10. UNEMPLOYMENT INSURANCE ACT - 1940

Many R.C.A.F. personnel are in possession of insurance books in respect to the Unemployment Insurance Act 1940. These books contain stamps and records of unemployment insurance contributions made by the individual and his employer subsequent to the 1st July, 1941, and indicate the employment history of the holder. It is from these records that unemployment insurance benefits are computed.

Since such books contain the only available record of contributions upon which depend the benefits to be received under Unemployment Insurance Act, and also since the duration of these benefits is governed by the time served in the R.C.A.F., in addition to the time spent in insured employment both before and after service in the R.C.A.F., the production of these insurance books is of considerable importance.

All personnel who are in possession of these insurance books, are therefore to be advised to surrender them to the nearest Employment and Claims Office of the Unemployment Insurance Commission. Recruiting Officers are also to advise newly enlisted personnel to take similar action.

11. STATUTORY HOLIDAY

Good Friday, April 3, 1942, is to be observed as a Statutory Holiday at this Station. Skeleton Staff composed of personnel on Duty Watch and those specially detailed for duties, are to remain on the Station.

10. CONDUCT OF CORRESPONDENCE - MEMORANDA

It has been noted that Unit Commanders are not treating memoranda in the same manner as incoming letters. This procedure is incorrect. All concerned are hereby advised that a memorandum is a letter that does not leave the Station and is to be treated as such. In future, the following instructions are to be strictly adhered to:

The Unit Commander is to ensure that the memorandum is given a file number, and after all action has been completed, it is to be forwarded to Central Registry for filing. If the memorandum is originated to supply instructions to more than one Section Commander, the originator is to write one copy of the memorandum only and attach sufficient copies of the instructions in order that one copy may be detached by each addressee with one extra copy for the file. Upon receiving the instructions, the Section Commanders are to acknowledge receipt of them on the memorandum and when all action has been completed, the memorandum with the remaining copy of the instructions is to be forwarded or passed to the Central Registry for filing.

All personnel who are on the Station, and are not required for duties in connection with training, are to attend. This includes airmen who are on the Station but not necessarily on duty. Subject to training exigencies, all Roman Catholics on the Station, are to attend Church Parade each Sunday morning at 0830 hours.

Jewish Denominations

Personnel of the Jewish faith are advised that Motor Transport will be available at 1030 hours, Sunday, March 29, 1942, at the Motor Transport Section, for the purpose of transporting Jewish personnel who are not detailed for station duties to attend Religious Service at the Synagogue in Belleville.

2. The schedule has been drawn up under the direction of the Department of Transport and the first run from Belleville in the morning, at 0700 hours, is designed to bring passengers to the Station in time for the first parade of the day. Smith's Bus Service

3. Tickets are sold at six for \$1.00 - which means a trip for sixteen cents. This is considered to be a fair tariff and is in fact, a great deal cheaper, on a basis of mileage, than is offered to many other camps.

4. It should be remembered that, as a public conveyance, passengers are covered by insurance while travelling by bus, whereas no insurance is provided for passengers using taxis.

5. The Smith Bus Service has been permitted by the Department of Highways to purchase new vehicles to provide this means of transportation, and all personnel are urged to support it as part of the government's plan to conserve gasoline.

8. BOARD OF OFFICERS

9. LEAVE - SPRING FARMING OPERATIONS

1. Subject to the recommendation of Unit and Section Commanders and approval by the Air Officer Commanding No. 1 Training Command, Leave for the 1942 Spring Farming Period may be authorized under the following conditions:

(a) Where the Unit Commander is satisfied and certifies that the personnel can be spared from their duties without interference to training or operations, leave may be granted up to a maximum of two months.

(b) Personnel who have not completed annual leave may, if desired be granted their annual leave with pay and allowances, plus the remainder, without pay and allowances to complete the maximum of two months.

(c) Where annual leave has been completed, the entire period of leave granted will be without pay and allowances.

