PREAMBLE

MINORITY LANGUAGE EDUCATION:

Vision:

British Columbia francophones will receive an education in French recognized for its excellence and for its contribution to the development of French culture.

Mission:

The *Conseil scolaire francophone de la Colombie-Britannique (CSF)* is committed to offering educational programs and services enhancing the full development and cultural identity of the francophone learners in the province.

In addition, the Board of Directors undertakes to participate actively in the development of francophone community life in British Columbia. The francophone school district has seven (7) Directors representing the educational and cultural needs of all eligible children in the province.

In 1997, legislation was enacted to support section 23 of the Canadian Charter of Rights and Freedoms. Under the British Columbia *School Act* students in the Francophone Education system are entitled to receive the same educational programs as English-speaking students.

In 1999-2000, there are 2,770 students enrolled in 39 francophone educational programs in 22 geographical areas of the province.

SECOND LANGUAGE INSTRUCTION:

French Immersion

A more ambitious French program for non-francophones, French Immersion is designed to produce functionally bilingual students by using French as the language of instruction. French Immersion programs parallel the regular English program in structure and content. There are 30,420 students enrolled in French Immersion and there is a total of 224 schools offering this program in 44 school districts.

• Programs:

The required percentage of time in French Language instruction is:

<u>Grade</u>	<u>% of French Instruction</u>	<u>% of English Instruction</u>
K-3	100%	0
4-7	80%	20%
8-10	50-75%	25-50%
11-12	no less than 25%	no more than 75%

Curriculum and resources are provided by the Ministry of Education for Early French Immersion (K-12) and Late French Immersion (6-12) programs.

• Schools:

There is a total of 224 schools offering French Immersion in 44 school districts.

- 130 Elementary schools
- 23 Middle schools
- 71 Secondary schools

Core French

Core French is a subject designed to enable non-French speaking students to begin to understand and communicate in French, as well as to experience francophone culture. Core French as a course has been in the BC curriculum for over 30 years, however the new Language Policy, in place since September 1995, requires another language to be taught from grade 5 to grade 8. This policy ensures that for a minimum of four (4) years students will take a language course, French is the language most frequently offered.

The number of students enrolled in Core French is 241,448 and there is a total of 1,466 schools offering this course in 59 school districts.

SUPPLEMENTARY COSTS:

Additional costs are incurred for British Columbia in support of French as a First Language education and French as a Second Language programs and instruction. These additional costs are related in part to supporting educational programs. This includes development, translation, adaptation of curriculum documents; development and translation of learning resources, teacher resources and special intervention documents. Additional support is targeted to school libraries, teacher in-service, learning assistance and a variety of cultural activities for the enrichment and understanding of French Canadian heritage.

The delivery of educational programs also entails additional costs supported through the provincial funding allocation system in recognition of small class size, transportation and administration. This results in per pupil funding to the CSF being higher than the average per pupil amount for other public schools in the province. The support British Columbia receives through Official Languages Agreements with the Federal Government assists in offsetting some of the additional costs identified by the CSF.

Objet : Bilateral Agreement Questions

Hello Micheline,

I have a few questions that our solicitors have raised regarding specific sections in the draft Bilateral Agreement.

1. Section 4.2 Inter-provincial/territorial Projects or Pan Canadian Projects.

- this section is not a contractual provision, it does not belong in this agreement.

2. Section 6 TRANSFERS

-6.3 As this paragraph seems to have nothing to do with this Agreement, it should be deleted. If there is a Supplementary Agreement, this constraint can be included in that Supplementary Agreement.

Give me a call and I'll give you the outline on the other changes we are making. Most of the remaining changes are what we refer to as "house keeping"

In addition, the Board of Directors undertakes to participate actively in the development of francophone community life in British Columbia. The francophone school district has seven (7) Directors representing the educational and cultural needs of all eligible children in the province.

SECOND LANGUAGE INSTRUCTION:

French Immersion

A more ambitious French program for non-francophones, French Immersion is designed to produce functionally bilingual students by using French as the language of instruction. French Immersion programs parallel the regular English program in structure and content. There are 30,420 students enrolled in French Immersion and there is a total of 224 schools offering this program in 44 school districts.

• **Programs:**

The required percentage of time in French Language instruction is:

<u>Grade</u>	<u>% of French Instruction</u>	<u>% of English Instruction</u>
K-3	100%	0
4-7	80%	20%
8-10	50-75%	25-50%
11-12	no less than 25%	no more than 75%

Curriculum and resources are provided by the Ministry of Education for Early French Immersion (K-12) and Late French Immersion (6-12) programs.

• **Schools:**

There is a total of 224 schools offering French Immersion in 44 school districts.

- 130 Elementary schools
- 23 Middle schools
- 71 Secondary schools

Core French

Core French is a subject designed to enable non-French speaking students to begin to understand and communicate in French, as well as to experience francophone culture. Core French as a course has been in the BC curriculum for over 30 years however the new Language Policy, in place since September 1995 requires another language to be taught from grade 5 to grade 8. This policy ensures that for a minimum of four (4) years students will take a language course. French is the language most frequently offered.

The number of students enrolled in Core French is 241,448 and there is a total of 1,466 schools offering this course in 59 school districts.

SUPPLEMENTARY COSTS:

Additional costs are incurred for British Columbia in support of French as a First Language education and French as a Second Language programs and instruction. These additional costs are related in part to supporting educational programs. This includes development, translation, adaptation of curriculum documents; development and translation of learning resources, teacher resources and special intervention documents. Additional support is targeted to school libraries, teacher in-service, learning assistance and a variety of cultural activities for the enrichment and understanding of French Canadian heritage.

The delivery of educational programs also entails additional costs supported through the provincial funding allocation system in recognition of small class size, transportation and administration. This results in per pupil funding to the CSF being higher than the average per pupil amount for other public schools in the province. The support British Columbia receives through Official Languages Agreements with the Federal Government assists in offsetting some of the additional costs identified by the CSF.

PLAN D'ACTION DE LA COLOMBIE-BRITANNIQUE

2000-2001 à 2002-2003

PRÉAMBULE

ENSEIGNEMENT DANS LA LANGUE DE LA MINORITÉ :

Vision :

Les francophones de la Colombie-Britannique recevront une éducation en français reconnue pour son excellence et pour sa contribution au développement de la culture francophone.

Mission :

Le Conseil scolaire francophone de la Colombie-Britannique (CSF) s'engage à offrir des programmes et services éducatifs visant à promouvoir le plein développement et l'identité culturelle des apprenants francophones de la province.

De plus, le conseil d'administration s'engage à participer activement au développement de la vie communautaire francophone en Colombie-Britannique. Le district scolaire francophone compte sept (7) membres qui représentent les besoins éducatifs et culturels de tous les élèves ayant droit de la province.

En 1997, une loi était adoptée à l'appui de l'article 23 de la Charte canadienne des droits et libertés. Au sens de la *School Act* de la Colombie-Britannique, les élèves qui font partie du système d'éducation francophone ont droit aux mêmes programmes éducatifs que les élèves anglophones.

Il y a 2 770 élèves inscrits dans 39 programmes éducatifs francophones répartis dans 22 régions géographiques de la province.

Des études sont en cours pour évaluer les besoins des élèves francophones de la Colombie-Britannique en matière d'éducation postsecondaire.

Plan d'immobilisations :

Reconnaissant le droit des francophones de gérer leurs propres écoles, la *Capital Planning Branch* du Ministère a travaillé de concert avec le CSF pour déterminer la meilleure utilisation de nouvelles écoles et de structures de classes pour satisfaire les besoins des élèves.

ENSEIGNEMENT DE LA LANGUE SECONDE :

Immersion en français

L'immersion en français, un programme plus ambitieux pour les non francophones, vise à produire des élèves fonctionnellement bilingues en utilisant le français comme langue d'enseignement. Les programmes d'immersion en français correspondent au programme anglais en matière de structure et de contenu. Il y a 30 420 élèves inscrits dans les programmes d'immersion en français et 224 écoles les offrent dans 44 districts scolaires.

• **Programme :**

Les exigences en matière de temps d'enseignement en français sont les suivantes :

<u>Année</u>	<u>% d'enseignement en français</u>	<u>% d'enseignement en anglais</u>
M à 3	100 %	0
4 à 7	80 %	20 %
8 à 10	50-75 %	25-50 %
11 et 12	pas moins de 25 %	pas plus de 75 %

Les programmes d'études et les ressources sont fournis par le ministère de l'Éducation pour les programmes d'immersion hâtive (M à 12) et d'immersion tardive (6 à 12).

• **Écoles :**

Il y a 224 écoles qui offrent l'immersion en français dans 44 districts scolaires.

- 130 écoles primaires
- 23 écoles intermédiaires
- 71 écoles secondaires

Français de base

Le français de base est une matière visant à permettre aux élèves non francophones de comprendre suffisamment le français pour communiquer dans cette langue et de se familiariser avec la culture francophone. Les cours de français de base font partie du programme d'études provincial depuis plus de 30 ans; la nouvelle politique des langues, en vigueur depuis septembre 1995, exige toutefois qu'une langue seconde soit enseignée de la 5^e à la 8^e année. Cette politique assure que les élèves étudieront une autre langue pendant au moins quatre (4) ans. Le français est la langue la plus souvent offerte.

Le nombre d'élèves inscrits au cours de français de base est de 241 448 et 1 466 écoles l'offrent dans 59 districts scolaires.

COÛTS SUPPLÉMENTAIRES :

La Colombie-Britannique engage des coûts supplémentaires à l'appui de l'enseignement dans la langue de la minorité et de l'enseignement de la langue seconde. Ces coûts supplémentaires servent en partie à financer les programmes éducatifs aux chapitres suivants : élaboration, traduction et adaptation de programmes d'étude; élaboration et traduction de ressources d'apprentissage, de ressources à l'intention des enseignants et de guides d'intervention. Des montants supplémentaires sont consacrés aux bibliothèques scolaires, au perfectionnement des enseignants, à l'orthopédagogie et à diverses activités culturelles visant à aider les élèves à comprendre et à enrichir leur patrimoine canadien français.

La prestation de programmes éducatifs entraîne également des coûts supplémentaires à l'égard des petites classes, du transport et de l'administration et pour lesquels les provinces reçoivent une aide financière dans le cadre du système d'allocations provinciales. L'aide financière que reçoit la Colombie-Britannique dans le cadre de l'Accord relatif aux langues officielles avec le gouvernement fédéral compense certains de ces coûts.

Objet : Business Plan

The Committee has met and was very satisfied with the product you have delivered. There were only a few comments:

Under **Minority Language Education** in the preamble, please add information on the CSF : Creation / responsibilities / provincial organisation because of the geographical areas of the Province.

Relevant Legislation : It is suggested that this section either be deleted or each legislation explained.

Under **Second Language Instruction** in the preamble :

Same comments regarding relevant legislation.

Last sentence : It is not clear what is meant by the last sentence concerning graduation requirements.

Last comments for the Status : Describe additional costs and Formula used.

ACTION PLAN

Minority

Page 1 :

1.1) Expected outcomes : please add the following : The CSF will be in a position to offer francophone education to entitled students within the K-12 educational system **in a safe and supportive school environment**. / Indicators : Delete first paragraph.

1.1.2) First indicator change to : Number of students enrolled over the next four years.

Page 3 :

2.3) Move first indicator under outcomes

2.5) Move first indicator under outcomes

Page 4 :

2.10) Move outcomes to measures and first indicator under outcomes

Second language

Page 1 :

1.1) Move last indicator under outcomes

1.2) Move outcomes under measures and first indicator under outcomes

THE MOST IMPORTANT PART IS WITH REGARD TO SPECIAL MEASURES :

Could you put a footnote indicating that what is in bold is for special measures?

Could you put in bold what is for special measures and leave regular font for activity being funded under regular OLEP?

Carrie

(ex. 1.1) Contributions to the CSF in support of continuing expansion; community enhancements; district administration, **small class configurations and implementation activities**).

Same thing under 2.4, 2.5, 2.6, 2.10, 3.2, 3.3, 4.3 and 4.4 / Delete bold under OLEP federal funding. You really have to find a way to show what is different from regular funds and special measures because when time comes for your activity report, you will have to present two activity reports (one for OLEP and one for Special Measures). The Finance Branch will want to know what has been spent and for what activity.

Finally, one last question : Is it the CSF who develops the Curriculum?

Minority Language Education:

In 1997 legislation was enacted to support section 23 of the Canadian Charter of Rights and Freedoms. Under the British Columbia *School Act* students in the Francophone Education system are entitled to receive the same educational programs as English-speaking students.

