INSTRUCTIONS

1. **This cover must not be folded under.**

2. **File should be retained no longer than is absolutely essential. If a file is frequently needed at short intervals, it is better to B.F. it for two or three days than keep it out of Central Registry indefinitely. This ensures its being completed and kept in order and also gives other officers an opportunity of using it.**

3. **Central Registry must be notified whenever a file is passed directly between one official and another.**

4. **All outgoing letters should bear the official file number and originator's designation.**

5. ONE SUBJECT—ONE COMMUNICATION—Where the contents of outgoing letters necessarily refer to more than one subject, the originator will prepare additional copies for attachment to relevant files.

6. **Correspondence must not be removed from file, except as provided in the regulations governing the conduct of correspondence.**

7. **Incorrectly filed material will not be removed without notification to Central Registry.**

8. **Official office designations are to be used for routing purposes.**

9. **Disposal entries on file jackets must be initialled and dated.**

10. **Urgent Tags, flags and other markers will be removed in Divisional Offices as soon as appropriate action on the folios has been taken.**

11. **Officials are reminded that strict adherence to the security regulations is essential when dealing with classified material.**

DEPARTMENT OF CITIZENSHIP AND IMMIGRATION

TO: Chief, Education Division

OUR FILE: 44/23-16-431

FROM: Superintendent, James Bay Agency

YOUR FILE:

SUBJECT: Moose Factory Indian Hospital School Report - July 1960

DATE: August 10th, 1960.

E 15

Attached is a revised school report turned in by Mr. G. Hildebrand, teacher of the Moose Factory Indian Hospital, after it has been drawn to his attention that the number of hours shown would appear to be in error.

Mr. [redacted] was on annual leave from July 7th to July 11th and 1 day sick leave on July 13th reducing his working days to 16 days as the month of July had a total of 20, July 1st being a Statutory Holiday. It was therefore questionable as to how he would arrive at 160 hours.

May the previous report be disregarded.

MRR/

W. M. Gran.

It is interesting to note that patients coming in from posts where schools are now in operation show interest and desire to carry on with school from the first days they come to the hospital. Most of them have mastered the rudiments of phonetics and primary reading and this greatly accelerates the amount of work they can be expected to do in the 10 or 12 months they may spend at the hospital school. With a non-English speaking illiterate group, I find it is the first start which consumes so much ~~of~~ time and makes learning such a slow process for a patient. This happy turn of mind augurs well for the future.

In general the pupils are showing more interest in school work. The pattern of interest seems to follow a time sequence wherein the first three months they appear indifferent to studying; the next three months they accept lessons as hospital routine; the next three months , their interest is keen and they do not want to miss any lessons.

Evening classes were held in social studies with emphasis on general interest and reading for understanding. Report on these classes to follow in the near future.

Days of absence were due to illness re: flu influenza.

Visitors

During October the following visitors were at the Hospital School
Mr. Dunlop, Provincial Minister of Education
Mr. Shaw, Regional School Inspector
Miss Mac Donald, Nursing Supervisor, Dept. of Northern Health Serv.

Many of the pupils were sick with the flu epidemic and teaching had to be cut down considerably for a week or so.

Teaching appointment
As of July 15th, Mr. [redacted] was appointed on a temporary basis for summer teaching in the absence of day teachers Mr. [redacted] and Mr. [redacted] who are now on holidays.

In the very short time that Mr. [redacted] has been at the hospital, he has shown commendable insight and understanding into hospital teaching. He is alert , pleasant and cooperative. He combines both creative thought and practical initiative which make him a desirable asset as a regular hospital teacher.

Visitors

Mr. F. Barnes from Ottawa and Mr. A. C. Reid, Regional Inspector, came in the early part of the month. We discussed the hospital teaching program and rehabilitation set-up. In brief, their constructive criticism was most helpful.

Report to follow mentioned on June attendance sheet must by now have reached the Ottawa office through Mr. Barnes.