(d) This leave is to be granted only to those personnel who wish to return to their own farms or to farms operated by their parents.

2. Applications are to be submitted to the Officer Commanding the Unit or Section for recommendation, supported by a certificate from the Secretary of Municipality in which the farm is situated, certifying:

(a) That the applicant is the owner or purchaser of farm property.

(b) That his services are required on the farm for the purpose of assisting in spring farming operations.

(c) He is returning to the farm of his parents (giving the description of same) to assist in spring farming operations, and is required for that purpose.

3. In the cases of personnel granted leave without pay who have dependents allowances and/or assignments of pay issued in their behalf, accountant officers are to take the necessary action to stop payments, and on the return from leave without pay, to reinstate awards and assignments.

4. Unit and Section Commanders are to submit the applications with their recommendations, to the Commanding Officer for transmission to No. 1 Training Command Headquarters.

10. A.F.R.O. 432 - STATIONERY - ECONOMY IN THE USE OF

1. All Service and civilian personnel are requested to co-operate to the utmost in effecting economy in the use of stationery.

2. For example, the following measures are to be effected:

(a) Form R.C.A.F. G.32-J or G.32-H (as applicable), 8 x 6 $\frac{1}{2}$ inch letterhead, is to be used in lieu of Form R.C.A.F. G.32, 8 x 10 inch letterhead wherever practicable.

(b) Large envelopes are not to be used where small envelopes will suffice.

(c) The reverse side of spoiled letters, memoranda and carbon copies are, unless secret or confidential to be used for rough drafts or scratch paper purposes.

11. A.F.R.O. 433 - STATIONERY - SCRATCH PADS - USE OF

1. The sum of \$14,349.46 was expended for the purchase of scratch pads during the period 1st April, 1941, to 13th February, 1942. This sum suggests that personnel throughout the Service are not making full use of residue paper which could be utilized as scratch pads.

2. The following instructions are, therefore, to be carried out by all concerned:

(a) With the exception of secret, security and confidential matter, all duplicating work after it has been run off by the duplicating machine is to be thoroughly culled and residue paper that can be used for scratch pad work, is to be made into pads for local use.

(b) Any pads surplus to requirements are to be made up into parcels of 50 and forwarded to the R.C.A.F. Publications and Forms Store or appropriate forms and stationery sub-store.

(c) The R.C.A.F. Publications and Forms Store and Forms and Stationery sub-stores are, in future, to fill all demands for scratch pads as far as possible on 75-25 percent basis, i.e., 75% culled paper pads and 25% purchased pads.

3. As a result of the above instructions, it is anticipated that a saving of \$11,000.00 will be effected during the next 12 months.

12. TRANSFER OF AMERICAN CITIZENS SERVING IN THE R.C.A.F. TO UNITED STATES ARMED FORCES.

1. All American Citizens, Officers and Airman, serving in any capacity with the R.C.A.F. are to be given the opportunity to elect, if they desire to request discharge or retirement from the R.C.A.F., for the purpose of serving with the Armed Forces of the United States.

2. In this respect, they are definitely advised as follows:

(a) That April 20th., 1942 is the final date for election as in para. 1 above.

(b) That, beyond that date, no further opportunity will be provided for such election. (Request to withdraw application for service with the U.S. armed forces, as in para. 1 above, may be made at any time, prior to appointment or enlistment in United States Forces.)

12. TRANSFER OF AMERICAN CITIZENS SERVING IN THE R.C.A.F. TO UNITED STATES ARMED FORCES.

(c) That election, as in para. 1 above, will be the only method of entry into the United States Armed Forces for American citizens serving with the R.C.A.F.

(d) No guarantee can be given that the personnel so applying will be accepted into the particular arm or branch of the United States Armed Forces in which they desire to serve. Such decision will be given by the American representatives on the joint board at the time the applicant appears before it for interview, and examination both medical and educational.