The Conseil Scolaire Francophone (CSF) has many challenges ahead, not only in developing appropriate educational programs for their students, but in the uniqueness of their district structure (jurisdiction for eligible student throughout the Province). The process of developing a strong and vibrant francophone education system will continue to be an evolving process for many years.

The Capital Plan Agreement reached with the Ministry of Education, the CSF and supported by Canadian Heritage, will go a long way to stabilizing the classroom and community structures so sought after by the francophone parents. In this environment francophone programs, culture and a sense of community will be able to flourish.

Objet : Notes from Lise's visit

Micheline,

Do you remember our conversation late last week, regarding a note Lise made when she was out visiting us. She made note of a detailed report (or copy of one from Alberta). She may have been looking at giving us a copy of a final detailed report submitted by another jurisdiction to assist us in working with the CSF, when they have to produce reports on how they used the Special Investment Measures funding.

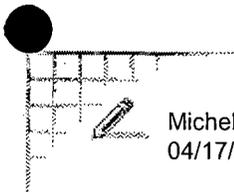

This is a guess on my part as we will be meeting with the CSF to discuss the level of detail on their reports. It has been difficult to get tangibles from them.

Let me know if this is what Lise was thinking of.

Thanks
Fran

PS> did you receive the FAX yesterday of the CAFE Report. We have mailed the original via Priority Post yesterday. You should have it in a few days.

Micheline,

Do you have the per FTE (elementary and secondary) dollar amounts that Statistics Canada uses when determining the funding level for minority first-language and second language (Immersion and core French).?

Are these different numbers than what is used for Independent schools students ?

We are in the process of finalizing our 2000/01 school district funding and require this level of breakdown.

Call Nicole on Tuesday if you have any questions. 356-2176

Thanks

URGENT

Our administration has prepared the document required to ensure that the funding to the province for 2000-2001 is put aside to ensure that payments will be made. You will find enclosed copy of that document for you to verify. It would be greatly appreciated if you could sign this document (two signatures required) in the section required by the province and return a faxed copy to me **before Thursday, April 19, 2001 at noon.**

Could you also send me by mail the original signed copy by the province for our files.

I apologize for the short timeframe but our deadline to reserve this funding is end of day Thursday.

Thank you for your co-operation. Please do not hesitate to call me if you have any questions.

Objet : Funding for Independent Schools 2000/01 School year

Micheline,

Have you received the funding amount that the Independent Schools of British Columbia are entitled to, for fiscal/school year 2000/01. This figure last year was \$301,032.

Stats Canada usually gives you this figure and we make the appropriate adjustments in our budget allocations.

We are in the process of reconciling our 2000/01 accounts.

Thanks

Fran

**CANADA - BRITISH COLUMBIA AGREEMENT
FOR MINORITY-LANGUAGE EDUCATION AND
SECOND-LANGUAGE INSTRUCTION**

THIS AGREEMENT has been concluded in English and in French on this day of 2001

BETWEEN:

**HER MAJESTY THE QUEEN IN RIGHT OF
CANADA**, hereinafter referred to as "Canada",
represented by the Minister of Canadian Heritage

AND:

**HER MAJESTY THE QUEEN IN RIGHT OF
BRITISH COLUMBIA**, hereinafter referred to as
"British Columbia", represented by the Minister of
Education.

WHEREAS English and French are the official languages of Canada, as recognized by the *Canadian Constitution*, as well as by the *Official Languages Act*, and whereas Canada recognizes its responsibilities and undertakings with respect to those languages;

WHEREAS section 23 of the *Canadian Charter of Rights and Freedoms* recognizes the right of Canadian citizens belonging to the English- or French-language minority in a province or territory to have their children educated in that language, at the elementary and secondary levels, where numbers of students warrant, and that this right includes, where the number of those children so warrants, the right to have them receive that instruction in minority-language educational facilities provided out of public funds;

WHEREAS Canada is committed to supporting the development of the official-language minority communities and to promoting the recognition and usage of English and French in Canadian society, and whereas, in accordance with the *Official Languages Act*, the Minister of Canadian Heritage can undertake measures to encourage and assist provincial/territorial governments to offer members of the official-language minority communities education in their own language and to provide everyone with the opportunity to learn French and English as a second language;

WHEREAS a Protocol for Agreement between Canada and the provincial and territorial governments for minority-language education and second-language instruction was concluded on February 23, 2000 between the Minister of Canadian Heritage and the Chair of the Council of Ministers of Education, Canada (CMEC), on behalf of all the provincial and territorial ministers responsible for education, hereinafter referred to as the "Protocol";

WHEREAS under the aforementioned Protocol, each provincial and territorial government will conclude a bilateral agreement with Canada for the period from April 2000 to March 2003;

WHEREAS British Columbia, as part of its jurisdiction over education, provides education in French in British Columbia ~~in accordance with section 23 of the *Canadian Charter of Rights and Freedoms*~~, as well as instruction in French as a second language;

WHEREAS education is a provincial jurisdiction and it is the responsibility of British Columbia to determine the objectives, define the contents, set priorities of its education programs in French and French second-language instruction, as well as to evaluate them;

WHEREAS British Columbia has agreed, for the purpose of the Protocol concluded on February 23, 2000, to describe the objectives, the main measures it intends to undertake and their expected results in multi-year action plans;

WHEREAS Canada and British Columbia recognize the existence, ~~as acknowledged in the Protocol,~~ of additional costs resulting from the fact that minority-language education and second-language instruction are provided, and Canada is prepared to assist British Columbia to absorb these costs;

WHEREAS the parties recognize that the federal contributions paid to British Columbia for the period extending from April 1998 to March 2000 were provided pursuant to annual provisional arrangements replicating the conditions of the previous bilateral agreement;

THEREFORE, given the reciprocal agreements contained herein, this Agreement bears witness to the fact that the parties agree on the terms and conditions hereinafter.

CONTRIBUTIONS TO ~~PRIVATE AND~~ INDEPENDENT SCHOOLS

1. General procedures for contributions to ~~private or independent schools~~

1.1 In accordance with Clause ~~5.3~~ of this Agreement, British Columbia agrees to provide a contribution to ~~private or independent schools~~ in British Columbia in each year of this Agreement on the basis of a "full-time equivalence (FTE)" amount. The amount of the contribution given to each school in British Columbia shall be determined by Statistics Canada in each year of the Agreement on the basis of the calculations shown in this Schedule B. To this end, British Columbia authorizes Statistics Canada to obtain the data required for these calculations directly from the ~~private or independent schools in British Columbia~~ for each year of this Agreement. British Columbia agrees to ask ~~the independent schools that receive a contribution to provide information~~ each year showing how Canada's contributions are used to cover the additional costs incurred by ~~the schools to provide French-language education and French second-language instruction.~~ ^{the Federation of Independent School Associations (FISA) for distribution to independent}

1.2 British Columbia may, at its discretion, increase the amount of Canada's contribution to the schools from the funds provided for in Clause 5.4 of this Agreement.

FISA to supply an audited report that

2. Minority language and immersion

2.1 For a student to be considered a "full-time equivalence (FTE)", he or she must be registered in an educational program in the minority language or in second-language immersion as defined by ~~the province~~ ^{B.C.} and receive not less than 75% of his or her education in the minority language or in the second language at the elementary level and not less than 60% at the secondary level.

2.2 For students receiving less of their education in the minority language or in second-language immersion than the percentage shown in Clause 2.1 of this Schedule, instruction time shall be calculated on the basis of the percentage they receive; in other words, 100% of a student's regular instruction time will correspond to one "FTE".

2.3 Students receiving less than 25% of their instruction in the minority language will not be included; however, students receiving less than 25% of their instruction in second-language immersion will be included in calculating the contribution for the second language.

3. Second language

3.1 "Full-time equivalence (FTE)" in the second language is determined by calculating the number of hours of instruction in the second language received by the students. There is an "FTE" whenever there is 100% of a student's regular instruction time.

4. FTE - Elementary and secondary levels

4.1 "Full-time equivalence (FTE)" at the elementary and secondary levels for students registered in the programs referred to above is calculated as follows:

Ministry of Education

SCHEDULE B

- (a) each student registered in a program in the minority language or in an immersion program who receives not less than 75% of his or her education in the said language at the elementary level and 60% at the secondary level = 1 "FTE"
- (b) the calculation for other students is based on the percentage of the school week¹ X the number of other students = number of "FTE"s

4.2 In all the above clauses, a student registered in junior and senior kindergarten classes recognized or defined by ^{B.C.} ~~the province~~ will be considered to be one-half of a "full-time equivalence (FTE)" if his or her regular instruction time is equivalent to one-half of the regular instruction time of the other programs at the elementary level in accordance with the calculations described above in Clauses 2, 3 and 4 of this Schedule.

- 5. The amount to be paid to each school in a given year will be calculated on the basis of the number of "full-time equivalences (FTE)" in the previous school year.
- 6. Statistics Canada will process the data required to calculate contributions ^{for} ~~to the~~ independent or private schools in British Columbia. The methods to be used in collecting these data will be those agreed to under the earlier Protocol between Statistics Canada and each provincial government.
- 7. Subject to Clause 5.4 of this Agreement, the contributions per full-time equivalence ("FTE") at the elementary and secondary levels for students registered in each of the educational programs described in this Schedule are determined as follows for the period of this Agreement:

CONTRIBUTION FOR EACH "FTE" PER PROGRAM

Minority language	\$/FTE	Immersion	\$/FTE	Second language (Core program)	\$/FTE
Elementary	\$141	Elementary	\$111	Elementary	\$64
Secondary	\$267	Secondary	\$172	Secondary	\$94

- 8. The amount to be paid to each ~~private or~~ independent school for each year of this Agreement shall be determined as follows:
 - 8.1 the contribution per "FTE" as indicated above for each of the educational programs and levels multiplied by the number of "FTE" students for each of the educational programs and levels corresponding to the provisions of this Schedule.

¹ Total minutes of instruction for each level in one of the three programs referred to above in the cycle* X 100
total minutes in the cycle

* The cycle is a period representing a specific number of days of instruction recurring in the same order within the school timetable. The cycle may last five days or more.

MAR 29 2001

Dear Ms. McPhail:

I am writing further to the 2000-2001 federal funding to British Columbia in the context of the Official Languages in Education Program.

As you know, negotiations have been under way since last spring on the conclusion of the *Canada - British Columbia Agreement for Minority-Language Education and Second-Language Instruction*, the *Canada - British Columbia Special Agreement on Investment Measures for Quality Education in the Language of the Minority*, as well as British Columbia's related action plans. I am informed that these discussions are progressing well and are reaching their conclusion. However, it now seems that it will not be possible to ratify these documents before the March 31, 2001 deadline in order to ensure payment to British Columbia of the amounts anticipated for 2000-2001.

The agreements currently being negotiated provide for payment in 2000-2001 to British Columbia of \$8,107,000 for the Bilateral Agreement, as well as \$3,000,000 for Special Investment Measures. These agreements will also provide the conditions for payment of the federal contribution for the current fiscal year.

Therefore, I hereby commit to provide funding in the total amount of \$11,107,000 to British Columbia for 2000-2001, providing that we conclude the multi-year agreements and agree on action plans, in accordance with the Protocol for Agreements signed in February 2000 with the CMEC. I am confident that we will be able to conclude these agreements in the next 60 days.

Yours sincerely,

Sheila Copps

Description of Project - Description du projet

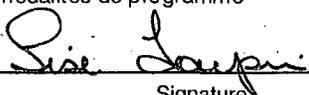

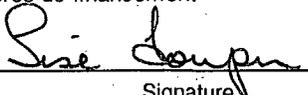

Le Programme des langues officielles dans l'enseignement vise à appuyer les provinces et les territoires pour fournir des services éducatifs en français ou en anglais langue première et en français ou en anglais langue seconde.

Conformément au Protocole d'entente signé avec le Conseil des ministres de l'éducation (Canada) (CMEC) le 23 février 2000 pour la période 1998-1999 à 2002-2003, Patrimoine canadien et le gouvernement de la Colombie-Britannique négocient une entente bilatérale. En vertu de la clause 6.1 du Protocole, le Canada fournira à la Colombie-Britannique une contribution annuelle de 8 107 000 \$ pour les années 2000 à 2003. L'Entente est assortie d'un plan d'action (Annexe B) lequel rendra publique la planification provinciale pour ce qui est des activités qui seront mises en oeuvre, de l'utilisation du financement fédéral et territorial, des résultats prévus et des indicateurs de rendement en matière d'enseignement à la minorité et d'enseignement de la langue seconde. Le plan d'action comprend également un préambule qui décrira la situation des langues officielles dans l'enseignement à la Colombie-Britannique.

