### REGULATIONS

1. This cover must not be folded under.
2. Files should be retained no longer than is absolutely essential. If a file is frequently required at short intervals, it is better to B.F. it for two or three days than keep it out of Central Registry indefinitely. This ensures its being completed and kept in order and also gives other offices an opportunity of using it.
3. Central Registry must be notified whenever a file is passed direct to another Division.
4. All outgoing letters should bear the official file number and originator's designation.
5. ONE SUBJECT — ONE COMMUNICATION—Where the contents of outgoing letters necessarily refer to more than one subject, the originator will prepare additional copies for attachment to relevant files.
6. Correspondence must not be removed from file, except as provided in the regulations governing the conduct of correspondence.
7. Filed material will not be removed without notification to Central Registry.
8. Official office designations are to be used for routing purposes.
9. Disposal entries on file jackets must be initialled and dated.
10. Urgent Tags, flags and other markers will be removed in Divisional Offices as soon as appropriate action on the folios has been taken.
11. Officials are reminded that strict adherence to the security regulations is essential when dealing with classified material.

Joint Agreement No: 345

On August 1, 1967, the initial one-third share of Branch contribution on this joint project was forwarded. It was expected that the second one-third share would become payable before March 31, 1968, that is the sum of \$116,666.66.

Would you please determine whether construction has reached a point where the second one-third payment will become payable. If so, please have the appropriate progress statements forwarded to this office so they will have them in Ottawa by March 31. If payment cannot be requested, please also advise.

Southampton Public School Board - Joint Agreement No: 339

Our records indicate that a balance of \$49,861.67 is still outstanding in this joint project. As plans are now being made for the opening of the school, we are wondering whether or not this amount of balance can be cleared up in this fiscal year. If this amount can be made payable, the statement from the Board must be in Headquarters by March 31.

Please advise whether or not the Board's final statement will be forthcoming in this fiscal year.

This refers to your memorandum of October 10, 1967, with particular reference to possible extension of joint agreement with Nipigon Separate School Board. You estimated that approximately \$8,000. would be required and that the Board would be meeting in November, 1967, and that as a result submission would be made with the view to having the agreement completed within this fiscal year. Accordingly, funds have been set aside to take care of this agreement.

Would you please advise this office of the present status of this proposed agreement, and whether or not you expect it to be finalized within this fiscal year.

Outstanding Balance on Joint School Agreements

Enclosed please find copy of the reply of the Secretary-Treasurer of Lake-of-the-Woods High School Board to my letter to him of December 27, 1967. A copy of this letter was forwarded to you.

Also enclosed is copy of a letter sent to me by the then Secretary-Treasurer drawing attention to the increased capital costs referred to by Mr. Roy, and indicating the revised amount.

A review of the signed agreement with this Board shows that the Branch's commitment was 125/400 of \$169,322 = \$52,913.00.

Before I meet with Mr. Roy, it is necessary that I know:

- a) if the original agreement would be voided and a new one entered into, or would it satisfy to have the increased costs in a second contract,
- b) the entire school population has changed now to over 700 pupils. Will this new number be used in a new calculation?
- c) is Mr. Roy's suggestion a feasible one? "Would it be possible, etc".

It is understood, of course, that I make no commitment. I will write further after hearing from you and after conferring with the Secretary-Treasurer.

SUBJECT Outstanding Balances on Joint School Agreements  
Sujet

Further to your memorandum of August 10, 1967, with particular reference to the second last paragraph, it is anticipated that the Nipigon Separate School Board would be interested in extending the Joint School Agreement implemented several years ago and they would appreciate approximately \$6,000 to \$8,000 towards the cost of their new addition. Our Joint School Agreement currently covers the present enrolment but the Separate School Board has enlarged their facilities to include auxiliary class facilities, school library and the standard Kindergarten classroom. A meeting will be held with the Board sometime in November at which time the Board would be prepared to indicate how much they hope the Branch might contribute.

(P. Arthur)  
461/25-11-90

In a recent meeting with the Hearst Public School Board they indicated their desire to extend the Joint Agreement with the Branch for one additional classroom of children from Constance Lake Day School if this meets with the desire of the families involved. It is anticipated that the Branch's share of construction would be in the neighbourhood of \$50,000 since their extension includes auxiliary class facilities, standard Kindergarten classroom as well as a new school cafeteria. May we be advised if the Branch would have the funds for this project.

461/25-11-489

H.B.R.  
please

You will recall your agreement, in principle, with the Port Arthur High School Board which was in the neighbourhood of \$200,000, subject to architect's finalization of plans and it is anticipated this expenditure will be due during the fiscal year 1968-69.

Joint School Requirements - Ontario Region - Fiscal Year 1967-68

We return herewith Summary Sheet of the above-noted requirements.

We have examined every one of our requirements carefully and have taken up with the Ontario Department of Education the expenditure for Moosonee Education Centre, the only project that did offer hope for less expenditure in the 1967-68 fiscal year. The Department advised that construction was already underway and that the amount specified for expenditure by us for this fiscal year will be required.

Outstanding Balances on Joint School Agreements

My purpose in writing is in conjunction with your letter of 19 September, in which it is noted that you have reported "The new school at Britt .... hopeful that a final audited statement can be provided within two months".

It could be that the delay in receiving accounts from some school boards may be traced to their awaiting a final or annual audit. For puposes of these joint school settlements, a simple statement from the Board covering the following points would be quite acceptable to expedite our final payment: The statement should show:

- a) The initial cost as per contract
- b) Any additional costs
- c) Actual final costs
- d) Originally agreed upon Branch share
- e) Actual Branch final share as based upon final costs.

It is understood that the statement of the Board would be a part and parcel of any annual audit at a later date and that audit would detect the need for any adjustment.

If you feel that the Board's project has progressed to the point where a simple statement will permit us to make final payment, please contact them for such a statement.

Under a new cost-sharing agreement between the federal government and the North Vancouver School Board, Indian children from the Capilano Reserve are guaranteed the same educational facilities and instructions as available to non-Indian children, Indian Affairs Minister Arthur Laing announced today. The agreement, one of a series being negotiated under the Department's educational improvement plan, provides for a federal contribution of \$54,000 toward the overall cost of the Norgate School which presently serves both Indian and non-Indian children.