Moose Factory ~~Hospital~~ School Report.

May 1957.

JUN 13 3 49 PM '57

3 3 6 9 4

Department of Citizenship and Immigration,
Indian Affairs Branch.

At the beginning of May there were fifty-four student-patients at Moose Factory Indian Hospital. Three were discharged during the month.

The students are classified as follows, Grade one, forty-two; Grade two, five; Grade three, five; Grade four, two. Twenty-five of the pupils are over sixteen years of age.

Two Correspondence Courses have arrived, and it is hoped that these valuable teaching aids will prove practical in Hospital teaching.

The school work seems to be progressing fabourably. Patients are able to be outdoors more, and many of our students are ready to be sent to their homes.

MOOSE FACTORY HOSPITAL SCHOOL REPORT

January, 1957

Department of Citizenship and Immigration --- Indian Affairs Branch

At the beginning of January there were twenty-eight patients at Moose Factory Indian Hospital who were doing school work. Twenty-four of these come regularly to the classroom, and the remainder are taught at their bedsides.

Since Mrs. Child passed away on January 3, there have been about twelve patients of school age who have not received much instruction, and there are about twelve more adults who would like to be taught. I hope to be able to do more bedside teaching now, as during this week nine school-age patients have been discharged.

The pupils are classified as follows: Grade 1, 17; Grade 2, and 4; Grade 3,3. The remainder are learning English and arithmetic.

The boys who come to the classroom have been making articles such as baskets, boats, and totem-poles from wood, when they finish their seatwork. Some are quite adept at making these things, and all seem to enjoy this kind of activity.

MOOSE FACTORY HOSPITAL SCHOOL REPORT

E10 OCTOBER, 1956

Department of Citizenship and Immigration --- Indian Affairs Branch

At the beginning of October, thirty-four student-patients were being taught at Moose Factory Indian Hospital, and at the end of the month forty-seven were enrolled in school. Eight students were discharged from the hospital during the month.

Approximately thirty pupils, comprising three classes, come to the classroom each day. A fourth class was quarantined during the last week of October. The remaining pupils are taught in the wards. Both teachers have some bedside and some classroom pupils.

The pupils are classified as follows: Grade 1, 36; Grade 2,5; Grade 3,4; and Grade 4,2. Seven pupils are over sixteen years of age. The teachers concentrate on teaching English, and bring in other subjects wherever possible.

At the present time, some evening entertainment for the patients is provided over the P.A. System, and plans for a more extensive program are being made.

MOOSE FACTORY HOSPITAL SCHOOL REPORT SEPTEMBER, 1956

Department of Citizenship and Immigration --- Indian Affairs Branch

The Moose Factory Indian Hospital School opened on Thurs.,Sept.6. Mrs. Child arrived in Moose Factory on that date, and Mr. Hildebrand had been supplying at the Moose Factory Staff School for two days.

Instruction was hampered during the month by the admitting and discharging of a large number of patients, and also by both hospital teachers being called upon to supply at different times at the Staff School.

Twenty-three pupils were registered during the first school days, and at the close of the month thirty-five pupils were being taught.

Both teachers teach two hours a day in the classroom, and the remaining time is spent in doing bedside teaching. Four different classes of from eight to ten pupils come to the classroom. We hope to be able to teach more of the patients as there are quite a few more who are anxious to learn. Mrs. Child is endeavouring to have some of the workers in the hospital begin Correspondence Courses.

The students are classified as follows: Grade one,23; Grade two,5; Grade three,4; and Grade four,3.

On Sept.26, the teachers were visited by Mr. D.E. Kennedy of Cochrane. Mr. Kennedy gave the teachers some helpful ideas regarding hospital teaching.

Moose Factory Hospital School Report

May, 1956

Department of Citizenship and Immigration--- Indian Affairs Branch

At the beginning of May there were forty-seven student-patients at Moose Factory Indian Hospital. Two were discharged during the month, and six were added, making a total of fifty-one at the end of the month.