Les négociations vont bon train mais ne pourront se conclure avant le 31 mars 2001. Comme suite à la demande de la Colombie-Britannique, nous demandons de confirmer les sommes pour 2000-2001 jusqu'à la signature d'une entente prévue au plus tard à la fin mai 2001.

PROJECT ASSESSMENT - ANALYSE DU PROJET

Le Protocole prévoit la conclusion d'ententes bilatérales avec chaque province et territoire qui spécifient les engagements et obligations entre les deux parties selon l'approche par plan d'action.

Des discussion avec la province se poursuivent pour arriver à la conclusion d'une entente et d'un plan d'action. Le plan d'action respectera les objectifs du programme et les modalités convenues dans le Protocole multilatéral. Les activités prévues pour la collectivité minoritaire d'expression française lui offriront la possibilité de se faire instruire dans sa langue maternelle et de participer à un enrichissement culturel. Les activités prévues pour l'enseignement de la langue seconde offriront la possibilité aux résidents de la Colombie-britannique d'étudier le français langue seconde et l'immersion et d'enrichir leur culture grâce à la connaissance de la culture de l'autre langue officielle.

La contribution fédérale prévue pour la Colombie-britannique s'élève à 8 107 000 \$ par année (qui inclut 950 000 \$ par année pour les Mesures spéciales), pour un total de 24 321 000 \$ sur trois ans. Ce montant reflète l'article 6.1 du Protocole et est réparti, pour chaque objectif linguistique, selon les catégories suivantes : appui et administration de l'enseignement, développement de programmes, formation aux enseignants, et aide aux étudiants. La province est en train de réviser les montants alloués dans les cadres des ententes en éducation. Le ministère du Patrimoine canadien s'assurera que la contribution de la province représente au moins 50% des coûts supplémentaires identifiés. Les contributions fédérale et provinciale seront clairement identifiées dans tout le plan d'action. Avant de conclure une entente, le ministère s'assurera que la contirbution provinciale représente au moins 50% des coûts reliés à ces mesures

JUSTIFICATION - JUSTIFICATION

Le Protocole d'entente relatif à l'enseignement de la langue de la minorité et de la langue seconde propose une nouvelle approche par plan d'action de 2000-2001 à 2002-2003 pour le financement du Programme des langues officielles dans l'enseignement et précise la contribution fédérale annuelle. Cette approche a été approuvée par le Cabinet et le Conseil du Trésor (SCT-827-572) en a été informé. On prévoit renouveler les modalités du Programme en conséquence au cours des prochains mois.

Le texte de l'entente et le plan d'action font l'objet de négociations avec la Colombie-Britannique depuis le début de l'an 2000. L'ébauche de l'Entente ainsi que du plan d'action font l'objet d'étroites discussions entre le ministère de l'Éducation de la Colombie-Britannique et le ministère du Patrimoine canadien. Patrimoine canadien et la Colombie-Britannique devront être en mesure de conclure l'Entente et le plan d'action au cours des prochains 60 jours. D'ici-là, le gouvernement de la Colombie-Britannique souhaite la mise en place de Mesures provisoires pour l'année 2000-2001 (demande officielle du gouvernement de la Colombie-Britannique au dossier ministériel).

GESTION SCOLAIRE ET IMMOBILISATION
EN COLOMBIE-BRITANNIQUE

(Pour signature)

RÉSUMÉ

- ° Les discussions se poursuivent avec le ministère de l'Éducation de la Colombie-Britannique afin d'en venir à un accord concernant deux dossiers : 1) le renouvellement de l'Entente spéciale de gestion (expirée le 31 mars 1999); 2) le plan d'immobilisation proposé par le Conseil scolaire francophone (CSF).
- ° À la suite d'une rencontre, qui s'est tenue le 11 mai dernier, entre des représentants du ministère de l'Éducation et de Patrimoine canadien, le gouvernement de la Colombie-Britannique aimerait connaître le niveau de financement et la répartition annuelle proposés par Patrimoine canadien pour la période allant de 1999-2000 à 2003-2004, et ce, pour les deux dossiers précités.

Contexte

- ° Le 11 mai dernier, des représentants du ministère de l'Éducation et de Patrimoine canadien se sont rencontrés pour en venir à une entente de collaboration sur les dossiers relatifs à l'Entente spéciale de gestion et au plan d'immobilisation.
- ° La première Entente spéciale de gestion scolaire de 10,5 M\$ sur 3 ans, a expiré en mars 1999. Comme nous n'avons pas encore signé une nouvelle entente, vous avez approuvé à la fin mars un montant de 4 M\$ en vertu des Mesures spéciales afin de permettre la poursuite, en 1999-2000, des initiatives entreprises selon la première Entente.

.../2

Mesures d'investissement
1999-2000 / 037426-3-3

Considérations

- o Pour l'Entente spéciale de gestion, nous avons offert à la province un montant de 15 M\$ sur cinq ans. De ce montant, 11,2 M\$ proviendront des Mesures spéciales et 3,8 M\$ du financement régulier du Programme des langues officielles dans l'enseignement (PLOE).
- o Dès 2000-2001, la province utilisera une portion de son financement régulier évalué à 8,1 M\$ par année pour des initiatives de gestion scolaire, ce qui assurera une base appréciable dès la fin des Mesures spéciales prévue en 2003-2004.
- o Nous poursuivons notre travail avec les représentants du ministère de l'Éducation quant au plan d'action proposé par la Colombie-Britannique. Lorsque nous aurons terminé nos discussions, nous serons en mesure de finaliser le texte d'Entente spéciale et de vous le proposer pour signature.
- o En ce qui a trait au plan d'immobilisation élaboré par le CSF en collaboration avec le ministère de l'Éducation, le gouvernement provincial prévoit déboursier 51,8 M\$ entre 2000 et 2004 pour la construction / rénovation de 10 écoles, incluant Vancouver. La province a déposé à Patrimoine canadien la demande du CSF pour le volet communautaire, évaluée à 33 M\$. Ce montant servirait à des installations pour la pré-maternelle, la garderie et des espaces communautaires. Nous avons prévu un montant de 15 M\$ en vertu des Fonds supplémentaires.
- o Le ministère de l'Éducation souhaite recevoir un engagement formel de votre part concernant le niveau de financement de l'Entente spéciale de gestion et de la contribution fédérale pour le volet communautaire du plan d'immobilisation. Dès que la province connaîtra la contribution fédérale, elle nous soumettra une nouvelle proposition pour les projets d'immobilisation. Nous finaliserons alors un texte d'Entente auxiliaire pour votre approbation.

Dear Ms. Priddy:

I am writing to you concerning the renewal of the Special Agreement on Francophone School Governance in British Columbia, and the *Conseil scolaire francophone's* capital plan.

Following discussions between our respective officials, I am pleased to confirm federal funding of \$15 million over five years (1999-2000 to 2003-2004), including \$4 million already approved for 1999-2000, to improve the quality of programs offered for Francophone school governance. Of this amount, \$11.2 million will come from the new Special Investment Measures in Education envelope and \$3.8 million from the regular Official Languages in Education envelope.

It is my understanding that discussions are progressing well on a multi-year action plan to 2004. As soon as this work has been completed, we will be in a position to sign a Special Agreement that will allow us to pursue in partnership the work done since 1997 in Francophone school governance in British Columbia.

With regard to your Capital Plan submitted on April 18, 2000, and further to discussions among our officials, I would like to confirm a federal contribution of \$15 million over four years for expenditures related to community needs. I am confident that we could rapidly sign an agreement following submission of a detailed plan confirming which projects the province is prepared to support and the federal portion that you will seek for Francophone community needs.

Dear Hilaire Lemoine:

I am writing to request Provisional funding for the Province of British Columbia for fiscal 2000/2001.

This funding is requested due to the absence of a signed Bilateral Agreement between the federal government and the Province of British Columbia, and the Agreement on Special Investment Measures in Education.

Further to discussions with your office, we wish to confirm that the Ministry of Education is continuing to work with the Conseil scolaire francophone de la Colombie-Britannique and your office to develop an appropriate Business Plan that clearly identifies the measures and accountabilities being sought by your department.

Please contact Fran Butler, Manager, French Programs at (250) 356-2515 if further information is required. I would appreciate a confirmation from your office once this request has been approved.

Sincerely yours,

Charles Ungerleider

Objet : Provisional Funding for BC for 2000/01

Lise,

I have left a voice mail for you, regarding the level of Provisional Funding that B.C. may be receiving, upon approval of our Deputy Minister's request for this funding.

In the past when we received Provisional Funding, in lieu of a signed Protocol, the dollar amount was close to, if not exactly what we had received the previous year. In light of the yearly amounts already signed off in the Protocol Agreement, can I assume that Provisional Funding will reflect the same dollar amount?

How will provisional funding work for the Special Investment Measures Agreement that, at this point, cannot be generated until the Business plan is approved?

The Province has already received 2M of the agreed upon 11.2M and we have the CSF expecting an additional 3M this school year. (with our Treasury Board we can forward the full years amount in advance of Federal recoveries) if we have signed agreements in place.

I would appreciate some clarification around these questions, so I may pass on to our Deputy

Lise I just picked up your voice mail so this e-mail may be redundant.

Dans le cadre de l'exercice en cours, j'aimerais signaler que des fonds devraient être prévus (100K à partir de 2001-2002?) pour la mise en place de certaines mesures pour le postsecondaire en Colombie-Britannique. The Honourable (Prénom/Nom)
Minister of Education
Government of (Province)
(adresse... ..)
Ville (Province)
XXX XXX

Dear Mr./Mrs./Ms (Nom):

I am writing further to the 2000-01 federal funding to (Province) in the context of the Official Languages in Education Program.

As you know, negotiations have been underway since last spring on the conclusion of the Canada - (Province) Agreement on Minority-Language Education and Second-Language Instruction, the Canada - (Province) Special Agreement on the quality of education, as well as (Province's) related action plans. I am informed that these discussions are progressing well and are reaching their conclusion. However, it now seems that it will not be possible to ratify these documents before the March 31, 2001 deadline in order to ensure payment to (Province) of the amounts anticipated for 2000-01.

The agreements currently being negotiated provide for payment in 2000-01 to (Province) of \$XXX XXX XXX for the Bilateral Agreement (\$XXX XXX in regular funds and \$XXX XXX in supplementary funds), as well as \$XXX XXX XXX for the Special Agreement, under the Special Investment Measures. These agreements will also provide the conditions for payment of the federal contribution for the current fiscal year.

.../2

- 2 -

Therefore, I hereby commit to provide funding in the total amount of \$XXX XXX XXX to (Province) for 2000-01, providing that we conclude the multi-year agreements and agree on action plans, in accordance with the Protocol for Agreements signed in February 2000 with the CMEC. I am confident that we will be able to conclude these agreements in the next 60 days.

Yours sincerely,

Sheila Copps

Comme vous le savez, il est prévu que la Ministre écrive à certaines provinces pour réserver les fonds de 2000-2001 ("mesures provisoires") dans les cas où nous ne pourrions pas conclure d'ententes avant le 31 mars.

Vous trouverez les ébauches de lettres anglaise et française rédigées par Élise et revues par Jean Carrier et Thérèse Laberge sous le répertoire suivant :

u:\mesures\let-loe-eng.wpd et let-loe-fr.wpd

Ces documents donnent le minimum d'information que nous voudrions voir dans les lettres (tous les montants pour 2000-2001, l'engagement de la ministre, etc.). Jugez s'il est nécessaire d'ajouter de l'information plus spécifique.

Enfin, je vous rappelle que nous aurons besoin d'une courte FRA (LOE régulier) et d'un courte FRA (mesures spéciales) pour accompagner chacune de ces lettres. Nous ne faisons approuver que le montant de 2000-2001.

merci.

Objet : Requested changes to Schedule "B" Independent Schools

Micheline,

I have just faxed a copy of the changes for Independent Schools we had originally asked for on the 1st. Draft. I have made indicated these changes on the 2nd. draft bilateral agreement so it may be easier to follow.

Back when with Michele was with your program, changes were made on how information from Independent Schools was going to be collected and reported. The contribution amount will be coming directly to the Province not the individual schools, we will send the total grant to FISA, who will distribute the individual school amounts. All statistical gathering by Stats. Can. will be done the same as it is for all public schools (from one branch in the Ministry) This has all been worked out and agreed upon with the Superintendent of Independent Schools, Fisa and my office.