With the addition of two classrooms, the \$223,000 school will have a total of 12 classrooms and accommodate up to 310 students. A gymnasium, and a library are also included. One-quarter of the enrolment, or approximately 75 pupils, will be Indian children from the nearby reserve.

The Minister added that the Department not only contributes to the capital cost for the construction of extra classrooms but also pays a tuition fee to the school board for each Indian pupil enrolled. This amount is based on the ratio of Indians to the total school enrolment.

Outstanding Balances on Joint School Agreements -Ontario Region

Further to your memoranda of July 31st and September 14th, attached hereto is a "Financial Summary - Joint Schools - Ontario Region", showing the amount of expenditures made on joint school projects in this Region to September 30, 1967, expenditures expected to be made during the period October 1, 1967, to March 31, 1968, and the amount of carryover on these projects to 1968-69 fiscal year funds. There is also a summary of joint school projects for which we expect to enter into agreement in the 1968-69 fiscal year.

I would draw your attention to Page 2 of your July 31st memorandum, particularly the listing of R.H. Cornish Joint Agreement (No. 329, dated 15 March 67). A cheque in the amount of \$7,328.00 was issued April 21, 1967, and forwarded to the Board. The cheque was drawn on funds for the 1966-67 fiscal year.

I trust the attached summary provides the information you require.

Outstanding Balances on Joint School Agreements

In response to your memos dated August 10th and September 5th, 1967 regarding Southampton Public School and Britt School, the following information is submitted.

The Southampton addition is now occupied but not completed. We note that you made a submission to Ottawa for an additional \$72,585.00 toward this project.

It will probably be another two months before the construction, furnishings and landscaping are all completed.

The new school at Britt is also occupied and we anticipate a progress report within the next two weeks. The Business Administrator is hopeful that a final audited statement can be provided within two months.

In answer to your memoranda of Sept. 5, and August 10, your statement of our joint school expenditures still owing is correct.

- a) Espanola Separate School Agreement 299, \$16,025.00
- b) Manitoulin Island Composite \$233,333.34

Funds will be required for (a) during the 1967-68 school year. However since the Composite School has not begun yet, there is little chance that it will be completed during the 1967-68 school year. Thus of the (b) balance only \$116,666.67 (one half) may be required by the Composite School Board. The third and final payment would be expected during the 1968-69 school year.

- c) Espanola Separate School requested a supplement to their joint agreement to pay for lunch room and library facilities which will be constructed. Regional office have been looking after this matter. The secretary-treasurer of the board states that \$106,612.00 will be paid by IAB - Construction *will not begin* until March 1968, thus they will require only \$35,537.33 (one third of the total) during the 1967-68 school year.

Indian Band Representation on Provincial School Boards.

We are pleased to inform your office that the new Public School Board of Parry Sound District School Area Number 1 are passing a motion to have an Indian Band Representative sit on their Board. They have asked for advice on this motion since they have five bands in their area. They are wondering whether their motion should arrange a rotary representation with each band taking a turn or designate some other method.

I will be contacting the bands when a method of representation is decided. Has a precedent for this situation been set?

Following is data requested in your Memorandum of August 10, 1967.

1) Lake of the Woods High School.

In a recent communication the Board informed me that their audited statement would be ready within two months, their billing will be for \$17,637.66..

2) McCrosson & Tovell TSA

A payment of two-thirds of \$30,625 should be planned for expenditure before the end of this calendar year with the balance to be paid before the end of this fiscal year.

There are no other balances in this area nor are any of the boards actively planning building or expansion during 1968-69.

The Board at Emo has a two classroom addition under way. A memorandum on this should be at your office.

### Cardex Cabinet for Joint School Record Keeping

While searching for a document in the closed files for Mr. Rodine the other week, I accidentally ran across the instructional brochure from Headquarters. You may recall that I mentioned this letter when we were speaking of justification for a cardex and I indicated that I was sure that the fact the cardex was being used for joint school records would probably be enough justification in itself. The last paragraph, page 11, would seem to bear this out.

When this office simply looked after the needs of Southern Ontario, there were just a few joint schools and the files and memory served. When the North and South were amalgamated, the small black record book was initiated. This recorded all agreements, past and present, completed and incomplete, with full descriptions. With decentralization in estimates, another form of recording was added to the black book — that is an outline of each agreement wherein a balance was still outstanding and in which a record of payment could be kept. This of course meant two distinct recordings every time a payment was made in conjunction with a joint school agreement.

There are about eighty completed agreements kept in the black book. At present there are twenty agreements with balances outstanding and a record of these takes up three complete pages. We have in process at the moment about five or six agreements so another page will have to be added.

In brief, the black book is at the point where very few more pages can be added, thus a second book will have to be started. The method of keeping a running account of payments on outstanding agreements has, because of numbers of agreements, become awkward and cumbersome. The only efficient method now of keeping these records efficiently and available for instant reference, is by cardex. One recording for all would suffice.

You are probably aware that cards were ordered from H.Q. with the intention of using a couple of drawers of the cardex cabinet used by Mrs. Lapp. However, these have now been moved upstairs.

Your attention to ordering the cardex cabinet would be sincerely appreciated, as I feel that such a cabinet is now urgently required.

There may remain some projects which you had planned to include in this year's program but which have not as yet been approved. Would you please list these projects, together with the amount of money you will require for this fiscal year and the anticipated carryover to 1968-69.

In brief, we require a statement of your required joint school expenditures from 1967-68 fiscal year funds, together with an indication of funds which must be set aside from 1968-69 fiscal year funds to take care of projects which must be carried over. Special emphasis should be given to finalizing projects which are still outstanding from 1965-66 joint school program.

Please consider this matter as urgent and give it your earliest possible attention. When replying, please quote our file: 401/25-11.

Dear Mr. Wilson:

Reference your letter 401/25-11 dated July 6, 1967,  
regarding the enrolling of 16 additional Indian children in the Cobourg Public Schools.

