1. In order to prevent loss of dope, paint, varnish and lacquers, due to evaporation, caking and skinning, it is essential that these materials, when not in use, are kept tightly covered or sealed in containers.
 2. Brushes after use and not required within 48 hours, are to be cleaned thoroughly and wrapped in brown paper, to ensure that the bristles are kept clean and preserved from dust. The proper cleaning materials are:

For brushes used in shellac - Methylated spirits
For brushes used in lacquer & dope - Lacquer or dope thinners.

3. If these brushes are to be used within 48 hours, it will be sufficient to immerse them in oil, or in an oil solvent, care being taken to ensure that the bristles are not permitted to rest on the bottom of the container.

9. SALVAGE OF EMPTY GLASS INK AND MUCILAGE BOTTLES

AIR FORCE HEADQUARTERS have instructed that all empty glass, ink and mucilage bottles are to be salvaged.

Flight and Section Commanders are to arrange for the immediate return of all such bottles to the I. & R. Section and in order to obtain issues in future, the empty bottle must be returned with the requisition.

(Auth: AFHQ 902-66-24 (DDSSB))

10. SENIOR DUTY OFFICERS AND ORDERLY OFFICERS

Senior Duty Officers and Orderly Officers are not to grant Leave or Passes to aircrew personnel or armoured trainees without first referring the case to the Officer in charge of the G.I.S. (Air) or G.I.S. (Arm), respectively.

11. EMERGENCY LANDINGS ON WATER

The following instructions from Flying Regulations for the R.C.A.F. are to be brought to the attention of all Pilots and are to be incorporated in the Pilot's Order Book.

Sec. 5

C.A.F. 100

USE OF FLAPS WHEN A LANDPLANE MAKES AN EMERGENCY ALIGHTING ON WATER.

45. The flaps of low and mid-wing type landplanes should be up when making an emergency alighting on water. The tendency to dive under at comparatively low speeds may be dangerously increased if the flaps are down, due to the nose-down pitching moment caused by water loads on the flaps.

46. The flaps of high-wing types, however, are not likely to strike the water before the aeroplane has come to rest and they should, therefore, be lowered to at least 40° to get the full advantage of reduced landing speed.

NOTICES

1. In order to avoid unnecessary delay and possible postponements, the Station Softball Diamonds will in future be referred to by numbers. All three Diamonds will be equipped very shortly with new back-stops, and there will be very little to choose between locations.

- (a) DIAMOND NUMBER 1:- The Diamond nearest the Entrance to the Sports Field
- (b) DIAMOND NUMBER 2:- The Diamond at the extreme North end of the new Sports Field.
- (c) DIAMOND NUMBER 3:- The Diamond beyond the Irrigation Ditch and the New Sprint Track under construction.

Future Schedules appearing weekly in D.R.O. will signify the Diamond Number and the time when the Game will be played. Any alterations or necessary adjustments must be made through the P.T. Officer at Local 2. Team Captains are neglecting to promptly report results of games to this Office, uncalled for delay in publishing Section Standings results.

2. Through the kind permission of the Commanding Officer, the entire afternoon of Wednesday, July the first, has been set aside, weather permitting, as a Station Sports Day. The events will begin on the Station Sports Field promptly at 1300 hours, and the following events will be held:

- A. Intra-Section Soccer League Finals.
B. Intra-Section Softball Finals.
C. Swimming Meet. (on the night of June 30th at Trenton)
D. Track and Field Meet.

A. SOCCER FINALS

The two first teams at the end of June will play the final Match to declare a Station Championship team.

B. SOFTBALL FINALS

The winners of Sections A.B.C. and of the Station Softball League will play the Semi-Finals in the early part of the afternoon, with the final for the Station Championship toward the latter part of the day.