The major change is with #1., but # 6. has a word change first line from To to FOR

I hope this is clearer now.

Regarding you other voice message on identify Supplementary costs and adding Post Secondary etc into the preamble, I will start working on this today.

I apologize for this short delay, but as we felt the effects from the Earthquake in Washington State, USA we have had to undertake a major review of our procedures on evacuation, we didn't handle this very effectively as a Ministry. I am Ministry Manager for Occupational Health and Safety.

I'll talk to you early next week if I don't get a chance to call today.

Fran

SECOND DRAFT - WHERE CHANGES ARE REQUESTED
SCHEDULE B

J.R

STATISTICAL CALCULATIONS OF CONTRIBUTIONS TO PRIVATE AND INDEPENDENT SCHOOLS

1. General procedures for contributions to private or independent schools

FOR OR TO THE FEDERATION OF INDEPENDENT SCHOOL ASSOCIATION (FISA) FOR DISTRIBUTION TO INDEPENDENT SCHOOLS

1.1 In accordance with Clause 5.9 of this Agreement, British Columbia agrees to provide a contribution to private or independent schools in British Columbia in each year of this Agreement on the basis of a full-time equivalence (FTE) amount. The amount of the contribution given to each school in British Columbia shall be determined by Statistics Canada in each year of the Agreement on the basis of the calculations shown in this Schedule B. To this end, British Columbia authorizes Statistics Canada to obtain the data required for these calculations directly from the private or independent schools in British Columbia for each year of this Agreement. British Columbia agrees to ask the independent schools that receive a contribution to provide information each year showing how Canada contributions are used to cover the additional costs incurred by the schools to provide French-language education and French second-language instruction.

MINISTRY OF EDUCATION DATA MANAGEMENT BRANCH

1.2 British Columbia may, at its discretion, increase the amount of Canada contribution to the schools from the funds provided for in Clause 5.4 of this Agreement.

FISA TO SUPPLY AN AUDITED REPORT

2. Minority language and immersion

- 2.1 For a student to be considered a full-time equivalence (FTE), he or she must be registered in an educational program in the minority language or in second-language immersion as defined by the province and receive not less than 75% of his or her education in the minority language or in the second language at the elementary level and not less than 60% at the secondary level.
2.2 For students receiving less of their education in the minority language or in second-language immersion than the percentage shown in Clause 2.1 of this Schedule, instruction time shall be calculated on the basis of the percentage they receive; in other words, 100% of a student regular instruction time will correspond to one FTE.
2.3 Students receiving less than 25% of their instruction in the minority language will not be included; however, students receiving less than 25% of their instruction in second-language immersion will be included in calculating the contribution for the second language.

3. Second language

3.1 Full-time equivalence (FTE) in the second language is determined by calculating the number of hours of instruction in the second language received by the students. There is an FTE whenever there is 100% of a student regular instruction time.

4. FTE - Elementary and secondary levels

4.1 Full-time equivalence (FTE) at the elementary and secondary levels for students registered in the programs referred to above is calculated as follows:

- (a) each student registered in a program in the minority language or in an immersion program who receives not less than 75% of his or her education in the said language at the elementary level and 60% at the secondary level FTE
(b) the calculation for other students is based on the percentage of the school week X the number of other students = number of FTE

Bonjour Micheline,

You'll find enclosed a copy of the introduction report for the Business Plans. Please advise if you need more information. I will also fax this to your attention as I have another document that you may feel is appropriate to add to these notes. The problem with this report is, the information does not have the 2000/01 figures that our written report has. This statistical summary comes from another branch of the Ministry, but does give a 10 year overview and is easy to read. We were unable to download from the system and send electronically. Let me know if you want this information in this format. As this information is updated we can send the new copy and current information.

**Province of British Columbia
Status of Official Languages in Education**

Minority Language Education:

In 1997 legislation was enacted to support section 23 of the Canadian Charter of Rights and Freedoms. Under the British Columbia *School Act* students in the Francophone Education system are entitled to receive the same educational programs as English-speaking students.

The Conseil Scolaire Francophone (CSF) has many challenges ahead, not only in developing appropriate educational programs for their students, but in the uniqueness of their district structure (jurisdiction for eligible student throughout the Province). The process of developing a strong and vibrant francophone education system will continue to be an evolving process for many years.

The Capital Plan Agreement reached with the Ministry of Education, the CSF and supported by Canadian Heritage, will go a long way to stabilizing the classroom and community structures so sought after by the francophone parents. In this environment francophone programs, culture and a sense of community will be able to flourish.

Relevant Legislation:

- School Act
- Graduation Requirements Order
- Educational Program Guide Order
- Required Areas of Study in an Educational Program Order

Current CSF Structure:

- The number of students enrolled in Francophone programs (2000-2001):

Second Language Instruction: (French Immersion)

A more ambitious French program for non-francophones, French Immersion is designed to produce functionally bilingual students by using French as the language of instruction. French Immersion programs parallel the regular English program in structure and content.

There are two entry points in French Immersion:

Program	Entry Points	Grades
Early	K (and 1)	K-12
Late	6	6-12

Curriculum and resources are provided by the Ministry of Education for Early French Immersion (K-12) and Late French Immersion (6-12) programs.

Relevant Legislation:

- School Act S5(3)
- Graduation Requirements Order
- Educational Program Guide Order
- Required Areas of Study in an Educational Program Order

K-3	11,260	8-10	6,165
4-7	9,839	11-12	3,156
Total of 30,420 students			

• Schools:

There is a total of 234 schools offering French Immersion in 44 school districts.

- 130 Elementary schools
- 23 Middle schools
- 71 Secondary schools

• Program:

The required percentage of time in French Language instruction is:

4-7	80%	20%
8-10	50-75%	25-50%
11-12	no less than 25%	no more than 75%

Types of Courses offered are at the discretion of each school district, however, *Français langue seconde* (Immersion) is mandatory for graduation requirements.

Core French

Core French is a subject designed to enable non-French speaking students to begin to understand and communicate in French, as well as to experience francophone culture. The new Language Policy, in place since September 1995 requires another language to be taught from grade 5 to grade 8. French is the language most frequently offered. Students will continue to have the option to continue French at the secondary level.

Thank you for the draft of the Special Investment Measures Agreement, we are trying to get more detailed information from the CSF on the projects you identified in our last tel/con.

We should be able to e-mail the Preface today for your review. I have made it brief and to the point based on current information that we collect as a Ministry.

We are having trouble opening the documents you attached. I was able to get the English version of the Special Investment document, but we cannot access the French version or either of the Draft bilateral Agreement. Nicole has asked that you resend these as a MS Word document.

Give Nicole a call if you need further clarification as I am technically challenged.

Objet : British Columbia Business Plan

Hi Micheline,

How are things going in your neck of the woods. Had enough snow yet? The west coast has snow/rain warnings today, but only the higher elevations will get something white, we at sea level get blowing slush.

Have you had a chance to look at the revised draft Business Plan that was e-mailed mid January.

I'm hoping to get the status summary to you within the next week.

Has any progress been made on a sample agreement for the Capital Plan?

Lets try and get in touch by early next week.

the Government of British Columbia
for minority-language education and
second-language instruction

2000-01 to 2002-03

DRAFT JANUARY 29, 2001

**AGREEMENT BETWEEN THE GOVERNMENT OF CANADA AND
THE GOVERNMENT OF BRITISH COLUMBIA
FOR MINORITY-LANGUAGE EDUCATION AND
SECOND-LANGUAGE INSTRUCTION**

THIS AGREEMENT has been concluded in English and in French on this day of 2001

BETWEEN: **HER MAJESTY THE QUEEN IN RIGHT OF CANADA**, hereinafter referred to as "Canada", represented by the Minister of Canadian Heritage

AND: **HER MAJESTY THE QUEEN IN RIGHT OF BRITISH COLUMBIA**, hereinafter referred to as "British Columbia", represented by the Minister of Education.

WHEREAS English and French are the official languages of Canada, as recognized by the *Canadian Constitution*, as well as by the *Official Languages Act*, and whereas Canada recognizes its responsibilities and undertakings with respect to those languages;

WHEREAS section 23 of the *Canadian Charter of Rights and Freedoms* recognizes the right of Canadian citizens belonging to the English- or French-language minority in a province or territory to have their children educated in that language, at the elementary and secondary levels, where numbers of students warrant, and that this right includes, where the number of those children so warrants, the right to have them receive that instruction in minority-language educational facilities provided out of public funds;

WHEREAS Canada is committed to supporting the development of the official-language minority communities and to promoting the recognition and usage of English and French in Canadian society, and whereas, in accordance with the *Official Languages Act*, the Minister of Canadian Heritage can undertake measures to encourage and assist provincial/territorial governments to offer members of the official-language minority communities education in their own language and to provide everyone with the opportunity to learn French and English as a second language;

WHEREAS a Protocol for Agreement between Canada and the provincial and territorial governments for minority-language education and second-language instruction was concluded on February 23, 2000 between the Minister of Canadian Heritage and the Chair of the Council of Ministers of Education, Canada (CMEC), on behalf of all the provincial and territorial ministers responsible for education, hereinafter referred to as the "Protocol";

WHEREAS under the aforementioned Protocol, each provincial and territorial government will conclude a bilateral agreement with Canada for the period from April 2000 to March 2003;

WHEREAS British Columbia, as part of its jurisdiction over education, provides education in French in British Columbia in accordance with section 23 of the *Canadian Charter of Rights and Freedoms* and with the spirit of the said provision and instruction in French as a second language;

WHEREAS education is a provincial jurisdiction and it is the responsibility of British Columbia to determine the objectives, define the contents, set priorities of its education programs in French and French second-language instruction, as well as to evaluate them;

WHEREAS British Columbia has agreed, for the purpose of the Protocol concluded on February 23, 2000, to describe the objectives, the main measures it intends to undertake and their expected results in multi-year action plans;

WHEREAS Canada and British Columbia recognize the existence, as acknowledged in the Protocol, of additional costs resulting from the fact that minority-language education and second-language instruction are provided, and Canada is prepared to assist British Columbia to absorb these costs;

WHEREAS the parties recognize that the federal contributions paid to British Columbia for the period extending from April 1998 to March 2000 were provided pursuant to annual provisional arrangements replicating the conditions of the previous bilateral agreement;

THEREFORE, given the reciprocal agreements contained herein, this Agreement bears witness to the fact that the parties agree on the terms and conditions hereinafter.

FEDERAL SUPPORT

3. Action plan

Subject to the provisions of the Protocol and this Agreement, Canada shall make the following contributions to the additional costs that British Columbia must assume in order to implement the measures provided for in the multi-year action plan that it has developed for the purposes of this Agreement. "Additional costs" means generally the costs or expenses that British Columbia incurs in addition to those it would incur in order to meet its obligation to educate its residents if it did not offer educational programs in French or instruction in French as a second language. The provincial action plan is contained in Schedule C and forms an integral part of this Agreement.

- 3.1. For the duration of the bilateral Agreement concluded with British Columbia, the action plan will set out, for each of the objectives mentioned in Clause 1:
 - 3.1.1 a description of measures to be undertaken for each category of support indicated in Clause 4;
 - 3.1.2 a description of desired outcomes;
 - 3.1.3 a description of performance indicators by which the provincial government will measure achievement of outcomes;
 - 3.1.4 an annual breakdown of estimated expenditures and of Canada's and provincial contributions for each measure.

4. Support Categories

4.1 For all levels of education, Canada's financial assistance shall be provided for measures related to the education structure and support, program development, teacher training, student support or any other type of support that will make it possible to better reflect the particular situation in British Columbia, that will be in accordance with the strategic priorities set out in Clause 2 and have been agreed upon by Canada and British Columbia.

4.2 Inter-provincial/territorial Projects or Pan-Canadian Projects

In the interests of increasing inter-provincial/territorial co-operation and to encourage optimum use of resources, Canada and British Columbia recognize the importance of undertaking projects or measures of an inter-provincial/territorial or pan-Canadian scope. For this purpose, it is mutually agreed that such projects or measures may be co-ordinated by the CMEC Secretariat, British Columbia or any other province or territory. The financial contribution paid by Canada to British Columbia for these projects shall be administered in accordance with the terms of this Agreement.