At a regular meeting of the Board held on July 17, 1967,  
this matter was discussed and a motion was passed to  
accept these children in the Cobourg Public School system  
for the 1967-68 school term.

Details as to the school or schools they will be attending  
can be decided latter by the Supervising Principal and  
Principals concerned, in co-operation with yourself.

Dear Mr. Sirett

This letter is further to our conversation on June 30th serving as an official inquiry regarding the possibility of the Cobourg Public School Board enrolling an additional 16 Indian children in their school system.

As I outlined to you at our meeting, consideration is being given by the parents and the Branch to long range plans for the education of the children in attendance at the Reserve school. For the up-coming school year, however, accommodation is necessary for these children. Would it be possible for this number of children, in Grades 1 through 6, to be accommodated in your school for the school year 1967-68?

Should there be any further inquiries regarding this matter, please contact me immediately in writing or by telephone. Our number here is 487-4651.

Yours sincerely

Joint Schools - Ontario Region - Outstanding Balances

This is in reply to your memorandum of May 15, 1967, with regard to outstanding joint school agreements.

We wish to advise that we have been in regular contact with our field offices with regard to these agreements. We wrote to each inspectorate office with regard to each individual outstanding agreement on December 15, 1966, and again on March 16, 1967. For a number of reasons, the final audited statement could not be made available by the boards, for example, dissatisfaction with certain aspects of the construction, certain types of equipment yet to be shipped or installed, delay in landscaping because of weather, etc. While these matters had no bearing on the use of the schools and apparent completion, such items do prevent an audited statement of costs as to absolute and final completion.

Espanola No. 1 (#241)

In correspondence with field at the moment with view to finalization. Request for final payment of Branch share will be in Ottawa shortly.

Howard Township

Should be forthcoming in the near future. Final completion and landscaping nearing finalization.

Kenora High (Lake of the Woods)

Final building costs cannot be finally determined until late spring. We are hopeful that statement will be received soon.

*Jack*  
x Moosonee (#271) *(Balance 8,142)*

*950,00*  
This outstanding balance was paid April 6, 1967, from 1966-67 funds.

Moosonee Separate

We shall write the Board again. No doubt this statement will be forthcoming later in the summer.

White River

Final statement should be forthcoming in early fall.

Westminster Twp. Area

We had hoped that this balance would have been payable from 1966-67 funds, however, the board was unable to furnish a final audited statement due to minor delays. A statement should be forthcoming soon.

EDUCATION DIVISION LETTER NO. 14

Recently there have been representations to the Minister from school boards protesting the terms of proposed joint school agreements on the grounds that they did not fulfil commitments made to them earlier in the negotiations by field officials. Usually, the board is attempting to obtain a larger contribution from the Branch.

Disagreements of this kind can be avoided by establishing clearly with the board at the outset of the negotiations that explanatory discussions do not constitute commitments and that the proposed terms of the agreement will be presented in writing by the Regional School Superintendent. If there is any disagreement on the proposed terms they can be resolved at that point. Agreement in principle must be obtained from headquarters before a written commitment is sent to the board.

Although this procedure may not eliminate all complaints it will reduce the possibilities of misunderstanding by providing precise evidence regarding the terms on which the joint agreement was negotiated.

Joint School Submissions

I am enclosing a copy of Treasury Board Minute #601776 which outlines the conditions under which the Branch may enter into joint school agreements. The Minute stipulates that the Branch's capital contribution may not exceed an amount equal to the number of Indian pupils divided by the total enrolment times the total cost.

Department treasury officers have stated that they are unable to process accounts for payment unless the agreement under which the payment is requested is based upon this ratio.

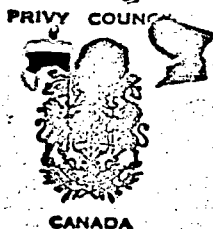

Although we have, in the past, purchased accommodation for Indian pupils by paying for all of an addition to a school, this procedure will no longer be acceptable. It will now be necessary to show the total cost for the facilities being used by all the students under consideration.

In all future joint school submissions would you please include total costs and make sure that a ratio which is justifiable under the terms of this Minute is maintained.

Outstanding Balance -- Joint School Agreements

Your memorandum of March 16, 1967 regarding the outstanding balance of Branch share in the amount of \$17,637.66 with the Lake of the Woods District High School Board.

Because of Mr. Clarkin's absence, I talked to Mr. C. D. Danielson, Business Administrator for the Board. He explained that although they would like an interim payment, he understood that this was not possible under the Agreement.

He said that it would not be possible to provide a final audited statement before late this spring when the building costs have been finally determined.

Joint School Agreement Numbers

May we please be advised of the Agreement Number allotted to the following joint agreements so that we may bring our records up to date:

<u>Name of Board</u>	<u>Name of School</u>	<u>Date</u>	<u>File Number</u>
Southampton Public School Board	Southampton Public School	17 Feb 67	421/25-11
Public School Board of Township of Port Perry-Scugog	R.H. Cornish	15 Mar 67	421/25-11-475
R.C. Separate School Improvement District of Sioux Narrows	Father Moss	8 Feb 67	431/25-11-136

This latter agreement is an extension of an agreement, but as it was not an amendment, I assume it would have been allotted its own number.

It would also be appreciated if this office could receive some clarification of joint agreements entered into with the Corporation of Red Lake. Our files do not have full information on these agreements which were handled direct by Headquarters. Information as to how many agreements, numbers allotted to each agreement, date of agreement, number of Indian pupils and non-Indian pupils involved in each agreement, details as to construction (that is number of classrooms, whether construction was an addition to existing building or entirely new, gymnasium, etc.) and Branch share paid on each agreement.

Your co-operation in this matter will be very much appreciated.

As Mr. Mullin will be in Regional Office the next few days, and as Easter Holidays are very close at hand, the letter was written at Regional Office, will be signed by Mr. Mullin while here, and forwarded direct to Board to ensure disposition of cheque before end of this fiscal year. Copy of letter and agreement to Georgian Bay for their file.