(e) That discharge or retirement from the R.C.A.F. which may be finally approved as the result of election as in para. 1 above, being at the officer's or airman's request will not entitle them to rehabilitation grant or clothing allowance.

3. Full details are contained in a U.S. War Department circular dated March 9th., 1942. As a limited number of copies only are available, it is not possible to distribute them to each American citizen, but they may be perused at the following places:

Station Headquarters Orderly Room
R.T.S. Orderly Room in the Control Tower
G.I.S. (Aircrew) Orderly Room
G.I.S. (Armament) Orderly Room
Maintenance Orderly Room
Security Guard Orderly Room
Bombing Flight, Gunnery Flight, Drogue Flight

4. Application forms are also available in the sections mentioned in para. 3 above, and must be submitted in duplicate.

5. Unit and Section Commanders are to ensure that all American personnel, in their respective Units and Sections, read the War Department Pamphlet, and sign a certificate to that effect. This is important.

Protestant
Sunday, March 22, 1942, Protestant Church Parade will be held at 1130 hours in the Recreation Hall. All personnel who are on the Station, and are not required for duties in connection with training, are to attend. This includes Airmen who are on the Station, but not necessarily on duty. Unit and Section Commanders are to ensure that only skeleton staffs remain on duty during the period of this parade. Units will fall in on their unit parade grounds at 1115 hours, and march to church to reach there by 1130 hours. Following the service, there will be a Holy Communion service for all who wish to attend.
Roman Catholic

Subject to training exigencies, all Roman Catholics on the Station are to attend Church Parade each Sunday morning at 0830 hours.

Jewish Denominations

Personnel of the Jewish faith are advised that Motor Transport will be available at 1030 hours, Sunday, March 22, 1942, at the Motor Transport Section for the purpose of transporting Jewish personnel who are not detailed for station duties to attend Religious Service at the Synagogue in Belleville.

7. TRANSPORTATION - BELLEVILLE - MOUNTAIN VIEW
Smith's Bus Service

1. In support of the Government's plan for the rationing of gasoline and tires, the attention of all personnel is drawn to the schedule of bus runs between Belleville and Mountain View offered by Smith's Bus Service, (See cards posted throughout the camp.)
 2. The schedule has been drawn up under the direction of the Department of Transport and the first run from Belleville in the morning, at 0700 hours, is designed to bring passengers to the Station in time for the first parade of the day. There are three runs going to Belleville, immediately after duty, daily, and others later.
 3. Tickets are sold at six for \$1.00 - which means a trip for sixteen cents. This is considered to be a fair tariff and is in fact a great deal cheaper, on a basis of mileage, than is offered to many other camps.
 4. It should be remembered that, as a public conveyance, passengers are covered by insurance while travelling by bus, whereas no insurance is provided for passengers using taxis.
 5. The Smith Bus Service has been permitted by the Department of Highways to purchase new vehicles to provide this means of transportation, and all personnel are urged to support it as part of the government's plan to conserve gasoline.

9. OBSTRUCTION OF ROADWAY BEHIND OFFICERS MESS

On several occasions recently, the fire pumper has not been able to pass freely along the roadway behind the Officers Mess, owing to obstruction caused by the parking of cars there. In the event of fire, serious loss of time might result from such a condition.

No motorcars or other vehicles are to be parked on this or any other roadway on the Station where obstruction might result.

12. MEETING - AIRMEN'S CANTEEN COMMITTEE

The meeting of the Airmen's Canteen Committee called for 1630 hours, Wednesday, March 18th, is postponed until 1630 hours, Thursday, March 19th.

13. SECURITY

1. During this war it has become obvious that our ability to defeat the enemy, or even to defend ourselves, depends very largely on air power. Air warfare has brought the man in the street into the battlefield. It is natural, therefore, that the public should be greatly interested in air warfare and wish to know everything about the Royal Canadian Air Force that they can learn, either through the medium of the Press or by any other means.