5. Canada's Contribution

5.1 Subject to Parliamentary approval of funds, to the maintenance of current and forecasted budgetary levels for the Official Languages in Education Program and the undertakings in the Protocol and this Agreement, Canada shall provide financial assistance for the measures described in the provincial action plan or other measures on which the parties have agreed, as set out in Clause 4 during the period of this Agreement.

5.2 Canada and British Columbia recognize that Canada's contribution provided in a particular fiscal year shall be paid to support measures that are implemented during the provincial school year.

5.3 Canada and British Columbia recognize that under the provisional arrangements concluded for the years 1998-1999 and 1999-2000, the following federal contributions were made for infrastructure support and the minimum guarantee under the terms of the previous Protocol and that the conclusion of this Agreement will not bring about any retroactive change in these contributions:

1998-1999	\$6,771,605
1999-2000	\$8,106,370

5.4 Funding for the provincial action plan

Subject to Clause 5.1, Canada shall make the following annual contributions to British Columbia for the implementation of measures described in its action plan in the fiscal years from 2000-2001 to 2002-2003:

2000-2001	\$8,107,000
2001-2002	\$8,107,000

The projects and measures to be funded and the level of funding provided will be agreed upon by Canada and British Columbia. The parties may agree on a multi-year funding for such projects and measures. These projects or measures will be included in a document to be attached annually to this Agreement and will form an integral part thereof or, where appropriate, constitute an auxiliary agreement.

5.6 Subject to prior agreement between Canada and British Columbia, the province may each year transfer part of the contributions made by Canada in that year under Clauses 5.4 or 5.5 to CMEC or to any other provincial or territorial government for the implementation of inter-provincial/territorial or pan-Canadian projects.

5.7 Subject to prior agreement between Canada and British Columbia, the province may each year transfer to CMEC part of the financial assistance provided by Canada in that year for the Summer Language Bursary Program and for the Official-Language Monitor Program for the implementation of measures described in its action plan, as provided for in Clause 5.4.

5.8 Canada's contribution is conditional on British Columbia's providing for each category of support a financial contribution equivalent to or greater than that of Canada for the implementation of the action plan and any other measure carried out under this Agreement, except for teacher and student bursaries and fellowships which can be totally supported by the federal contribution.

5.9 Contribution for private or independent schools

Canada and British Columbia may agree, in each year covered by this Agreement, to transfer a portion of the federal contribution from one linguistic objective to another in the action plan. British Columbia will submit a request to Canadian Heritage to transfer funds from one linguistic objective to another before February 15 in the year in question.
- 6.2 Within Supplementary Contribution, British Columbia may transfer funds from one project to another with the authorization in writing of Canada, provided that these transfers do not call into question the achievement of the results set out. Canada and British Columbia may also agree, in each year covered by this Agreement, to transfer regular funds to projects funded by the Supplementary Contribution. British Columbia will submit a request to Canadian Heritage before February 15 in the year in question for any transfer.

7. Consultation

- 7.1 British Columbia must demonstrate to Canada that interested associations and groups have been consulted, when deemed necessary, on the development and annual updating of its action plan.
- 7.2 Canada intends to consult with interested associations and groups on the programs provided for in this Agreement and for which it provides a financial contribution. Canada and British Columbia may agree to hold these consultations jointly.
- 7.3 British Columbia agrees to participate in meetings between representatives of the federal government and of the provincial and territorial governments to be held at least once a year to discuss the programs provided for in this Protocol and to review the various initiatives undertaken with respect to the objectives and strategic priorities outlined in this Protocol.

If there is a need, in the opinion of Canada or British Columbia, to clarify the information provided, Canada and British Columbia will hold discussions to do so and to review the pertinence of such information to the needs of Canada.
- 1.5 In accordance with the Clause 7.6 of the Protocol, British Columbia agrees to give recognition of Canada's participation when conducting publicity for all programs and measures for which financial assistance was provided by Canada. For the purpose of this Agreement, publicity includes, without being limited to, news releases, reports of provincial government departments or agencies, correspondence with educational institutions and, in the case of award programs for teachers and students, in correspondence with individuals, publicity announcements concerning programs and application forms. British Columbia agrees to provide Canada with samples of these different kinds of publicity annually.
- 1.6 In accordance with Clause 7.7 of the Protocol, British Columbia also agrees to take all reasonable measures to ensure that any other recipient of a financial contribution from Canada (for example, schools, school boards and postsecondary institutions) agree to mention Canada's contributions wherever appropriate in any publicity relating to the programs for which Canada has made a financial contribution.
- 1.7 In accordance with Clause 7.9 of the Protocol, British Columbia agrees to provide Statistics Canada, for each year of this Agreement, with statistical data on enrolment and instruction time in French educational programs, French immersion programs, second-language instruction programs in French, programs to train teachers to teach in French as the minority language and in French as a second language in British Columbia. The data to be provided and the procedures to be used for the collection thereof will be in accordance with the current arrangements in effect between Statistics Canada and British Columbia.

SCHEDULE A

In each fiscal year, Canada's contributions to the action plan of British Columbia as per Clause 5.4 of the Agreement shall be paid as follows:

- (a) an initial payment representing approximately one-quarter (25%) of Canada's contribution for the first fiscal year shall be paid on signing of this Agreement and Canada's acceptance of the three-year action plan;
- (b) in each subsequent year, the first payment, representing approximately one-quarter (25%) of Canada's contribution for that year, will be paid on or about June 30 of each year on condition that the requirements for the previous payments have been met and, where necessary, subject to the receipt and acceptance of an updated action plan;

Canada and British Columbia may conclude auxiliary agreements concerning the implementation of capital projects. These auxiliary agreements will establish the procedures for the payment of Canada's contribution. These procedures will indicate the documents that are required to ensure that the payments are made. - 3.5 For the purposes of this Agreement, the financial statements provided by British Columbia to Canada shall be certified by a senior program officer and a senior financial officer, who shall be duly authorized by British Columbia and agreed to by Canada.

4. Overpayment

- 4.1 If the payments made to British Columbia under this Agreement exceed the amounts to which British Columbia is entitled under this Agreement, the overpayment shall be returned to Canada, failing which Canada may reduce its future contributions to British Columbia by an equivalent amount.

5. Financial audit

- 5.1 Canada reserves the right to audit or to have an audit conducted of the accounts and records of British Columbia in connection with the programs, projects and measures supported with Canada's contribution. Should such an audit take place, it would be undertaken by an auditor to be agreed upon by Canada and British Columbia.
- 5.2 Canada agrees to inform British Columbia of the results of any financial audit and to pay British Columbia, as soon as possible after the completion of the audit, any monies that the audit may show to be then due and owing to British Columbia. British Columbia agrees to pay to Canada, on being informed of the results of such financial audit, any monies that the audit may show to be due and owing to Canada.

6. Evaluation

- 6.1 The evaluation of provincial educational programs and measures, including its action plan, is the responsibility of British Columbia. British Columbia agrees to share the results of these evaluations with Canada.

For this purpose, British Columbia may catalogue this material and make it available to the public. British Columbia also agrees that all the costs of providing such documents shall be calculated in light of the financial contribution made by Canada. Wherever possible, such costs shall be calculated solely on the basis of the costs associated with the provision of the said documents but not with the preparation of these documents.

SCHEDULE C

PROVINCIAL ACTION PLAN

SCHEDULE B

STATISTICAL CALCULATIONS OF CONTRIBUTIONS TO PRIVATE AND INDEPENDENT SCHOOLS

1. General procedures for contributions to private or independent schools

- 1.1 In accordance with Clause 5.9 of this Agreement, British Columbia agrees to provide a contribution to private or independent schools in British Columbia in each year of this Agreement on the basis of a "full-time equivalence (FTE)" amount. The amount of the contribution given to each school in British Columbia shall be determined by Statistics Canada in each year of the Agreement on the basis of the calculations shown in this Schedule B. To this end, British Columbia authorizes Statistics Canada to obtain the data required for these calculations directly from the private or independent schools in British Columbia for each year of this Agreement. British Columbia agrees to ask the independent schools that receive a contribution to provide information each year showing how Canada's contributions are used to cover the additional costs incurred by the schools to provide French-language education and French second-language instruction.
- 1.2 British Columbia may, at its discretion, increase the amount of Canada's contribution to the schools from the funds provided for in Clause 5.4 of this Agreement.

2. Minority language and immersion

- 2.1 For a student to be considered a "full-time equivalence (FTE)", he or she must be registered in an educational program in the minority language or in second-language immersion as defined by the province and receive not less than 75% of his or her education in the minority language or in the second language at the elementary level and not less than 60% at the secondary level.
- 2.2 For students receiving less of their education in the minority language or in second-language immersion than the percentage shown in Clause 2.1 of this Schedule, instruction time shall be calculated on the basis of the percentage they receive; in other words, 100% of a student's regular instruction time will correspond to one "FTE".
- 2.3 Students receiving less than 25% of their instruction in the minority language will not be included; however, students receiving less than 25% of their instruction in second-language immersion will be included in calculating the contribution for the second language.

3. Second language

- 3.1 "Full-time equivalence (FTE)" in the second language is determined by calculating the number of hours of instruction in the second language received by the students. There is an "FTE" whenever there is 100% of a student's regular instruction time.

4. FTE - Elementary and secondary levels

- 4.1 "Full-time equivalence (FTE)" at the elementary and secondary levels for students registered in the programs referred to above is calculated as follows:

SCHEDULE B

- (a) each student registered in a program in the minority language or in an immersion program who receives not less than 75% of his or her education in the said language at the elementary level and 60% at the secondary level = 1 "FTE"
- (b) the calculation for other students is based on the percentage of the school week¹ X the number of other students = number of "FTE"s

4.2 In all the above clauses, a student registered in junior and senior kindergarten classes recognized or defined by the province will be considered to be one-half of a "full-time equivalence (FTE)" if his or her regular instruction time is equivalent to one-half of the regular instruction time of the other programs at the elementary level in accordance with the calculations described above in Clauses 2, 3 and 4 of this Schedule.

- 5. The amount to be paid to each school in a given year will be calculated on the basis of the number of "full-time equivalences (FTE)" in the previous school year.
- 6. Statistics Canada will process the data required to calculate contributions to the independent or private schools in British Columbia. The methods to be used in collecting these data will be those agreed to under the earlier Protocol between Statistics Canada and each provincial government.
- 7. Subject to Clause 5.4 of this Agreement, the contributions per full-time equivalence ("FTE") at the elementary and secondary levels for students registered in each of the educational programs described in this Schedule are determined as follows for the period of this Agreement:

CONTRIBUTION FOR EACH "FTE" PER PROGRAM

Minority language	\$/FTE	Immersion	\$/FTE	Second language (core program)	\$/FTE
Elementary	\$141	Elementary	\$111	Elementary	\$64
Secondary	\$267	Secondary	\$172	Secondary	\$94

- 8. The amount to be paid to each private or independent school for each year of this Agreement shall be determined as follows:
 - 8.1 the contribution per "FTE" as indicated above for each of the educational programs and levels multiplied by the number of "FTE" students for each of the educational programs and levels corresponding to the provisions of this Schedule.

¹ Total minutes of instruction for each level in one of the three programs referred to above in the cycle* X 100
 total minutes in the cycle

* The cycle is a period representing a specific number of days of instruction recurring in the same order within the school timetable. The cycle may last five days or more.

5.4 Funding for the provincial action plan

2000-2001	\$8,107,000
2001-2002	\$8,107,000
2002-2003	\$8,107,000

5.5 Canada and British Columbia agree that an amount of nine hundred and fifty thousand dollars (\$950,000) will be provided for Francophone minority governance and French post-secondary education over a period of four years (2000-01 to 2003-04). This amount will be deducted from the contributions mentioned in Clause 5.4, subject to the maintenance and renewal of the Official Languages in Education Program and of its current and forecasted budgetary levels until March 31, 2004.

towards expenditures incurred by B.C. for

5.6 Supplementary contribution

In addition to the funding made available further to Clause 5.4, Canada may make a supplementary contribution to British Columbia for specific measures described in the action plan or any other project or activity agreed to by Canada and British Columbia. The projects and measures to be funded and the level of funding provided will be agreed upon by Canada and British Columbia. The parties may agree on a multi-year funding for such projects and measures. These projects or measures will be included in a document to be attached annually to this Agreement and will form an integral part thereof or, where appropriate, constitute an auxiliary agreement.

5.7 Subject to prior agreement between Canada and British Columbia, the province may each year transfer part of the contributions made by Canada in that year under Clauses 5.4 or 5.5 to CMEC or to any other provincial or territorial government for the implementation of inter-provincial/territorial or pan-Canadian projects.