Dear Mr. MacAulay:

RE: Addition to G.C. Huston Public School

Enclosed for your records are the following:

- a) Copy of Memorandum of Agreement duly signed by your Board and the Indian Affairs Branch;
- b) Government of Canada Cheque No: GP 407 0451003 in the amount of \$99,723.33 representing the initial one-third payment on this project.

Subsequent payments will be made upon receipt of progress statements from your office. Final payment would be made upon receipt of notification that the job is completed and will take into account essential adjustments.

Although this Agreement has been approved by Treasury Board, the Board requires one further point of information relating to the total value of the Southampton Public School (G.C. Huston). It is considered that if our Branch were sharing the total construction of the public school, that is, existing plant plus new addition on a pro-rata basis, the total valuation in contrast to our current share would approximate \$953,604. This figure is based upon a ratio of 160 Indian pupils in a total enrolment of 510.

Would you, therefore, be good enough to confirm that the present total evaluation of the Southampton Public School, including new addition, equipment, present plant and equipment, total land, kindergarten, auditorium, auxiliary services (office, halls, etc.) is in excess of \$953,604.

Yours very truly,

Dear Mr. Seguin:

RE: School Attendance Age -  
Indian Children

With reference to your recent telephone inquiry on this subject, I am pleased to forward the following information.

Section 115 of the Indian Act requires that every Indian child must attend school when he has reached the age of seven through until he has attained the age of sixteen. The Act also provides that the Minister may require an Indian who has attained the age of six years to attend school. Consequently, it is our policy to encourage all parents to enrol children in September who will be six years of age before January 1st of that school term. The Minister may also require an Indian who becomes sixteen years of age during the school term to continue in school until the end of that term.

With respect to kindergarten, Branch policy is to provide this service wherever number of pupils makes the service feasible. The regulation governing kindergarten provides that Indian children who will be five years of age by January 1st of a school term may be admitted in September to an organized kindergarten class.

I trust this information will be of assistance to you.

Yours very truly,

Outstanding Balances - Joint School Agreements

This refers to our memorandum of December 15, 1966, and to our copy of your letter addressed to the Lake of the Woods District High School Board regarding the outstanding balance of Branch share in the amount of \$17,637.66.

Would you please advise what the present situation is regarding the submitting of final audited statement of costs. This balance has now been carried over for two years, and we would very much like to clear this balance up from this year's fiscal funds.

Please contact the Board and request their assistance in this matter.

Joint School Agreements

General correspondence over the past few months has indicated that various inspectorate offices, particularly those established within the past two or three years, have little information concerning joint school agreements entered into prior to these offices becoming established. Some of these joint agreements date back as far as 1955 and the pertinent information may well be on a closed file which may not be in the possession of the present inspectorate office. Therefore, in order to provide you with information on the background of the joint school agreements in your area, we are attaching photocopies of pages from our Regional Office Joint School Reference Book.

The attached pages contain the information most often required in connection with joint school agreements and also provides space for an on-going record of current agreements and payments to school boards. The pages are kept in a small binder indexed by Inspectorate, and sub-indexed by Agency.

You may find the information contained on these photocopied pages of value to you, particularly with regard to agreement numbers, dates of agreement, and costs involved. Perhaps it would be well to clarify "agreement numbers". As you are aware, after agreement in principle to participate in a project with a school board has been received from Ottawa, a formal "Joint School Submission" is drawn up and forwarded to Headquarters. After this has been reviewed, Headquarters forwards through Regional Office to District Office, five copies of "Memorandum of Agreement" to be signed by Board officials and returned to Ottawa for signature of Branch officials. When this "Memorandum of Agreement" is signed by Branch representatives it is granted an "agreement number", and is an excellent means by which to identify a particular agreement.

I would point out that the purpose of this memorandum and attachments is simply to provide you with information with regard to joint agreements within your inspectorate which you may not have, and should in no way be interpreted as requesting you to maintain your joint school records in a specified manner. Each inspectorate office will, no doubt, have evolved its own efficient record-keeping method which best meets the needs of the area.

Outstanding Balance - Joint Agreement - Sioux Lookout

I have your memorandum of January 24th together with the School Board's statement that all accounts have been paid and the structure completed.

It is normally a requirement of our Treasury when a project is finally completed that the Board give their statement in the form of a brief rundown with items referred to such as:

- a) Actual contract price awarded
- b) Statements of any extras or savings
- c) Final actual price, and then a verification that the work has been completed and accounts paid.

Will you endeavour to obtain such a statement, please, in keeping with Article 2 of Memorandum of Agreement.

Procedure - Joint Agreements

This will refer to your memorandum of January 18, 1967.

In the hypothetical example you give, you do not state whether or not the Branch has previously participated. I am assuming that it would have and purchased space for fifty pupils at a time when the non-Indian population was 300, and that Branch share of the space came to \$25,000.

In the new undertaking, it would then seem that the Board would be building for a given number of non-Indian pupils and for a given number of Indian pupils, which I would judge is 50. Your cost would then go on the same formula. In other words, the number of Indian pupils for whom space is being purchased over the total number of pupils that will be accommodated in the structure, times the cost. If there are going to be added facilities, such as a gymnasium, etc., that all of the Indian pupils will participate in, then that share of the project may be considered, using the total number of Indian students as the enumerator.

Not knowing what project you have in mind, I would urge that you not be committal on this until you put forward a preliminary submission.

Joint School Expenditures - 1966-67

You have indicated that you will require additional funds this fiscal year for the joint school agreements listed below. You have also indicated that your joint school program will be large next year. Would you please make sure that the amounts listed are paid during this fiscal year so that the carryover into 1967-68 can be kept at a minimum.

It will facilitate matters if you accompany each request for a final payment with a statement of the total cost for the project. Treasury require a verified statement regarding the total amount spent before they can release a last payment and if we do not receive adequate information from you initially, there is considerable delay in processing the account.

- A) New School -- \$150,000.00  
Entire School Enrolment -- 300  
Indian Pupils -- 50

$$\text{Branch's Share } \frac{50}{300} \times 150,000 = \$25,000.00$$

- B) Here is the area of uncertainty:

The school board must replace an old building (or build a new one.)