14. 812 - TIME DESIGNATION IN SIGNAL MESSAGES FOR DESPATCH OVERSEAS

1. In future, when it is necessary to state TIME in the SUBJECT MATTER of a SIGNAL MESSAGE for delivery to the United Kingdom, the Dominions, Crown Colonies or R.A.F. Commands overseas, the time is to be expressed in Greenwich Mean Time.
2. The addition of the letters GMT following the time in the subject matter is not required.
3. The TIME OF ORIGIN, expressed in GMT, is to be followed by the suffix "Z" on all signal messages for despatch overseas, e.g., 1700 GMT would be written 1700 Z.
4. For signals within Canada, Newfoundland or Labrador the present system of expressing time of origin in GMT, but without the suffix "Z" is to continue in force.
5. This order becomes effective 0001 hours GMT, 1st June, 1942.

15. SERVICE PERSONNEL - LIABILITY AS CITIZENS - 813

1. A.F.R.O. 655, dated 1st May, 1942, is hereby cancelled, and the following substituted.
2. Numerous instances have arisen indicating that Service personnel are under the erroneous impression that by being members of the Service they are thereby freed from civilian obligations. This conception is particularly prevalent with respect to the liability of personnel under leases and similar contractual obligations.
3. With the exception of the protection of their pay from civil attachments personnel are advised that no privileges arise from their status as members of the Service, that they remain subject to all the liabilities of civilian life, and particularly have no exemption from the terms of leases or other contractual obligations merely because of change of residence pursuant to posting instructions or arising through the course of their duties.
4. All personnel are warned that they are subject to prosecution and punishment by the civil authorities in the same manner as civilians for the contravention of any of the laws of Canada.
5. This information is also for the guidance of members of the R.A.F., R.A.A.F., and R.N.Z.A.F., while serving in Canada.

16. PRACTICAL DEMOLITION AND PYROTECHNICS DISPLAY

A Practical Demolition and Pyrotechnics Display will take place at Consecon Ranges on the afternoon of Saturday, June 6th, 1942. between 1200 & 1400 hours.

9. 813 - SERVICE PERSONNEL - LIABILITY AS CITIZENS

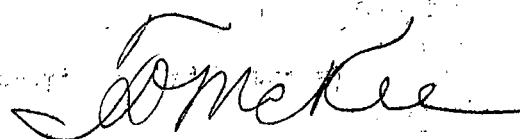

1. A.F.R.O. 655, dated 1st May, 1942, is hereby cancelled, and the following substituted.
2. Numerous instances have arisen indicating that Service personnel are under the erroneous impression that by being members of the Service they are thereby freed from civilian obligations. This conception is particularly prevalent with respect to the liability of personnel under leases and similar contractual obligations.
3. With the exception of the protection of their pay from civil attachments personnel are advised that no privileges arise from their status as members of the Service, that they remain subject to all the liabilities of civilian life, and particularly have no exemption from the terms of leases or other contractual obligations merely because of change of residence pursuant to posting instructions or arising through the course of their duties.
4. All personnel are warned that they are subject to prosecution and punishment by the civil authorities in the same manner as civilians for the contravention of any of the laws of Canada.
5. This information is also for the guidance of members of the R.A.F., R.A.A.F., and R.N.Z.A.F., while serving in Canada.

H.Q. 921-3-60

10. 815 - AMATEUR PHOTO FINISHING - PHOTOGRAPHIC SECTIONS

1. Service photographic sections are forbidden to do any photographic processing or finishing whatsoever for service or other personnel, which is not directly concerned with station duties. Any stocks of material privately purchased for this purpose are to be removed from photographic sections and returned to the owners forthwith.
2. Commanding officers are to ensure that this order is adhered to strictly, and that any infractions are dealt with severely.

13. APPLICATIONS FOR WRITE-OFF.

A communication has been received from No. 1 Training Command in which it is stated that there has been a marked increase in the losses of equipment in this Command.

In order that losses may be reduced to the absolute minimum, inventory holders are to ensure that all possible steps are taken to locate or recover such equipment before submitting applications for write-off as a charge against the public.