The students are classified as follows: Grade 1, 23; Grade 2,6; Grade 3,4 ;Grade 4,2; and Grade 5,1. The remaining fifteen are over sixteen years of age and are learning mostly English.

On May 30 the hospital students and teachers were visited by Mr. A.C.Reid, who is to be our inspector. The teachers also had the pleasure of meeting Mr. F. Davey of Ottawa, and Mr. D. E. Kennedy, inspector of Public Schools for this district.

The hospital students are still working fairly well despite increased outdoor activity. During June, a higher percentage of students than is usual for a month will be transferred either to their homes or to other sanatoriums.

Moose Factory Hospital School Report

April, 1956

Department of Citizenship and Immigration --- Indian Affairs Branch

At the beginning of April there were forty-five student-patients at Moose Factory Indian Hospital. Two were discharged during the month and four were added, making a total of forty-seven at the end of the month.

The students are classified as follows: Grade 1, 24; Grade 2, 6; Grade 3, 5; and Grade 4,2. The remaining ten are over sixteen years of age and are learning mostly English.

On April 25th the hospital was visited by Mr. F. Barnes of Ottawa. Mr. Barnes offered some helpful advice on methods of teaching.

About eighteen students come regularly to the classrooms, and the rest are taught in their rooms. The schoolroom classes each consist of Indians and Eskimos. Mrs. Jewers brings the T. B. patients to her classroom, and I teach the patients that are being treated for other sicknesses.

The P.A. system in the hospital is operated by the teachers, and we feel that the entertainment made possible through this channel is very helpful. Some talks have been made over the system in the patients' native language, and we hope to make more use of it in this manner in the future.

Number of days taught by Mrs. [redacted] during April--- 15
Number of days taught by myself during April --- 16

Mrs Jewers was absent one day on account of sickness.

Moose Factory Hospital School Report

March, 1956

Department of Citizenship and Immigration ---Indian Affairs Branch

APR 9 2 27 PM '56

At the beginning of March there were thirty-nine student-patients at Moose Factory Indian Hospital. Seventeen were added during the month, and eleven were discharged, making a total of forty-five students at the end of March.

The students are classified as follows: Grade 1, 24; Grade 2, 6; Grade 3,5; and Grade 4,2. We are attempting to have these pupils follow the regular school curriculum. The remaining pupils are adults and are learning mostly English. Fifteen pupils are over sixteen years of age.

The high rate of admission and discharge during the month has made it more difficult to teach. We keep those patients who can read supplied with school readers, science books, and other textbooks, and many do a good deal of reading. This is one good way of helping to keep the patients contented, and at the same time a good way of helping them to learn more of modern life.

Number of days taught by Mrs. [redacted] during March--- 14

Number of days taught by myself during March --- 21

Mrs. [redacted] has been absent from school on account of sickness.

Moose Factory Hospital School Report

February, 1956

Department of Citizenship and Immigration --- Indian Affairs Branch

At the beginning of February there were forty-six patients being taught at Moose Factory Indian Hospital. Ten students were discharged during the month and three were added, making a total of thirty-nine students at the end of February.

The pupils can be classified as follows: grade 1, 22; grade 2, 4; and grade 3, 3. The remainder are learning English and a little arithmetic. Fourteen pupils are over sixteen years of age.

The Public Address System in the hospital is helpful in entertaining the patients, and we hope to have some talks and songs in the future in the Indian and Eskimo languages.

During the month, the hospital was visited by Mr. Jameson Bond, welfare worker with the Department of Northern Affairs at Great Whale, Quebec. Mr. Bond conversed with the Eskimos in their native language, and gave Mrs. Jewers and myself some helpful information on the Eskimo language, and on the ways of the Eskimos.