School population has expanded to 500.

Indian pupils have increased to 100.

Cost of new construction -- \$100,000.00.

Outstanding Balances on Joint Agreements

This is in reply to your memorandum of December 15, 1966 on the above subject.  
We have contacted each of the boards involved and wish to report as follows;

- |  |                   |   |
|--|-------------------|---|
| 1. Westminister Township Area School Board | Agreement No. 244 | - Final audit expected approximately January 31, 1967.        |
| 2. Howard Township School Area Board       | Agreement No. 263 | - This amount will be payable 1967-68 funds.                  |
| 3. Sarnia Board of Education               | Agreement No. 315 | - Final audit will not be available until the summer of 1967. |
| 4. Wallaceburg District High School Board  | Agreement No. 280 | - Final audit not expected until the end of 1967.             |

It would appear then that, of the four agreements listed above, only No. 244 with balance outstanding of eleven thousand eight hundred eighty-seven dollars and seventy cents (\$11,887.70) will be payable from funds of the current fiscal year.

However, we have also received a communication from the Public School Board of the Township School Area of Wallaceburg. It appears that we will be receiving from them a bill for nine thousand five hundred dollars (\$9,500.00) being the balance of the monies which the Branch agreed to pay for the purchase of additional playground property. This agreement was made on May 14, 1964 under your file number 40/25-11 (ER).

The final audit from the Westminister Township Area School Board and the property billing from the Public School Board of the Township School Area of Wallaceburg will be forwarded immediately upon receipt.

Outstanding Balances on Joint Agreements

This is in reply to your memorandum of December 15, 1966 on the above subject.  
We have contacted each of the boards involved and wish to report as follows;

- |   |                   |   |
|---|-------------------|---|
| 1. Westminster Township Area School Board | Agreement No. 244 | - Final audit expected approximately January 31, 1967.        |
| 2. Howard Township School Area Board      | Agreement No. 263 | - This amount will be payable 1967-68 funds.                  |
| 3. Sarnia Board of Education              | Agreement No. 315 | - Final audit will not be available until the summer of 1967. |
| 4. Wallaceburg District High School Board | Agreement No. 280 | - Final audit not expected until the end of 1967.             |

It would appear then that, of the four agreements listed above, only No. 244 with balance outstanding of eleven thousand eight hundred eighty-seven dollars and seventy cents (\$11,887.70) will be payable from funds of the current fiscal year.

However, we have also received a communication from the Public School Board of the Township School Area of Wallaceburg. Parry Sound Board of Education has indicated that a final audited statement will be forwarded about January 31, 1967.

Public School Board Parry Sound School Area #1, (Britt)  
It would not appear that the total amount payable would be required in 1966-67. The first portion whether it be one-third or two-third would probably be all.

Southampton Public School Board anticipate one-third this year.

Orillia Public School - It does not appear that any funds will be needed for this project in 1966-67.

Port Perry Public School Area - If the board accepts a joint school agreement two-thirds could be payable from 1966-67 funds. I will not know until mid-January.

Thank you for your reminder of 22 November, 1966, concerning submission of an outline of joint school agreements which will be carried over into the 1967-68 fiscal year for payment. Your original memorandum of 31 August was buried on the file and inadvertently overlooked. Any inconvenience our late submission may have caused your office is sincerely regretted.

Attached is a summary of joint school agreements on which outstanding balances are due. The list is self-explanatory and I trust that this is the information you require.

Joint School Program

In reference to your letter of October 17 with enclosures, we are attaching for return a copy of the list of joint schools in the Ontario bearing notations where our office records differ from those at your office.

For the most part, our records agree and notations made are more in the form of added information which was felt to be pertinent. Those items marked with a red "x" indicate that our records do not agree with yours.

We note that for the exception of two, the red "X"s appear beside joint school agreements in what was formerly the Northern Ontario Region. Our present summarized records were gleaned from the active and closed files forwarded here from the North Bay Office after amalgamation. It could well be that your records are more accurate, particularly where dates of agreements are concerned and in the matter of contribution to the Red Lake School Board, agreements for which appear to have been handled direct with Headquarters. After your office has had opportunity to re-check the items and confirm accuracy, we would appreciate a revised list of the joint agreements so that we may correct our records accordingly.

- ① Term "additional" misleading. although same board for elementary & high school, all other agreements are for elementary. This agreement for high school only.
- ② + ③ - These agreements were handled direct with Headquarters. Our files indicate  
#193 - Ontario Dept. - circa June 64 - 35 pupils \$10,000.  
#245 - Ontario Dept - circa June 65 - additional facilities, \$10,000.  
The note on a list from Dept. of Education, Ontario, re: joint agreements - "Red Lake - \$30,000."  
We would appreciate clarification for our records.
- ④ Amended re: costs 10 Feb 66. Total Branch share this agreement was \$29,000. + 6,446.76 (Branch share of water line) = Total Branch share \$35,446.76
- ⑤ Agreement allows up to \$15,000. as land becomes available for purchase. Branch has to date paid out \$5,500. for its share of land.
- ⑥ More commonly known as Westminster Twp. Agreement. There are two schools involved, one has been completed -- the H E Duffield Public School in Lambeth, the second will be officially opened Nov. 4/66 & will be known as the Westminster Township Central Public School, which was formerly referred to as the "Hubert Site".
- ⑦ Our records indicate agreement signed 3 June 64 and amended as to costs on 5 October 64 and 1 February 66. Please clarify.
- ⑧ Agreement signed 31 March 1966. Better known as White River, No 1, R.C. - St. Basil is name of school, Branch share is \$45,768.00. Amount you indicate is amount paid to date only.
- ⑨ This is correct in that 17 additional pupils are involved. Known as this school will place first now being used, Central & Nelson, 45 Indian children will attend.