5.8 Subject to prior agreement between Canada and British Columbia, the province may each year transfer to CMEC part of the financial assistance provided by Canada in that year for the Summer Language Bursary Program and for the Official-Language Monitor Program for the implementation of measures described in its action plan, as provided for in Clause 5.4.

5.9 Canada's contribution is conditional on British Columbia's providing for each category of support a financial contribution equivalent to or greater than that of Canada for the implementation of the action plan and any other measure carried out under this Agreement, except for teacher and student bursaries and fellowships which can be totally supported by the federal contribution.

ATTENDU que le français et l'anglais sont les langues officielles du Canada, comme le reconnaissent la *Constitution du Canada* ainsi que la *Loi sur les langues officielles*, et que le Canada reconnaît ses responsabilités et engagements envers celles-ci;

ATTENDU que l'article 23 de la *Charte canadienne des droits et libertés* reconnaît le droit des citoyennes et citoyens canadiens appartenant à la minorité de langue française ou de langue anglaise dans une province ou un territoire de faire instruire leurs enfants aux niveaux primaire et secondaire dans cette langue, là où le nombre de ces enfants le justifie, et que ce droit comprend, là où le nombre de ces enfants le justifie, le droit de les faire instruire dans des établissements de la minorité linguistique, financés à même les fonds publics;

ATTENDU que le Canada s'est engagé à favoriser l'épanouissement des communautés minoritaires de langue officielle et à promouvoir la pleine reconnaissance et l'usage du français et de l'anglais dans la société canadienne et que, à cette fin, la ministre du Patrimoine canadien, conformément à la *Loi sur les langues officielles*, peut prendre les mesures indiquées pour, notamment, encourager et aider les gouvernements provinciaux et territoriaux à offrir aux minorités de langue officielle l'instruction dans leur propre langue et à donner à tous la possibilité d'apprendre le français et l'anglais comme langue seconde;

ATTENDU qu'un Protocole d'entente entre le Canada et les gouvernements provinciaux et territoriaux relatif à l'enseignement dans la langue de la minorité et à l'enseignement de la langue seconde a été conclu le 23 février 2000 entre la ministre du Patrimoine canadien et le président du Conseil des ministres de l'Éducation ~~Canada~~ (CMEC), au nom de tous les ministres provinciaux et territoriaux responsables de l'éducation, ci-après appelé «le Protocole»;

ATTENDU que l'éducation est de compétence provinciale et qu'il revient à la Colombie-Britannique de déterminer les objectifs, de définir les contenus, de fixer les priorités et de faire l'évaluation de ses programmes d'enseignement en français et de ses programmes d'enseignement du français comme langue seconde;

ATTENDU que la Colombie-Britannique s'est engagée, aux fins du Protocole conclu le 23 février 2000, à décrire les objectifs, les principales mesures qu'elle compte mettre en oeuvre et les résultats prévus dans des plans d'action pluriannuels;

ATTENDU que le Canada et la Colombie-Britannique reconnaissent l'existence, telle qu'elle est reconnue dans le Protocole, de coûts supplémentaires entraînés par le fait de dispenser un enseignement dans la langue de la minorité et un enseignement de la langue seconde, et que le Canada est disposé à aider la Colombie-Britannique à absorber ces coûts;

ATTENDU que les parties reconnaissent que les contributions fédérales versées à la Colombie-Britannique pour la période allant d'avril 1998 à mars 2000 ont été faites aux termes de mesures provisoires annuelles reprenant les modalités de l'entente bilatérale précédente;

OBJECTIFS ET PRIORITÉS

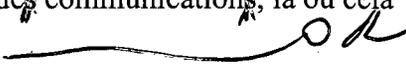

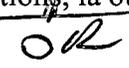

1. Objectifs

Les objectifs pour lesquels le Canada offre à la Colombie-Britannique une contribution financière sont énumérés ci-après.

- 1.1 Offrir aux membres de la collectivité minoritaire d'expression française la possibilité de se faire instruire dans leur langue maternelle et de participer à un enrichissement culturel en se familiarisant avec leur propre culture.
- 1.2 Offrir aux résidentes et aux résidents de la Colombie-Britannique la possibilité d'étudier le français comme langue seconde de même que la possibilité d'un enrichissement culturel grâce à la connaissance de la culture de l'autre collectivité de langue officielle.

2. Priorités stratégiques

Conformément aux objectifs énumérés à l'article 1, le Canada et la Colombie-Britannique s'entendent pour reconnaître que les points ci-après constituent des domaines d'intervention à privilégier au cours de la période visée par la présente entente.

- 2.1 Consolider et élaborer des services d'enseignement dans la langue de la minorité.
- 2.2 Appuyer l'élaboration de programmes et de services d'enseignement novateurs dans la langue de la minorité ainsi que la mise en place de mesures qui permettent d'élargir l'accès aux niveaux collégial et universitaire pour les minorités, notamment au moyen des nouvelles technologies des communications, là où cela s'applique.

APPUI FÉDÉRAL

3. Plan d'action

Sous réserve des dispositions du Protocole et de la présente entente, le Canada est disposé à contribuer aux coûts supplémentaires que la Colombie-Britannique doit assumer pour la mise en oeuvre des mesures prévues dans le plan d'action pluriannuel qu'elle a élaboré aux fins de la présente entente. Par «coûts supplémentaires», on entend généralement les coûts ou les dépenses que la Colombie-Britannique engage en sus de ce qu'elle engagerait pour assumer son obligation d'instruire ses résidentes et résidents si elle n'offrait pas de programmes d'enseignement en français ni de programmes d'enseignement du français comme langue seconde. Le plan d'action provincial figure à l'Annexe C et fait partie intégrante de la présente entente.

- 3.1. Le plan d'action présente, pour chacun des objectifs énoncés à l'article 1 et pour la durée de l'entente bilatérale conclue avec la Colombie-Britannique, les éléments suivants :
 - 3.1.1 une description des mesures à entreprendre pour chaque catégorie d'appui énoncée à l'article 4;
 - 3.1.2 une description des résultats attendus;
 - 3.1.3 une description des indicateurs de rendement qui seront utilisés par le gouvernement provincial pour mesurer l'atteinte des résultats;
 - 3.1.4 une ventilation des dépenses prévues et des contributions du Canada et de la Colombie-Britannique par mesure pour chaque exercice financier.

4. Catégories d'appui

- 4.1 Pour tous les niveaux d'enseignement, l'aide financière du Canada sera versée pour le financement de mesures liées à l'appui et à l'administration de l'enseignement, au développement de programmes, à la formation des enseignants, à l'appui aux étudiants ou à toute autre catégorie d'appui qui permettra de mieux refléter la situation particulière de la Colombie-Britannique, qui sera conforme aux priorités stratégiques énoncées à l'article 2 et dont le Canada et la Colombie-Britannique auront convenu.
- 4.2 Projets interprovinciaux/territoriaux ou d'envergure pancanadienne

En vue d'accroître la collaboration interprovinciale/territoriale et d'encourager une utilisation optimale des ressources, le Canada et la Colombie-Britannique reconnaissent l'importance de pouvoir poursuivre des mesures ou projets interprovinciaux/interterritoriaux ou d'envergure pancanadienne. À cette fin, les parties s'entendent pour que les projets de cette nature puissent être coordonnés par le secrétariat du CMEC, la Colombie-Britannique ou toute autre province ou par un territoire. La contribution financière versée par le Canada à la Colombie-Britannique pour ces projets sera gérée conformément aux modalités de la présente entente.

5.2 Le Canada et la Colombie-Britannique reconnaissent que la contribution du Canada offerte au cours d'un exercice financier donné sera versée à l'appui de mesures qui seront réalisées au cours de l'année scolaire provinciale.

5.3 Le Canada et la Colombie-Britannique reconnaissent qu'en vertu des mesures provisoires conclues pour les années financières 1998-1999 et 1999-2000, les contributions fédérales ci-après ont été versées au titre de l'infrastructure et du minimum garanti selon les modalités prévues au Protocole précédent et que la conclusion de la présente entente n'entraînera aucune modification rétroactive de ces contributions :

1998-1999	6 771 605 \$
1999-2000	8 106 370 \$

5.4 Financement du plan d'action provincial

Sous réserve du paragraphe 5.1, le Canada fournira à la Colombie-Britannique les contributions financières annuelles ci-après pour la mise en oeuvre des mesures décrites dans le plan d'action s'échelonnant sur les exercices financiers allant de 2000-2001 à 2002-2003 :

2000-2001	8 107 000 \$
2001-2002	8 107 000 \$
2002-2003	8 107 000 \$

5.5 Contribution supplémentaire

En plus du financement prévu au paragraphe 5.4, le Canada pourra verser à la Colombie-Britannique une contribution supplémentaire pour certaines mesures décrites dans le plan d'action ou pour tout autre projet ou toute autre mesure qui aura fait l'objet d'un accord préalable entre le Canada et la Colombie-Britannique. Le Canada et la Colombie-Britannique s'entendront sur le choix des projets ou mesures devant bénéficier d'une contribution supplémentaire, le montant de cette contribution et, s'il y a lieu, sur un financement pluriannuel pour ces projets ou mesures. Ces projets ou mesures devront être consignés dans un document qui sera annexé annuellement à la présente entente et qui en fera partie intégrante ou, s'il y a lieu, faire l'objet d'une entente auxiliaire.

5.6 Sous réserve d'un accord préalable entre le Canada et la Colombie-Britannique, la province peut, chaque année, transférer une partie des contributions offertes par le Canada cette année-là en vertu des paragraphes 5.4 ou 5.5 au CMEC ou à un autre gouvernement provincial ou territorial pour la réalisation de projets interprovinciaux/territoriaux ou d'envergure pancanadienne.

5.7 Sous réserve d'un accord préalable entre le Canada et la Colombie-Britannique, la province peut, chaque année, transférer au CMEC pour le Programme de bourses d'été de langues ou le Programme de moniteurs de langues officielles une partie de l'aide financière que le Canada lui offre cette année-là pour la mise en oeuvre de mesures décrites dans son plan d'action, tel qu'il est prévu au paragraphe 5.4.

5.8 La contribution du Canada est conditionnelle à ce que la Colombie-Britannique fournisse, pour chacune des catégories d'appui, une contribution financière équivalente ou supérieure à celle du Canada pour la réalisation du plan d'action et de toute autre mesure réalisée dans le cadre de la présente entente, à l'exception des bourses offertes aux enseignantes et enseignants ainsi qu'aux étudiantes et étudiants, lesquelles pourront être financées entièrement à même la contribution fédérale.

5.9 Contribution aux écoles privées ou indépendantes

Le Canada fournira à la Colombie-Britannique l'information nécessaire pour lui permettre de verser, à même la contribution financière offerte au paragraphe 5.4, une aide financière pour les écoles privées ou indépendantes. Cette aide financière sera versée selon les modalités qui figurent à l'Annexe B.

6. Transferts

6.1 La Colombie-Britannique peut transférer des fonds d'une catégorie d'appui à une autre dans le cadre d'un même objectif du plan d'action dans la mesure où ces transferts ne remettent pas en question l'atteinte des résultats prévus dans le plan d'action. Le Canada et la Colombie-Britannique pourront s'entendre, chaque année visée par la présente entente, pour transférer une portion de la contribution fédérale d'un objectif linguistique à l'autre du plan d'action. La Colombie-Britannique devra présenter une demande au Patrimoine canadien pour transférer des fonds d'un objectif linguistique à l'autre avant le 15 février de l'année visée.

6.2 La Colombie-Britannique peut transférer des fonds de la contribution supplémentaire d'un projet à un autre moyennant l'autorisation écrite du Canada, dans la mesure où les transferts ne remettent pas en question l'atteinte des résultats prévus. Le Canada et la Colombie-Britannique pourront également s'entendre, chaque année visée par la présente entente, pour transférer des fonds réguliers aux projets de la contribution supplémentaire. La Colombie-Britannique devra présenter une demande pour tout transfert au Patrimoine canadien avant le 15 février de l'année visée.

7. Consultations

7.1 La Colombie-Britannique donnera l'assurance au Canada que les associations et les groupes intéressés ont été consultés, lorsque cela a été jugé nécessaire, quant à l'élaboration et à la mise à jour annuelle de son plan d'action.

7.2 Le Canada se propose de consulter les associations et les groupes intéressés quant aux programmes mis en place dans le cadre de la présente entente et pour lesquels il verse une contribution financière. Le Canada et la Colombie-Britannique pourront s'entendre pour tenir des consultations conjointement.