Moose Factory Hospital School Report

January, 1956

Department of Citizenship and Immigration--- Indian Affairs Branch

At the beginning of January there were thirty-nine student-patients at Moose Factory Indian Hospital. Four were discharged during the month and eleven new students were enrolled, making a total of forty-six at the end of January. The majority of the new students have come from other sanatoriums and will be here only a short time.

The pupils can be classified as follows: Grade 1, twenty-three; Grade 2, seven; Grade 3, four; Grade 4, one; and Grade 8, one. The remainder are learning chiefly English. Twenty-one pupils are over sixteen years of age.

During the latter part of the month our school was visited by Dr. B. O. Filteau of Quebec, and Dr. G.J. Buck of the Dept. of Education of Saskatchewan. They were on an educational survey of this area. Dr. Buck suggested that we obtain Correspondence Courses for our students. We have sent for these papers and shall mark them here at the school.

The public address system in the hospital has been renovated and we hope to be able to make use of it in teaching in the future.

Number of days taught by Mrs. Jewers during January --- 16.
Number of days taught by myself during January --- 22.

Mrs. Jewers was hospitalized for six days during the month.

DECEMBER, 1955

Department of Citizenship and Immigration--- Indian Affairs Branch

At the beginning of December there were thirty-six student-patients at Moose Factory Hospital School. During the month two students were discharged to their homes, and one was transferred to Gravenhurst Hospital. Two student-patients were admitted from the sanatorium at Hamilton, and four other patients began school work, making a total of thirty-nine students at the end of December.

Both Mrs. [redacted] and myself apportion our time between the students confined to their beds and those able to come to the classrooms. Eleven students come regularly to the classrooms; six are Eskimos and five are Indians. Of the bedside pupils, Mrs. [redacted] has eight beginners which she is able to teach in one room.

Those students that can be graded are classified as follows: Grade 1,20; Grade 2,7; Grade 3,1; and Grade 4,1. The remainder are being taught mostly English, but we are teaching some Arithmetic. Fifteen of our pupils are over sixteen years of age. Our oldest student is forty-eight.

During the month, the hospital was visited by Mr. F. Barnes from Ottawa who gave the teachers some helpful ideas regarding teaching.

Both Mrs. [redacted] and myself find that the patients, particularly the adults, learn very rapidly, and we are encouraged by their attitude toward school work.

Number of days taught during December --- 16.

December 9, 1955.

Mr. [redacted]
Teacher, Moose Factory Hospital School,
Moose Factory, Ontario.

Dear Mr. [redacted]

Reference is made to your report for the month of October in which you inquire about the availability of reading material in the Cree and Eskimo languages.

The primary purpose of schools is to give the pupils command of one of the official languages. Progress to that objective is likely to be slower if the continuity of effort is interrputed by return at will to reading in the vernacular.

It cannot be expected that newspapers, radio, television or material intended for the public will use the vernacular. Our purpose is to remove or reduce the handicaps imposed on those who cannot copp with the languages in general use.

Opportunities for reading in the vernacular have already been provided by religious denominations.

Some research useful for the teaching of English in the James Bay area is suggested in the November 1951 issue of the Indian School Bulletin, a copy of which is available to you. For the tutorial type of work which will be your main activity, you might compose reading material that employs an English vocabulary that is functional for the area. A few copies of "Conservation of the Caribou" which attempts this procedure are being sent to you.

.....

MOOSE FACTORY HOSPITAL SCHOOL REPORT

OCTOBER 1955

1955 NOV

Department of Citizenship & Immigration,
Indian affairs branch,

Dear Sir,

School was conducted at Moose Factory Hospital School by Mrs. Jewers during the month of October. I began teaching on Oct. 14th, and my activities have been confined to bedside teaching as we have only one classroom at present. We hope to have another classroom in the near future and we have made requisitions for the necessary furniture and equipment.

It has taken some time to determine what to teach the patients, but we feel that we have much more to learn about them. Nevertheless, the fact that our pupils are anxious to learn makes it very encouraging for us.