2. Special organizations exist for telling the public everything it is desirable and safe to reveal about the Armed Forces. It is not part of the ordinary officer's or airmen's duty to satisfy the public's thirst for knowledge, and it is essential that personnel not serving in the Press and Publicity branches, should not attempt, or be persuaded, to do this.

3. R.C.A.F. personnel who are inclined to talk about their work, or who are reluctant to refuse to answer apparently harmless questions, do not always realize the dangers to which they may be exposing themselves or their comrades. They may be asked a question by someone whom they know to be a man of probity occupying a position of trust, for instance the manager of a firm engaged on important Government work. There is often a tendency to assume that it does not matter telling such a person what he wants to know because he will have sufficient sense of responsibility not to pass the information on. The recipient of the information, on the other hand, may think that there is no harm in passing it on, because he has heard it from an officer or airman who, he assumes, would not reveal anything that he should not.

4. Misunderstandings often arise in this way and may have disastrous consequences. Moreover, it is not a sufficient safeguard to say that the information is secret or confidential and should not be revealed. The information may be passed on because the warning has been forgotten, or because it is thought that the third person also has sufficient discretion to keep it to himself.

5. It is sometimes assumed, quite incorrectly, that there is no objection to giving secret or confidential information to anyone who is a member of H.M. Forces, the Civil Service, or in other Government employment. Officers and airmen are entitled to give information of this nature to such persons only when they know that they are entitled to receive it and require it for the performance of their duty. For example, it may be quite permissible for two pilots, each in a different fighter squadron, to discuss between themselves methods of intercepting enemy aircraft. It would be entirely wrong for one of them to discuss this subject with an officer of another Service who did not require the information for the normal performance of his duty and might not understand how secret it was.

6. One of the principal objections to the discussion of Service matters is that it is difficult for officers and airmen to know what degree of secrecy should be attached to all the various information in their possession. It might be assumed, for instance, that there was no objection to discussing in Service circles how certain types of aircraft or aero engines stood up to the conditions encountered in particular countries. It is probable, however, that the enemy's information, not only of the numbers but also of the types of aircraft at various R.A.F. stations abroad is very inadequate. Any information reaching the enemy regarding a particular type of aircraft in a certain country might, therefore, be of considerable value, particularly if that type of aircraft had only recently been sent there.

13. SECURITY (Cont'd)

7. Officers and airmen should be aware of the various regulations issued from time to time regarding the non-disclosure of secret and confidential information. It is obvious, however, that such regulations cannot completely safeguard all information which might be of value to the enemy, and that much must be left to the good sense and discretion of R.C.A.F. personnel.

8. To sum up: OFFICERS AND AIRMEN SHOULD NOT DISCUSS SERVICE MATTERS WITH PERSONS WHO ARE MERELY INTERESTED BUT DO NOT REQUIRE THE INFORMATION FOR THE SPECIFIC PERFORMANCE OF THEIR OFFICIAL DUTIES.

8. FIRE PRECAUTIONS

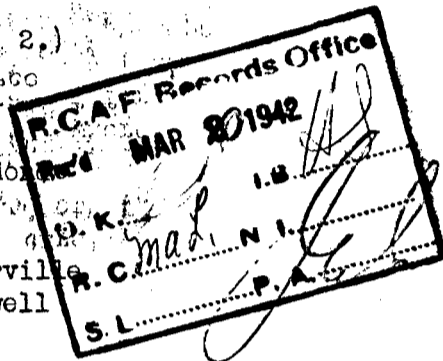

In order to minimize fire loss, the following A.F.R.O.'s are to be strictly observed:

AFRO 976

Strict precautions are to be taken that no oily waste is left where it can heat spontaneously and cause fire. Immediately after use, oily materials are to be deposited in a covered metal container which rests on a fire-proof floor or which is supported by metal legs at least four inches in height.