7.3 La Colombie-Britannique accepte de participer aux réunions des représentants du gouvernement fédéral et des gouvernements provinciaux et territoriaux qui se tiendront au moins une fois par année pour discuter des programmes prévus dans le cadre du Protocole et pour revoir les mesures entreprises par rapport aux différents objectifs et priorités stratégiques énoncées dans ce Protocole.

14. Indemnisation

- 14.1 La Colombie-Britannique devra indemniser le Canada et la ministre du Patrimoine canadien ainsi que leurs employés ou mandataires et les dégager de toute responsabilité pour les réclamations, pertes, dommages, frais et dépenses découlant d'une blessure ou d'un décès ou encore pour les pertes ou dommages à la propriété attribuables ou présumés attribuables à la Colombie-Britannique ou à ses employés ou mandataires dans l'exercice des activités décrites dans la présente entente.

- 1.1 Le Canada et la Colombie-Britannique conviennent qu'ils doivent être en mesure de démontrer à leur assemblée législative respective et au grand public que la contribution financière versée par le Canada contribue au maintien et au développement de programmes d'enseignement en français et de programmes d'enseignement du français comme langue seconde, ce pourquoi les fonds ainsi versés avaient été affectés.
- 1.2 Conformément à l'article 7.1 du Protocole, le Canada et la Colombie-Britannique conviennent que la présente entente, accompagnée du plan d'action provincial, sera, dès sa signature, mise à la disposition de tous les gouvernements provinciaux et territoriaux et du grand public.

Si, de l'avis du Canada ou de la Colombie-Britannique, il y a lieu de clarifier l'information présentée, le Canada et la Colombie-Britannique tiendront des discussions dans ce but et aussi dans le but de déterminer la pertinence des éclaircissements demandés par rapport aux besoins du Canada.
- 1.5 Conformément à l'article 7.6 du Protocole, la Colombie-Britannique accepte de mentionner les contributions du Canada dans toute la publicité qu'elle fera sur les programmes et mesures pour lesquels le Canada aura fourni une contribution financière. Aux fins de la présente entente, la publicité comprend notamment, sans toutefois s'y limiter : les communiqués; les rapports de ministères ou d'organismes provinciaux; la correspondance adressée à des établissements d'enseignement; et, en ce qui concerne les bourses aux enseignantes et enseignants ainsi qu'aux étudiantes et étudiants, la correspondance adressée à des particuliers, les annonces publicitaires sur les programmes et les formulaires de demande. - 1.7 Conformément à l'article 7.9 du Protocole, la Colombie-Britannique accepte de fournir à Statistique Canada, pour chaque année de la présente entente, des données statistiques sur le nombre d'inscriptions et sur les heures d'enseignement relativement aux programmes d'enseignement en français, aux programmes d'immersion française, aux programmes d'enseignement du français comme langue seconde, aux programmes de formation des maîtres pour l'enseignement en français, langue de la minorité et du français comme langue seconde, dans la Colombie-Britannique. Le Canada et la Colombie-Britannique pourront conclure des ententes auxiliaires relatives à la réalisation de projets d'immobilisation. Ces ententes auxiliaires établiront les modalités et les conditions de paiements de la contribution du Canada. Ces conditions préciseront notamment les pièces justificatives requises pour assurer le versement des paiements. Ces ententes auxiliaires devront également énoncer les dispositions auxquelles les parties doivent se conformer pour répondre aux exigences des lois et règlements provinciaux et fédéraux en matière d'évaluation environnementale.

- 3.5 Aux fins de la présente entente, les états financiers fournis par la Colombie-Britannique au Canada seront certifiés par un agent de programme principal et par un agent principal des finances, lesquels auront été dûment autorisés par la Colombie-Britannique et auront été agréés par le Canada.

4. Excédent

- 4.1 Si les paiements versés à la Colombie-Britannique en vertu de la présente entente dépassaient les montants auxquels la Colombie-Britannique a droit conformément à la présente entente, les excédents devront être remis au Canada. À défaut de quoi, le Canada pourra réduire d'un montant équivalent ses contributions ultérieures à la Colombie-Britannique.

5. Vérification financière

- 5.1 Le Canada se réserve le droit de vérifier ou de faire vérifier les comptes et registres de la Colombie-Britannique relatifs aux programmes, projets et mesures réalisés grâce à la contribution du Canada. Si une telle vérification devait avoir lieu, elle serait effectuée par un vérificateur agréé par le Canada et la Colombie-Britannique.
- 5.2 Le Canada accepte d'informer la Colombie-Britannique des résultats de toute vérification financière et de verser à la Colombie-Britannique, le plus tôt possible après la vérification financière, toute somme d'argent qui pourrait, selon les résultats de la vérification, s'avérer due par lui à la Colombie-Britannique. À cette fin, la Colombie-Britannique pourra cataloguer ce matériel et le rendre disponible au public. La Colombie-Britannique accepte également que tous les frais reliés à la fourniture de telles pièces soient calculés en tenant compte de la contribution financière accordée par le Canada. Là où c'est possible, de tels frais seront calculés uniquement sur la base des coûts associés à la fourniture desdites pièces et non à l'élaboration de ces pièces.

**CALCUL STATISTIQUE
DES
CONTRIBUTIONS AUX ÉCOLES PRIVÉES OU INDÉPENDANTES**

1. Modalités générales régissant les contributions aux écoles privées ou indépendantes

- 1.1 Conformément au paragraphe 5.9 de la présente entente, la Colombie-Britannique convient de fournir une contribution aux écoles privées ou indépendantes de la Colombie-Britannique pendant chaque année visée par la présente entente sur la base d'un montant par «équivalence temps plein (ETP)». Le montant de la contribution accordée à chaque école de la Colombie-Britannique sera déterminé par Statistique Canada pour chaque année de l'entente à partir des calculs indiqués dans la présente Annexe B. À cette fin, la Colombie-Britannique autorise Statistique Canada à obtenir directement des écoles privées ou indépendantes de la Colombie-Britannique les données requises pour ces calculs, pour chaque année visée par la présente entente. La Colombie-Britannique convient de demander aux écoles indépendantes qui reçoivent une contribution de fournir, chaque année, des renseignements visant à démontrer comment les contributions du Canada sont utilisées pour absorber les coûts supplémentaires encourus par les écoles au titre de l'enseignement en français et de l'enseignement du français comme langue seconde officielle.
- 1.2 La Colombie-Britannique pourra, à sa discrétion, accroître le montant de la contribution du Canada aux écoles à même les fonds prévus au paragraphe 5.4 de la présente entente.

2. Langue de la minorité et immersion

- 2.1 Pour qu'un élève soit considéré comme «équivalence temps plein (ETP)», il doit être inscrit à un programme d'enseignement dans la langue de la minorité ou d'immersion en langue seconde tel que défini par la province et recevoir au moins 75 p. 100 de son enseignement dans la langue de la minorité ou en langue seconde au niveau primaire et au moins 60 p. 100 au niveau secondaire.
- 2.2 Pour les élèves recevant moins d'enseignement dans la langue de la minorité ou en immersion en langue seconde que les pourcentages indiqués au paragraphe 2.1 de la présente annexe, le temps d'instruction sera calculé selon le pourcentage qu'ils reçoivent; en d'autres termes, 100 p. 100 du temps régulier d'instruction d'un élève correspondra à un «ETP».
- 2.3 On ne tiendra pas compte des élèves qui reçoivent moins de 25 p. 100 de leur enseignement dans la langue de la minorité; par contre, on tiendra compte des élèves qui reçoivent moins de 25 p. 100 de leur enseignement en immersion en langue seconde dans le calcul de la contribution pour la langue seconde.

3. Langue seconde

- 3.1 On détermine l'«équivalence temps plein (ETP)» en langue seconde en calculant le nombre d'heures d'enseignement en langue seconde qu'ont reçues les élèves. On a un «ETP» chaque fois qu'on obtient 100 p. 100 du temps régulier d'instruction d'un élève.

ANNEXE B

4. ETP - Niveaux primaire et secondaire

4.1 Le calcul des «équivalences temps plein (ETP)» aux niveaux primaire et secondaire pour les élèves inscrits dans les programmes mentionnés ci-dessus est effectué de la façon suivante :

- a) chaque élève inscrit à un programme dans la langue de la minorité ou à un programme d'immersion, qui reçoit au moins 75 p. 100 de son enseignement dans ladite langue au primaire et 60 p. 100 au secondaire = 1 «ETP»
- b) pour les autres élèves, le calcul se fait selon le pourcentage de la semaine scolaire¹ X nombre d'autres élèves = nombre d' «ETP»

4.2 Dans toutes les clauses précitées, on considérera comme la moitié d'une «équivalence temps plein (ETP)» l'élève inscrit à des programmes de pré-maternelle et de maternelle reconnus ou définis par la province, dont le temps d'instruction régulier équivaut à la moitié du temps d'instruction régulier des autres programmes du niveau primaire et ce, conformément aux calculs décrits ci-dessus aux articles 2, 3 et 4 de la présente annexe.

5. Le montant qui sera versé à chaque école pour une année donnée sera calculé à partir du nombre d'«équivalence temps plein (ETP)» de l'année scolaire précédente.

6. Statistique Canada se chargera du traitement des données nécessaires pour le calcul des contributions aux écoles indépendantes ou privées de la Colombie-Britannique. Les méthodes à utiliser pour la collecte de ces données seront celles qui avaient été acceptées, en vertu du Protocole antérieur, entre Statistique Canada et chaque gouvernement provincial.

7. Sous réserve du paragraphe 5.4 de la présente entente, les contributions par équivalence temps plein (ETP)» au niveau primaire et secondaire pour les élèves inscrits dans chacun des programmes d'enseignement décrits dans la présente annexe sont établies de la façon suivante pour la durée de la présente entente :

CONTRIBUTION PAR «ETP» PAR PROGRAMME

Langue de la minorité	\$/ETP	Immersion	\$/ETP	Langue seconde (programme de base)	\$/ETP
Élémentaire	141 \$	Élémentaire	111 \$	Élémentaire	64 \$
Secondaire	267 \$	Secondaire	172 \$	Secondaire	94 \$

8. Le calcul pour déterminer la somme à verser à chaque école privée ou indépendante pour chaque année de la présente entente se fera de la façon suivante :

8.1 la contribution par «ETP» tel qu'il est spécifié ci-dessus, pour chacun des programmes et des niveaux d'enseignement, multipliée par le nombre d'élèves «ETP» pour chacun des programmes et des niveaux d'enseignement correspondant aux articles de la présente annexe.

¹ $\frac{\text{minutes totales d'enseignement par niveau dans un des trois programmes mentionnés ci-haut dans le cycle}^*}{\text{minutes totales dans le cycle}} \times 100$

* Le cycle est une période représentant un nombre déterminé de jours d'enseignement se reproduisant dans le même ordre à l'intérieur du calendrier scolaire. Le cycle peut être de cinq jours ou plus.

Objet : Business Plan British Columbia

Hi Micheline,

I am faxing another DRAFT of our Business Plan to your attention this afternoon. We have redone portions of this plan as discussed in our tel/con in December 2000.

You will note that the additional Provincial funding being given to the CSF which totals \$10, 475,924 currently per year, is only showing in two categories. The Provincial funding has been generated by formula in recognition of the additional costs being incurred by the CSF in offering educational programs to francophone students within a unique provincial/geographical structure. The Province feels strongly that the CSF is in the best position to determine where the funding will be allocated to best meet their students needs.

The Federal allocation for Special Investment Measures has been earmarked by the CSF in initiating programs and projects that support Francophone Education and will be supplemented by provincial funds as determined by the Board.

I will ensure this information is part of the overview of the Status of French Education in BC along with background on the Capital Plan.

I trust the faxed draft Business Plan will be reviewed in light of this information.

Le français à l'université

Une leçon de patience

VÉRONIQUE GOYETTE

À l'heure où la langue française se résorbe sur les bancs d'école, faut-il s'inquiéter quant aux universités hors Québec? En Colombie-Britannique, l'accession aux études supérieures en français est en mauvaise posture. La mise sur pied d'un programme d'éducation postsecondaire dans la province prendra-t-il justement-pied?