Six patients who were receiving instruction were transferred during the month, and there are now twenty-seven being taught, ten of which are over sixteen years of age.

One thing that I feel would be helpful is storybooks in Eskimo and Cree, as even the more advanced pupils read English only with difficulty, and only a very few will attempt to read English books without assistance. Perhaps you could inform us as to whether these books are available or not.

Number of days taught by Mrs. Jewers during October ---21.

Number of days taught by myself during October --- 12.

November ,1955

Department of Citizenship and Immigration --- Indian Affairs Branch

DEC 8 8 47 AM '55
INDIAN AFFAIRS

At the beginning of November there were twenty patients at Moose Factory Hospital School receiving instruction. At that time seven more patients of school age were quarantined, but they are now able to be taught. Nine students were added during the month, making a total of thirty-six at the end of November.

Mrs. [redacted] and myself each have a classroom, and each have a number of patients taught regularly in their rooms.

Mrs. [redacted] teaches principally Indians, and concentrates on the school-age patients the majority of which are following the regular school curriculum. She also has some adult patients who are learning English.

I teach principally Eskimos and concentrate on teaching English, but teach considerable Arithmetic. My classroom pupils are beginners and are being taught printing, reading, and a small amount of Arithmetic.

Fifteen of the patients being taught are over sixteen years of age. The two of these that can be classified are in grade two. Those under sixteen can be classified as follows: grade one, 15; grade two, 4; grade three, 2.

The patients seem anxious to learn, a fact that is very encouraging to the teachers. Teaching is hampered considerably by the high rate of admission and discharge, and by colds, high temperatures, etc.; but that is to be expected. We teach one hour on Saturday mornings to help keep the patients usefully occupied each day.

Our regular teaching hours as defined by the Medical Superintendent are from 9 to 11 a.m. and from 2:30 to 4:30 p.m.; but individual instruction is given at other periods at the discretion of the Medical Superintendent and other Medical Officers.

Number of days taught by Mrs. [redacted] during November--21.
Number of days taught by myself during November---21.

Number of hours taught by Mrs. [redacted] during Nov.--82.
Number of hours taught by myself during Nov.---88.
Mrs. Jewers lost several hours due to sickness.

Moose Factory Hospital School.

School re-opened September 7, 1955.
Enrolment first day of month 24
Enrolment last day of month 23
Regular daily attendance in class room 8
Regular bedside pupils for month 18

Pupils who are permitted up for short periods now have the privilege of study periods in a pleasant little class room which has been provided for this purpose.

Those attending these classes are children who were in the Hospital school last years. I have graded them as follows:

Grade V - 1 (Indian)
Grade II² - 1 (Eskimo)
Grade II' - 3 (Indians)
Grade I' - 1 (Eskimo)
Primer - 3 (Indians)

1955 OCT 14 AM 9:45
261-40

Number of days taught during month — 18

Remarks: School activities have been more or less restricted in the wards due to the large scale admissions and transfer of patients, which have taken place during this month.

Mr Kennedy Inspector of Schools Cochrane appeared satisfied with plans for bringing the children in the class room for brief study periods.

Mr Kennedy visited this school this week, Mr Waller, North Bay and our local Superintendent Mr J. Harvey inspected the new Hospital class room this week. Their comments have been extremely encouraging to me.

Regret I will not be at Sanatorium Teachers Meeting Toronto Oct 7. If any available literature pertaining to School and teaching, please let me have it.

Grade V	1
Grade VI	1
Total	35

Remarks:
With permission from local school board, May 23. Empire Day was observed in this hospital school as a teaching day.

A brief talk by the teacher, on this day concerning the flag; proved an interesting subject of study for the majority of pupils.

The making and colouring of the Union Jack, and the decorating with patriotic designs of paper hats by each child, presented a colourful display in all wards.

The local school board gave an extra treat of ice-cream to every child at the close of the day.