AFRO 1119

Grease is not to be allowed to accumulate on canopies and ventilators over kitchen ranges. It is to be cleaned off at intervals not exceeding one month so that it will not add to the intensity of any accidental fire.

PART I ADMINISTRATION

"A" GENERAL

8. FIRE PRECAUTIONS cont'd

AFRO 1134

Numerous reports have been received of fires in Officers', N.C.O.'s, and Airmens' quarters caused by the careless disposal of live cigarette butts. In a number of cases personnel smoking in bed had fallen asleep and allowed the lighted cigarette to set fire to the bedding.

All personnel are warned that recurrences of such accidents may lead to the total prohibition of smoking in sleeping quarters.

AFRO 1145

Accumulations of refuse are a frequent source of fires that endanger buildings. Units are instructed that no refuse or waste material is to be piled against or within 10 feet of any building or structure. Such temporary accumulations as are unavoidable are to be removed with the least possible delay, and in every case, within 24 hours.

AFRO 1201

An investigation into a fire which occurred recently at an R.C.A.F. unit revealed that a quantity of soot, after lying dormant in a wooden box for 20 hours, had burst into flame and caused extensive fire damage.

When smoke pipes, chimneys or boiler flues are cleaned, the soot is to be placed in a metal container and removed to a safe distance from all buildings and combustible surroundings.

AFRO 1229

Numerous fires have occurred recently through the careless disposal of live cigarette butts in waste paper baskets and other receptacles for the disposal of combustible rubbish.

All units are, therefore, to provide an adequate supply of incombustible ash trays or other receptacles in all buildings where smoking is permitted, in order to eliminate a common source of fire.

In the interests of economy, use is to be made of empty tins or other containers, suitably modified and marked in station workshops to indicate their use.

9. TRANSPORTATION - BELLEVILLE-MOUNTAIN VIEW

Smith's Bus Service

1. In support of the Government's plan for the rationing of gasoline and tires, the attention of all personnel is drawn to the schedule of bus runs between Belleville and Mountain View offered by Smith's Bus Service (see cards posted throughout the camp)

2. The schedule has been drawn up under the direction of the Department of Transport and the first run from Belleville in the morning, at 0700 hours, is designed to bring passengers to the Station in time for the first parade of the day. There are three runs going to Belleville immediately after duty, daily and others later.

3. Tickets are sold at six for \$1.00 - which means a trip for sixteen cents. This is considered to be a fair tariff and is in fact a great deal cheaper, on a basis of mileage, than is offered to many other camps.

9. TRANSPORTATION - BELLEVILLE - MOUNTAIN VIEW cont'd
Smith's Bus Service

4. It should be remembered that, as a public conveyance, passengers are covered by insurance while travelling by bus whereas no insurance is provided for passengers using taxis.

5. The Smith Bus Service has been permitted by the Department of Highways to purchase new vehicles to provide this means of transportation and all personnel are urged to support it as part of the Government's plan to conserve gasoline.

10. GASOLINE RATIONING

R.C.A.F. personnel who feel they are eligible for a category higher than "A" are to submit their completed applications through the Station Records Office for consideration by the Commanding Officer.

10. DISCIPLINE - R.C.A.F. AND R.C.A.F. (WOMEN'S DIVISION)

1. All R.C.A.F. personnel, including the Women's Division, are notified that when in uniform they are not, when accompanied by any other person, to offer their arm to, or accept the arm of such other person. This prohibition does not apply in the case of physical infirmity or road and traffic conditions where the giving of assistance is justified as an act of courtesy.

H.Q. 921-3-60.

11. TRAVELLING CLAIM --MILITIA FORM D.811-- PERSONNEL ON TEMPORARY DUTY

1. Prior to departure from the parent unit all personnel proceeding on temporary duty are to obtain a travelling claim, M.F.D. 811, which is to be prepared properly and signed to show the authority for the journey, the date on which temporary duty commences, and other available details as required on the form.