(Tumble)

- (10) Although Moose Factory Island school is not a public school, and would seem to come under a lease arrangement, it apparently was granted a Joint School Agreement number - No 33, and correspondence re this school is maintained on a 125-11-33 file.
- (11) Forest Public School Board on Kettle Point is this year renting temporary facilities to accommodate opportunity class. Board share \$ 2,050. There is no formal agreement & this amount may simply be reflected in billing charges.
- (12) Two agreements are now in negotiation stage - Southampton (Bruce Agency) is in a fairly advanced stage, and BRITT (Parry Sound Agency) in early preliminary stages.

② Branch Share - 35,684. TOTAL CONSTRUCTION Cost \$107,053.00

① The term "additional" misleading as this 35 is strictly High School. We do deal with same board in this area for both elementary + high school.  
Branch Share - \$ 32,006.83 actual. Agreement said estimated \$ 35,212.  
Total Construction Costs \$110,666. estimated.

③ School will not be ready till Sept/67. Bidgetown agreement twice by August out June/67

④ Known as Westminster Township. There will be 2 schools -- one, A. E. Duffield Public School at Lambeth and one at Hubert Site.

⑤ Our files give little information re these agreements as they were handled directly thru H.2.

Our info is: Ontario Dept Education - Red Lake -

#193 - circa June, 64. \$10,000. - 35 pupils.

#245 - circa June, 65. Red Lake Public, Order in Council dated

16 Aug 65, additional facilities

We would appreciate clarification of these agreements for our records.

We note a list of payments made re Joint schools compiled

by the Provincial Department indicates payments to Red Lake as \$ 30,000.

⑥ This agreement of 16 March 64 was amended re costs 10 Feb 66 making total Branch share: 29,000. + 6,446.76 (Branch share of water line) = Total share - \$ 35,446.76

⑦ Our records indicate agreement signed 3 June 64, + amended as to costs 5 Oct 64 + 1 Feb 66. Please clarify.

Joint School Submission

Your memorandum of September 16 requested a perusal of the joint school submission form as formerly used at your office and to report back as to whether or not this form can be used at it presently stands.

An examination of the form would suggest to me that for the time being, this will meet our purposes quite satisfactorily. Should a specific joint school project require data over and above that provided for on the forms, we will attach a supplementary sheet.

Mr. John George,  
R. R. #2,  
FOREST, Ontario.

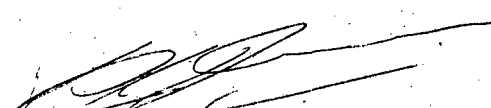

Dear Mr. George:

We appreciate your interest in sending your children to school in the town of Forest and wish to assure you that we have explored thoroughly every possibility of implementing this transfer.

You will recall, however, that it was as a result of your often repeated request that the children concerned were transferred from Forest to Kettle Point effective September 1966. We regret that, after consultation with Mr. Campbell Brown, we must advise that it will not be possible to transfer the children back to Forest at this time. Classes have been set up and there are five more Kettle Point children in the Forest system than the Agreement covers. We regret therefore that we must ask you to enrol these children immediately in the Kettle Point school.

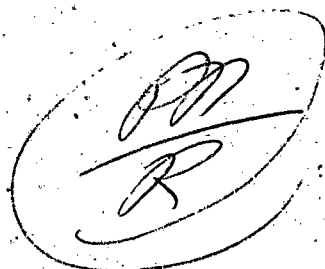

We will keep your request on file and assure you we will give it every consideration again for the 1967-68 school year.

Yours very truly,

  
C. C. Devanish,  
District School Superintendent,  
London Education District.

Joint School Submission

As you know, we use the information you provide in your joint school submission to prepare a submission to the Assistant Deputy Minister requesting his approval for your proposed program. I believe we are now in a position for you to present your own case. Consequently, we have devised the enclosed form which would, on its adoption, replace the present joint school form.

The essential information is shown in the sample form which we have enclosed. The essential items are:

1. Name of the community
2. Name of the school board
3. Name of the school
4. The proposed building program
5. Number of Indian pupils the construction is designed to serve
6. Total number of pupils
7. Whether this is an entirely new agreement or an extension of a program. If the latter, dates, number of pupils and cost is required.
8. Address of school
9. Cost — total cost, (including buildings, land, equipment, architect's fees, etc.), percentage (or fraction) being requested as the Indian Affairs Branch share, and per pupil cost. Total Indian Affairs Branch contribution is to be expressed in dollars.
10. A summary of your reasons for making the request. This paragraph should refer to band council resolutions or statements from parents when these are required.

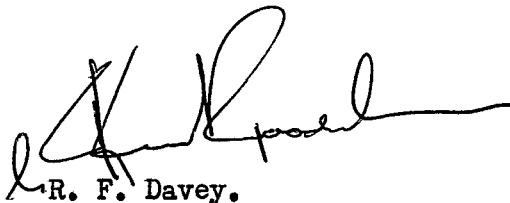

. . . 2

The section designated "Remarks" will be completed in Ottawa and your submission then forwarded to the Assistant Deputy Minister for approval.

I am enclosing for your information a copy of the Treasury Board Minute under which this program operates.

This form will replace the joint school submission form only. It will still be necessary to obtain permission to negotiate and approval in principle before proceeding with negotiations.

Would you please examine this form and let me know if you can use it effectively as it is. If not, would you please send me your suggested alterations.

General Agreement - Ontario

This is in reference to your memorandum of September 8, 1966.

We have been in contact with the Provincial Department of Education officials since receipt of your memorandum, and they advised that pressure of re-organization work within the provincial department has necessitated their temporarily placing this matter aside.

You will, however, be pleased to know that we have arranged a further meeting for October 11 at which time this topic will be entered into in further detail.

We will keep you advised.

Espanola Joint School (Agreement No: 299)

We attach hereto Government of Canada Cheque No: 230-0099325, dated August 16, 1966, in the amount of sixteen thousand and twenty-five dollars (\$16,025.) payable to the Board of Education of the Roman Catholic Separate Schools of Espanola on account of joint agreement No. 299. This amount represents one-third of total Branch share. Another one-third share will be paid to the Board upon submission of evidence of progress of construction, and the final one-third upon receipt of audited statement of total construction costs.

We also attach two copies of the Joint Agreement No. 299, duly signed by Headquarters officials.

