provincial Legislature to legislate and make all necessary Regulations in regard to matters affecting the public health.

Of course, the subject of quarantine and the establishment and maintenance of Marine hospitals is specially assigned to Dominion jurisdiction, but this I take it, is because such hospitals and quarantine have to do with Maritime affairs.

I feel unable to be more specific in the matter, but if there is any special point in which you are interested, and I can be of any help to you I shall be glad to try.

I remain,

Yours faithfully,

(Signed) A. S. AYLESWORTH

499/08

House of Commons

Ottawa, June 1st 1908

Hon. C. B. Cylesworth
Minister of Justice
Ottawa

My Dear Minister

Can you kindly inform me
what are the jurisdiction and authority
of the Federal Government and what are
the jurisdiction and authority of the
Provincial Governments in the matter of
Public Health, particularly in regard to
the prevention and suppression of contagious
and infectious diseases

Yours Sincerely
J. B. Black

P.S. May I further
ask if there is any other
authority on the matter than the
British North America Act, 1867.