Les quelques milliers d'étudiants qui obtiennent chaque année leur diplôme d'études secondaires via le programme francophone ou d'immersion en Colombie-Britannique se heurtent à des avenues universitaires restreintes. À moins de se diriger en linguistique, les programmes français sont absents des prospectus des universités britannico-colombiennes. «À SFU, le bac et la maîtrise sont offerts en français, mais il faut que l'étudiant s'intéresse à la langue, à la littérature ou à la linguistique», confirme Guy Poirier, directeur du département de français à l'université Simon Fraser (SFU). «Quant on sort de la 12^e année, si on veut vrai-

ment étudier par exemple les affaires ou les sciences en français, il faut aller à l'extérieur de la province.

C'est là que le bât blesse aux dires de la présidente de l'Association des professeurs et professeures d'immersion et du programme cadre. Selon les données de ce regroupement, seuls 10 % à 15 % des élèves prolongent leurs études en français, langue maternelle ou d'adoption. «Les jeunes ne poursuivent pas en français à cause des choix de cours disponibles. Ils doivent se limiter aux Arts et à Simon Fraser.» Il n'est donc pas rare que les étudiants choisissent la voie des programmes anglophones déjà établis. Dans l'autre cas, certains optent pour l'Université Laurentienne de Sudbury en Ontario ou la Faculté Saint-Jean d'Edmonton en Alberta. Cette dernière offre des baccalauréats ès arts, en éducation, en administration des affaires et en sciences. Pour l'année 1998-1999 par exemple, la provenance des nouveaux étudiants à la Faculté touchait les 12 % pour la C.-B., un chiffre notable comparé aux autres provinces canadiennes, à l'exception de l'Alberta.

Plan d'attaque

L'Association des professeurs et professeures d'immersion et du programme cadre organise un forum, à raison de deux ou trois fois par année, afin de discuter des écueils entourant l'éducation postsecondaire en français. Les parents, le Canadian Parents for French (CPF) et les universités SFU et UBC y sont invités à partager leur point de vue. La Fédération des francophones de la Colombie-Britannique (FFCB) se penche elle aussi sur le dossier. La Fédération a obtenu des fonds de 30 000 \$ de la part du ministère de l'Éducation provincial, par l'entremise du ministère du Patrimoine canadien pour l'avancement du projet. Or, la FFCB est actuellement à la recherche d'un organisme pouvant compléter le financement.

«À mon avis personnel, l'éducation en français à l'université, c'est un but à long terme. Il faut mieux travailler avec les universités», fait savoir le directeur du CPF-Colombie-Britannique, Adrian Dix. Même son de cloche chez Anne-Louise MacFurlan. «Il faudrait établir des liens plus proches entre la 12^e année et les universités. Les professeurs d'uni-

versités devraient prendre connaissance de leur clientèle directement dans les salles de classe de la 12^e année et les professeurs du secondaire devraient visiter les salles de classe de la première année universitaire.»

Parce qu'il y aurait carence d'information selon elle. «Les attentes sont trop élevées. Oui, les universités devraient avoir une meilleure connaissance de leur clientèle. C'est une clientèle d'immersion, pas une clientèle francophone.» Mme MacFurlan fait référence à l'épreuve écrite et orale à laquelle les élèves doivent se soumettre afin d'être admis à l'Université de la Colombie-Britannique (UBC) «C'est un problème qui se discute avec UBC et SFU, mais ils se protègent; les standards sont à un niveau approprié pour eux. Il faut y aller doucement.» Le directeur de CPF veut quant à lui donner une voix plus forte aux parents. «Nous pouvons faire avancer les choses par alliance avec les parents pour peser sur le gouvernement et se faire valoir auprès des universités. Il y a des milliers et des milliers d'étudiants francophones qui démontrent la puissance du système francophone.» Mais Adrian Dix tombe d'ac-

cord quand on lui demande si les choses pourraient prendre un rythme plus accéléré avec l'intervention du gouvernement provincial.

Voir plus loin

«C'est important pour la communauté francophone de développer un postsecondaire en français», insiste le directeur du département de français de SFU. M. Poirier y voit même une plus-value pour l'économie de la province. «Sur le marché du travail, c'est un atout pour la Colombie-Britannique, poursuit-il. Dans les affaires, pour ne nommer que ce secteur, la connaissance d'autres cultures est valorisée.» De là le crédit que revêt l'intronisation de programmes français au sein des établissements postsecondaires; un garde-fou à une «fuite de cerveaux» en Colombie-Britannique. «Les jeunes en viennent aussi à se demander: "si on poursuit en français ailleurs, est-ce qu'on va revenir?"» Guy Poirier est d'ailleurs membre d'un comité qui vise à conseiller la FFCB dans le projet de mettre en place des programmes d'éducation postsecondaire.

Subject: Position on OLE action plans

The OLE action plan committee considered various matters, which were discussed with managers. We agreed that we would put forward the following position for Canadian Heritage during our discussions with the provinces/territories about the action plans.

1) **Current status**

We will ask the provinces/territories to prepare a short document describing the current status of official languages in their educational system. This document can include the education act, additional costs for OLE, the number of school boards, the number of schools, enrolment, the programs offered, the types of immersion programs and core French programs. This information will serve as a baseline for comparison of the results over the next three years.

This document will be made public as a preamble to the action plans.

2) **Additional costs**

We would like the action plans to include the additional costs provinces incur for official language education. We do not want a full list of all education costs. The interpretation of additional costs will be included in the description of the current status.

3) **Complementary action plans**

We prefer to sign bilateral agreements and special measures at approximately the same time. We must be aware of all provincial/territorial needs before we sign the first agreement. We would like to avoid duplication and special funding being gradually rolled into regular funding. The two plans must therefore be analyzed together to ensure they are complementary. The activities funded through special measures will be presented in an action plan. Most agreements will be separate and each will also have an action plan. A single agreement covering OLE funding and special measures is more likely in the case of lesser amounts for special measures.

4) **Additional funding**

Additional funding will be set out in a manner similar to the action plan (activity, results, anticipated results, performance indicators) and will be indicated in a separate part of the action plan for regular funding. Activities submitted for additional funding will be approved annually and we will make every effort to stick to annual funding commitments. Capital projects are an exception to this procedure and will be the subject of auxiliary agreements.

5) **Approval of action plan**

In the recommendation to the Minister regarding the action plan subject to regular funding, we will request the Minister's approval for the next three years, with delegated authority to Hilaire for reallocation or amendments to the action plan.

6) **Consultation**

The consultation clause proposed in the model bilateral agreement reflects our initial position. If the provinces/territories do not agree, we would soften the wording as follows: "the province/territory agrees to consult interested associations and groups during the annual preparation and updating of its action plan. If this second position is not accepted, our fallback position is the clause in the Memorandum of Understanding approved for all provinces/territories under the aegis of the CMEC.

We must remember that the Minister would like the provinces/territories to consult parents and CPF before she approves the action plan. These documents will be public and we wish to avoid major criticism of the action plans, so it is in the interest of both parties that stakeholders are well prepared. The Minister made commitments to these groups when she announced additional funding for education. I am sending you a copy of the memo and accompanying letters. If we agree with one province/territory to use the clause in the Memorandum of Understanding, the province/territory should indicate in a letter the consultations that were held on the action plan.

I hope this information will be useful for your future discussions with your counterparts. I will be pleased to answer any questions you may have.

COMMENTAIRES GÉNÉRAUX

- Indiquer dans le préambule que l'immobilisation est une priorité de la province
- Devrait y avoir une clause dans l'entente qui dirait que la province fera mention des projets d'immobilisation dans le rapport annuel qui remplace les annexes (voir modèle de Summerside)
- Financement : 50/50 par catégorie d'appui / même chose pour les mesures spéciales
- Peut-être indiquer dans le tableau des fonds réguliers, que 950 000 \$ servira aux mesures spéciales, mais dans le plan d'action ne pas faire la distinction - les fonds réguliers s'élèvent à 8 107 000 \$ et les mesures spéciales à 3 0000 \$ pour le fédéral
- Indicateurs adaptés aux nouveaux résultats

NOTE À L'INTENTION DE L'HONORABLE SHEILA COPPS

GESTION SCOLAIRE ET IMMOBILISATION
EN COLOMBIE-BRITANNIQUE

(Pour signature)

RÉSUMÉ

- Les discussions se poursuivent avec le ministère de l'Éducation de la Colombie-Britannique afin d'en venir à un accord concernant deux dossiers : 1) le renouvellement de l'Entente spéciale de gestion (expirée le 31 mars 1999); 2) le plan d'immobilisation proposé par le Conseil scolaire francophone (CSF).
- À la suite d'une rencontre, qui s'est tenue le 11 mai dernier, entre des représentants du ministère de l'Éducation et de Patrimoine canadien, le gouvernement de la Colombie-Britannique aimerait connaître le niveau de financement et la répartition annuelle proposés par Patrimoine canadien pour la période allant de 1999-2000 à 2003-2004, et ce, pour les deux dossiers précités.

Contexte

- Le 11 mai dernier, des représentants du ministère de l'Éducation et de Patrimoine canadien se sont rencontrés pour en venir à une entente de collaboration sur les dossiers relatifs à l'Entente spéciale de gestion et au plan d'immobilisation.
- La première Entente spéciale de gestion scolaire de 10,5 M\$ sur 3 ans, a expiré en mars 1999. Comme nous n'avons pas encore signé une nouvelle entente, vous avez approuvé à la fin mars un montant de 4 M\$ en vertu des Mesures spéciales afin de permettre la poursuite, en 1999-2000, des initiatives entreprises selon la première Entente.

Considérations

- ° Pour l'Entente spéciale de gestion, nous avons offert à la province un montant de 15 M\$ sur cinq ans. De ce montant, 11,2 M\$ proviendront des Mesures spéciales et 3,8 M\$ du financement régulier du Programme des langues officielles dans l'enseignement (PLOE).
- ° Dès 2000-2001, la province utilisera une portion de son financement régulier évalué à 8,1 M\$ par année pour des initiatives de gestion scolaire, ce qui assurera une base appréciable dès la fin des Mesures spéciales prévue en 2003-2004.
- ° Nous poursuivons notre travail avec les représentants du ministère de l'Éducation quant au plan d'action proposé par la Colombie-Britannique. Lorsque nous aurons terminé nos discussions, nous serons en mesure de finaliser le texte d'Entente spéciale et de vous le proposer pour signature.
- ° En ce qui a trait au plan d'immobilisation élaboré par le CSF en collaboration avec le ministère de l'Éducation, le gouvernement provincial prévoit déboursier 51,8 M\$ entre 2000 et 2004 pour la construction / rénovation de 10 écoles, incluant Vancouver. La province a déposé à Patrimoine canadien la demande du CSF pour le volet communautaire, évaluée à 33 M\$. Ce montant servirait à des installations pour la pré-maternelle, la garderie et des espaces communautaires. Nous avons prévu un montant de 15 M\$ en vertu des Fonds supplémentaires.
- ° Le ministère de l'Éducation souhaite recevoir un engagement formel de votre part concernant le niveau de financement de l'Entente spéciale de gestion et de la contribution fédérale pour le volet communautaire du plan d'immobilisation. Dès que la province connaîtra la contribution fédérale, elle nous soumettra une nouvelle proposition pour les projets d'immobilisation. Nous finaliserons alors un texte d'Entente auxiliaire pour votre approbation.

Recommandation

- ° Nous vous recommandons de signer la lettre ci-jointe à la ministre de l'Éducation de la Colombie-Britannique, M^{me} Penny Priddy, dans laquelle vous confirmez l'engagement financier de Patrimoine canadien jusqu'en 2003-2004, pour des initiatives de gestion scolaire et des projets d'immobilisation pour la minorité francophone.

Dear Ms. Priddy:

I am writing to you concerning the renewal of the Special Agreement on Francophone School Governance in British Columbia, and the *Conseil scolaire francophone's* capital plan.

Following discussions between our respective officials, I am pleased to confirm federal funding of \$15 million over five years (1999-2000 to 2003-2004), including \$4 million already approved for 1999-2000, to improve the quality of programs offered for Francophone school governance. Of this amount, \$11.2 million will come from the new Special Investment Measures in Education envelope and \$3.8 million from the regular Official Languages in Education envelope.

It is my understanding that discussions are progressing well on a multi-year action plan to 2004. As soon as this work has been completed, we will be in a position to sign a Special Agreement that will allow us to pursue in partnership the work done since 1997 in Francophone school governance in British Columbia.

With regard to your Capital Plan submitted on April 18, 2000, and further to discussions among our officials, I would like to confirm a federal contribution of \$15 million over four years for expenditures related to community needs. I am confident that we could rapidly sign an agreement following submission of a detailed plan confirming which projects the province is prepared to support and the federal portion that you will seek for Francophone community needs.