Please forward the enclosed cheque to the Espanola Catholic School Board, together with one copy of the agreement. The second copy of the agreement is for your files.

1966-67 Joint School Program

Please refer to my July 22nd summary. In this summary, we totalled the "Anticipated" agreements as \$1,165,000.00.

The purpose of this letter is to now confirm that certain of these projects cannot be proceeded with in the current fiscal year and our anticipated total can be reduced accordingly. These are listed as follows:

Inspectorate or Agency	Name of Board	Total Branch Share	To be expended 1966-67	Amount of reduction from original total
Sault Ste.Marie	Espanola High School	75,000.	35,000.	40,000.
Lakehead	Fort William High School	45,000.	0	45,000.
James Bay	Moosonee Complex * (*set aside for /67-68)	650,000.	0	650,000.
Kenora	Jaffray-Melick Township	80,000.	0	80,000.

Therefore total amount of reduction: \$825,000.00

"Anticipated Total" is now: \$1,165,000.00 less \$825,000.00 or \$340,000.00

Should we find other changes, these will be reported to you for your records.

1966-67 Joint School Program

In reply to your May 13 request, I am now attaching a summary of the joint school projects in this region for the current fiscal year.

The summary, you will observe, designates joint projects into three categories as follows:

BALANCE:

This refers to projects for which agreements were signed in previous fiscal year(s), with balances owing which are likely to be claimed in this fiscal year. \*\*Please note this total reflects balances of amounts of original agreements. All indications point to an upward revision on present agreements as Boards are faced with steadily increasing construction costs.

of this total  
\$37,538.98 has  
already been  
paid out in this  
fiscal year.

Balance \$ 195,015.66

NEW:

These agreements have been signed within this fiscal year or have reached the stage of formal Joint School submission to Headquarters.

ANTICIPATED:

This indicates that agreements are contemplated and may even be in the preliminary negotiation stage. There is every possibility that an agreement will be completed within this fiscal year for those so designated. We have not included in this total \$15,000. Medora & Wood Township Area, or \$70,000. Orillia School Board as these two projects appear quite unlikely for inclusion until 1967-68 funds are available.

This total  
includes Moosonee  
Complex but not  
\$200,000.  
Manitoulin  
Composite  
High School.

\$1,165,000.00

In addition to the above, funds must be set aside for operating costs at Moose Factory Island (amount unknown at this office) and \$2,050. required for rental of facilities by the Forest Elementary School Board. see FMS

This refers to your memorandum of May 25th, 1966.

In this inspectorate an extension of our agreement with Jaffray-Melick is expected in this fiscal year. A submission was made to your office on May 16th, 1966, indicating the approximate costs.

A balance of \$42,000.00 (approx.) is due the Lake of the Woods District High School Board when audited reports are submitted.

The town council of Fort Frances has turned down the request of the Board for expanded facilities. This information I have received unofficially. Confirmation will be forwarded to you as soon as it is received at this office.

1966-67 Joint School Program - Field Survey

Further to your memo of May 25, 1966, please be advised that this office has canvassed several school Boards concerning their interests for Joint School Agreements. The data below represents the approximate costs to the Branch should there be funds available for Joint School Programs.

For your information, the Separate School Board in Fort William has completely turned down any offers for Joint School Agreements because they feel the Federal Government might interfere with their program and would ask for Board membership. I have tried to clear this matter with them, advising them that our prime concern is to buy space so that we may guarantee continued integration. For some reason or other the Board is a little suspicious of our offer and for the present, at least, is not at all interested in Joint Agreements, but is interested in billing us on a monthly basis, based on the number of pupils attending their system.

1966-67 Joint School Program

For the current fiscal year, funds for joint schools are being held in one single account and no particular sum of money has been assigned to any one region. Your projects will be processed in the order in which they reach Headquarters.

At this time, it would be advisable for you to summarize as far as possible your joint school program for this year. This exercise will permit you to give some thought to your joint school program as a whole and to give some emphasis to your integration program. Since our policy is to provide educational services for Indian children in provincial schools in preference to segregated federal schools, we are expected to devote a considerable amount of time and thought to this joint school program.

Would you please provide me with a list of the projects you expect to complete this year, giving the name of the joint school, the amount of accommodation to be purchased in terms of pupils, and the approximate cost to the Branch.

These are the projects in your region which will be financed from the 1966-67 budget.

Dear Mr. Laframboise:

Further to our telephone conversation of yesterday, I am pleased to enclose Government of Canada Cheque No: 230-0095530, in the amount of nine thousand, eight hundred and one dollars (\$9,801.), which represents a further interim payment on our joint agreement.

We have been advised by our Headquarters that no steps will be taken to increase the department's contribution until the final costs are known. At that time, an amendment to the agreement will be drawn up, and when this amendment has been signed by all parties concerned, arrangements will be made for final payment on this project.

May I take this opportunity to express to your Board the appreciation of the Branch for your co-operation in this project and for your interest in our Indian children.

Proposed Expansion - Espanola Separate School System

In our first joint school submission for this center, you will note on Page 3, Item 13, we expressed uncertainty as to expansion based upon the decision of parents to send their children into Espanola after observing the system in progress.

It is now clear that the principle of integrated education has been accepted totally by the Indian people and the people of Espanola.

In the first joint construction, provision was made for 105 pupil spaces. There are at present 110 pupils enrolled and the parents of an additional thirty more pupils have requested arrangements for admission September, 1966. Projection over the next three years assures this enrolment will grow from 140 pupils in September, 1966, by no less than ten per year to approximately 175 in 1969-70.

The Board can take those pupils only if additional expansion is undertaken. Inasmuch as the accommodation for their own enrolment is sufficient, the expansion will consist of two classrooms only for the Indian children.

I recommend participation by the Branch of this joint agreement for an additional seventy pupils at a total cost to the Branch of \$48,075.

May we have concurrence, please, as the Board has indicated they are ready to proceed immediately.

This refers to your memorandum of May 25th, 1966.

In this inspectorate an extension of our agreement with Jaffray-Melick is expected in this fiscal year. A submission was made to your office on May 16th, 1966, indicating the approximate costs.