2. Until M.F.D.811, properly prepared as above, is presented, transport warrants are not to be issued and advances on account of travelling expenses are not to be made.

3. If an advance on account of travelling expenses is made prior to departure, the amount so advanced is to be noted clearly on the travelling claim by the accountant officer.

4. Whenever possible personnel are to obtain additional advances, when required, direct from their own units, and they are personally to record these advances on travelling claim in the same manner as the original advance was recorded by the accountant officer of the parent unit.

5. In exceptional circumstances, when it becomes necessary to obtain an advance from another unit, the accountant officer of that unit is to be guided by the statement of previous advances as shown on M.F.D.811, in determining the amount of such additional payment, and their relation to the period of absence on temporary duty. No advances are to be made to personnel from other units until M.F.D.811 is presented, and the amount of the advance is then to be endorsed on the form.

6. It is imperative that the travelling claim be prepared prior to departure and retained during the period of temporary duty so that advances may be obtained on short notice, if necessary, from other units, and also in order that certificates as to the non-availability of quarters and rations, transport, and other facilities may be endorsed on the travelling claim during the course of the journey.

7. Attention is directed to P. & A. Regulations, Article 101 B (3), which instructs that receipted vouchers are to be obtained for expenditures in excess of \$2.50. The importance of obtaining such receipts and attaching them to the travelling claim is to be impressed upon all concerned.

8. In accordance with F.R. & I, Article 213, travelling claims are to be submitted for payment as soon as possible after completion of the journey.

H.Q. 1000-9-16.

12. INJURIES, MINOR--REPORTING AND TREATMENT OF

1. The failure of personnel to report injuries to the unit medical officer has sometimes resulted in unnecessary complications and loss of time.

They are to report to the medical officer at a convenient hour for examination to determine whether further treatment is necessary.

It is the responsibility of the unit medical officer to see that suitable first aid equipment is available in those places where injuries requiring attention are likely to occur, e.g., hangars, and workshops. These first aid kits need not be elaborate and need only contain an antiseptic, such as iodine, and simple dressings. Containers may be made from material on hand. If necessary, they are to be provided with a lock and the custody of the keys delegated to one or more N.C.O's.

17. ESTABLISHMENTS

1. The following extracts from a letter dated 5th., March 1942 from the Air Officer Commanding No. 1 Training Command are published for the information of all personnel.

It is feared that many requests for increased establishments emanating from units are frequently caused by:

- (a) Unsatisfactory internal organization.
- (b) Improper use of the personnel already established.
- (c) A tendency to find it easier to ask for more personnel than to effect re-organization within the Unit itself, which would permit the duties to be performed by the existing staff.
- (d) A general feeling that the working day should be limited to eight hours, such period to include time off for meals, smokes etc.

It is the considered opinion that the majority of establishments are, in fact, too generous and that the time is fast approaching when a downward revision will be necessary. The original establishments were purposely drawn on generous lines to give the Units a chance to settle down and familiarize themselves with training and other problems. Now that this experience has been gained, Units should be considering, and recommending, means of effecting economy by a reduction of establishments.

17. ESTABLISHMENTS (Cont'd)

There is an urgent need for economy, not only in money, but in manpower, and it is impossible to continue increasing establishments, except where specialists are needed for training purposes. This matter is to be brought to the attention of all Section Officers, so that it may be realized by them and by their staffs that they cannot expect to operate in war-time on peace-time conditions and hours. There is no desire to sacrifice efficiency or the completeness of training, but the point has been reached when the personnel must be prepared to work longer hours and with greater effort.

2. The attention of all personnel is drawn particularly to the final paragraph of the above instructions which indicates very clearly that a greater effort by everyone in the Service will be demanded in future.

3. Unit Commanders and Section Officers are notified that if any submissions for amended establishments are found necessary, they may be forwarded once each month only, to reach Headquarters No. 1 Training Command not later than the 7th., day of the month.