May 31st. 1955

Remarks.— I notice a marked change in the majority of pupils during March. Improvement in health brings about a more interested attitude towards studying.

Children coming in during the month have been recorded in daily register, but have not been approached with lessons. This will come along as the child is gradually adjusted to hospital life, and when the doctors think advisable

Remarks,

A few Kindergarten tables supplied this month have been given a trial in the childrens ward.

I find the bedtables supplied earlier in the fall are much more satisfactory for the school activities of these pupils who are confined to their beds.

However, the tables will eventually be of use, as the gradual improvement of the children permits them to participate in occupational therapy.

Remarks: A brief visit from Mr Kennedy Inspector of Public Schools Cochrane at the beginning of the month was much appreciated. Suggestions made by Mr Kennedy on the use of workbooks for the pupils very helpful.

During the month bedtables were supplied most of the pupils giving them more comfort in doing their school work.

There are some pupils in my care who, if fortunate enough to regain health, quite capable of studying. Having become interested in this bedside teaching I would once again suggest the services of a Primary teacher to assist me.

Remarks:

At the close of October I find myself fairly well settled in the routine of bedside teaching in this Moose Fort Hospital School.

An assistant would be appreciated, and is really required if justice is to be shown those concerned — pupils and teacher —

I find the children not unlike others, they respond to kindness and attention, are eager to learn, and show an interest in their school work.

The ward attendants are most courteous and co-operative, as I make my daily rounds of duties.

Remarks:

For the most part my work this month has been more or less acquainting myself with the rules and regulations of the hospital as affects my pupils, and investigating the reading ability of each child.

As the health of each pupil here comes first, the teaching as may be effected is worked in, slowly but steadily.

Personally I find my task at bedside teaching a surprisingly pleasant, interesting and rewarding one.

REGULATIONS

1. This cover must not be folded under.
2. File should be retained no longer than is absolutely essential. If a file is frequently needed at short intervals, it is better to B.F. it for two or three days than keep it out of Records indefinitely. This ensures its being completed and kept in order and also gives other offices an opportunity of using it.
3. Records must be notified whenever a file is passed direct to another Division.
4. All outgoing letters should bear the official file number and originator's designation.
5. ONE SUBJECT—ONE COMMUNICATION—Where the contents of outgoing letters necessarily refer to more than one subject, the originator will prepare additional copies for attachment to relevant files.
6. Correspondence must not be removed from file, except as provided in the regulations governing the conduct of correspondence.
7. Incorrectly filed material will not be removed without notification to Records.
8. Official office designations are to be used for routing purposes.
9. Disposal entries on file jackets must be initialled and dated.
10. Blue Slips will not be attached to files without notification to Records.
11. Urgent Tags, flags and other markers will be removed in Divisional Offices as soon as appropriate action on the folios has been taken.
12. Officials are reminded that strict adherence to the security regulations is essential when dealing with classified material.

INSTRUCTIONS

1. This cover must not be folded under.
2. File should be retained no longer than is absolutely essential. If a file is frequently needed at short intervals, it is better to B.F. it for two or three days than keep it out of Central Registry indefinitely. This ensures its being completed and kept in order and also gives other officers an opportunity of using it.
3. Central Registry must be notified whenever a file is passed directly between one official and another.
4. All outgoing letters should bear the official file number and originator's designation.
5. ONE SUBJECT—ONE COMMUNICATION—Where the contents of outgoing letters necessarily refer to more than one subject, the originator will prepare additional copies for attachment to relevant files.
6. Correspondence must not be removed from file, except as provided in the regulations governing the conduct of correspondence.
7. Incorrectly filed material will not be removed without notification to Central Registry.
8. Official office designations are to be used for routing purposes.
9. Disposal entries on file jackets must be initialled and dated.
10. Urgent Tags, flags and other markers will be removed in Divisional Offices as soon as appropriate action on the folios has been taken.
11. Officials are reminded that strict adherence to the security regulations is essential when dealing with classified material.