A balance of \$42,000.00 (approx.) is due the Lake of the Woods District High School Board when audited reports are submitted.

The town council of Fort Frances has turned down the request of the Board for expanded facilities. This information I have received unofficially. Confirmation will be forwarded to you as soon as it is received at this office.

1966-67 Joint School Program - Field Survey

Further to your memo of May 25, 1966, please be advised that this office has canvassed several school Boards concerning their interests for Joint School Agreements. The data below represents the approximate costs to the Branch should there be funds available for Joint School Programs.

For your information, the Separate School Board in Fort William has completely turned down any offers for Joint School Agreements because they feel the Federal Government might interfere with their program and would ask for Board membership. I have tried to clear this matter with them, advising them that our prime concern is to buy space so that we may guarantee continued integration. For some reason or other the Board is a little suspicious of our offer and for the present, at least, is not at all interested in Joint Agreements, but is interested in billing us on a monthly basis, based on the number of pupils attending their system.

Proposed Expansion - Nipigon Separate School System  
Joint Agreement

From your letter of May 25th and that of the Board of April 20th, it would seem that the Board is planning expansion on the basis of some needed classroom space and required improvements. Inasmuch as the first agreement provides for the classroom space of 20 children, and you do not foresee to expand beyond this, then any negotiations we would make with the Board should be based upon our proportionate extent of benefit from the improvement section of the Board's construction. This would seem to be confined to the use of the general purpose room.

It would, therefore, be in order for you to meet with officials of the Nipigon Separate School Board with the view to discussing the manner in which the Indian children will share in proposed improvements, and, consequently, arrive at a basis for proposing Branch share of costs.

At the meeting of the West Haldimand High School Board on Thursday May 26th it was decided that they would not enter into a joint school program with the Indian Affairs Branch at this time for the new high school in Hagersville.

They would consider a joint agreement for the extension on the Caledonia High School. Plans for this project are not complete and it will be several years before this project will be given consideration.

S.S. No. 1, Kilkenny - MacDiarmid, Ontario

Purchase of the new home for a principal, according to the Board's May 12th letter, will run about \$5,200. If the Board sees this step as essential in order to assure proper principalship in the area, then the Branch stands to benefit also. On such a small expenditure, however, the Branch normally considers this type of expenditure as one which would add to the Board's actual operating costs over a small period of time. Therefore, it is in order that Branch proportionate share of costs be reflected in the regular billing for educational service. Should the Board prefer not to undertake this method of finance, there are precedents by which the Branch would, I believe, consider entering into an extension of the joint agreement to provide our share of costs.

I do believe that any Branch participation should be considered on the basis of an objective examination of educational benefit which will accrue to the Indian children through steps the Board takes to assure good educational leadership for their system.

Espanola Education Authority - Retarded Children

In reply to your letter of April 27th, I have the following comments:

- a) With respect to charges by the Retarded Education Authority on behalf of present Indian children, the Authority should get together on its costs and bill us on the basis of gross operation costs. Our Branch does not enter into donations as such, but rather will underwrite costs for services rendered. Therefore, if the Authority feels they have not placed an account in our hands for sufficient cost, they should adjust the cost and indicate the additional item.
- b) With respect to any plans the Education Authority may have in mind, please direct them to correspond directly with my office. This step is necessary because the whole move of Branch participation with retarded children's education authorities is new and has little precedent. This move will assure Regional conformity on all these steps.

Proposed Addition to Joint Agreement -  
Sarnia Board of Education

The Sarnia Board is planning necessary extensions to their elementary system. Our present Agreement provides accommodation for 100 children in the system. Our projection to 1970 indicates that provision must be made for no less than 155. The Board therefore has invited the Branch to participate on the basis of this project number (55 pupils).

In the course of the past several years, the Board has regularly added a library and all-purpose room to each of its elementary schools. They will now be adding the same facilities to the Lansdowne Public School to which this proposed addition is being made. This means that all pupils of Indian status in the several elementary schools in the City of Sarnia will receive the benefit of these rooms and the Board has invited the Branch to participate in cost sharing of these facilities.

My submission is therefore prepared in two parts, as follows:

1. FOUR CLASSROOM ADDITION

55/135 x \$122,323 - \$19,835.00

2. ALL-PURPOSE AND LIBRARY ROOMS

155/700 x \$75,756 - \$16,774.00

TOTAL \$66,609.00

2.

In the second part it will be noted the denominator 700 represents the total number of pupils enrolled in the average Sarnia Public School of 20 classrooms. Lansdowne School at the present time will be smaller than this average size but the Board feels the average would be a more realistic denominator at this time. The Director of Education for the Sarnia Board and Mr. Devenish have discussed a typical Memorandum of Agreement that is very acceptable to the Board. I attach a copy of it and would suggest that it be used if the terms are not in conflict with Government of Canada policy.

In closing I recommend the Branch proceed with this joint school addition and would ask for your early agreement in principle so that the Board may complete their plans accordingly.

H. B. Rodine.

### INSTRUCTIONS

1. This cover must not be folded under.
2. File should be retained no longer than is absolutely essential. If a file is frequently needed at short intervals, it is better to B.F. it for two or three days than keep it out of Central Registry indefinitely. This ensures its being completed and kept in order and also gives other officers an opportunity of using it.
3. Central Registry must be notified whenever a file is passed directly between one official and another.
4. All outgoing letters should bear the official file number and originator's designation.
5. ONE SUBJECT—ONE COMMUNICATION—Where the contents of outgoing letters necessarily refer to more than one subject, the originator will prepare additional copies for attachment to relevant files.
6. Correspondence must not be removed from file, except as provided in the regulations governing the conduct of correspondence.
7. Incorrectly filed material will not be removed without notification to Central Registry.
8. Official office designations are to be used for routing purposes.
9. Disposal entries on file jackets must be initialled and dated.
10. Urgent Tags, flags and other markers will be removed in Divisional Offices as soon as appropriate action on the folios has been taken.
11. Officials are reminded that strict adherence to the security regulations is essential when dealing with classified material.
